LAPP site report - A French Tier3

Monday 23 April 2007 10:15 (15 minutes)

LAPP (Laboratoire d'Annecy le Vieux de Physique des Particules) is a French IN2P3 laboratory involved in LHC experiments (Atlas, LHCb) as a Tier3. We will describe our computing resources (shared by local and grid users), storage resources, services running at site, monitoring and "home made" accounting tools.
