Limit without smoothing

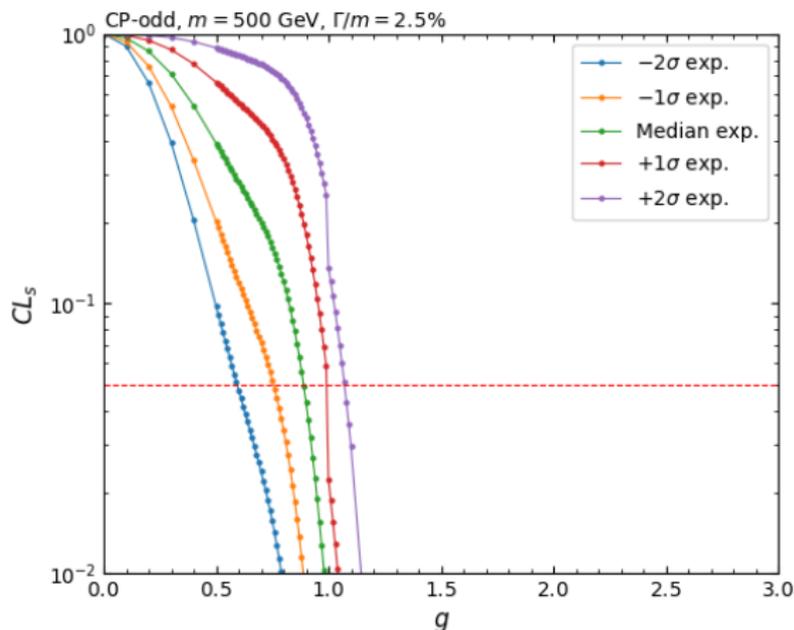

Figure: Limit for Pseudoscalar reference sample with mass of 500 GeV and width of 2.5 % of the mass, g is the scaling of the coupling between the Heavy Higgs and the top quarks, CL_s is the confidence level. The dashed line indicates the CL_s 95 exclusion level.

Limit with smoothing

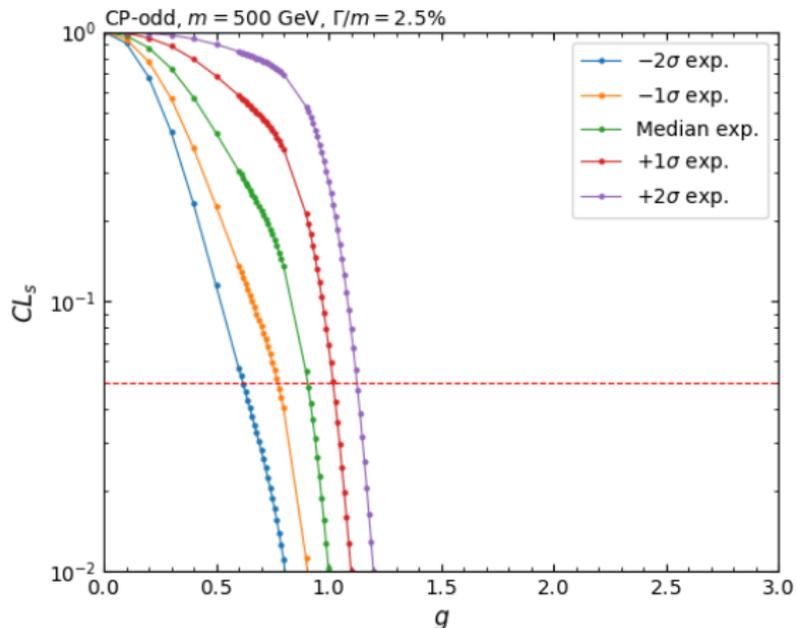

Figure: Limit for Pseudoscalar reference sample with mass of 500 GeV and width of 2.5 % of the mass, g is the scaling of the coupling between the Heavy Higgs and the top quarks, CL_s is the confidence level. The dashed line indicates the CL_s 95 exclusion level.

Search Region with systematics (prefit)

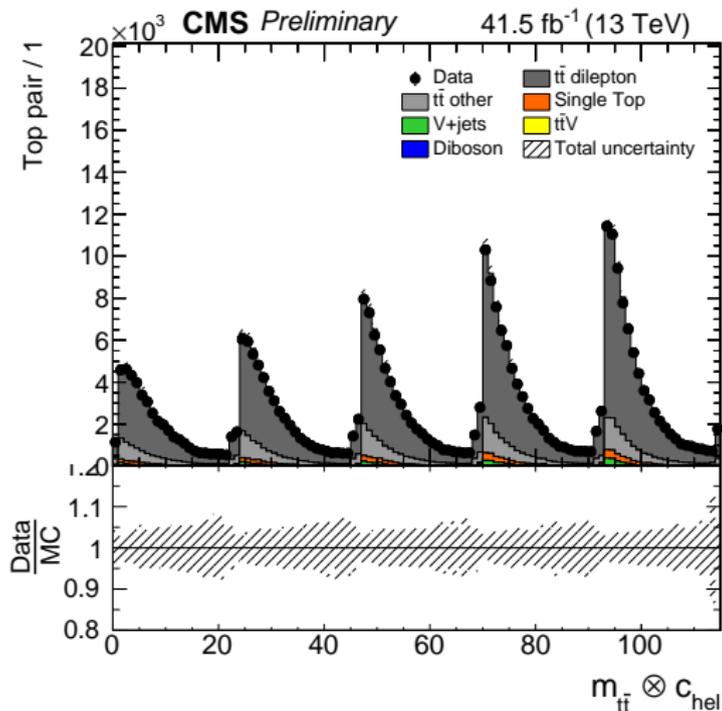

Figure: Unrolled plot for $m_{t\bar{t}}$ and c_{Hel} , where there are 5 c_{Hel} regions with 23 bins for $m_{t\bar{t}}$ in each ranging from 325 GeV to 1200 GeV.

Search Region with statistical errors only

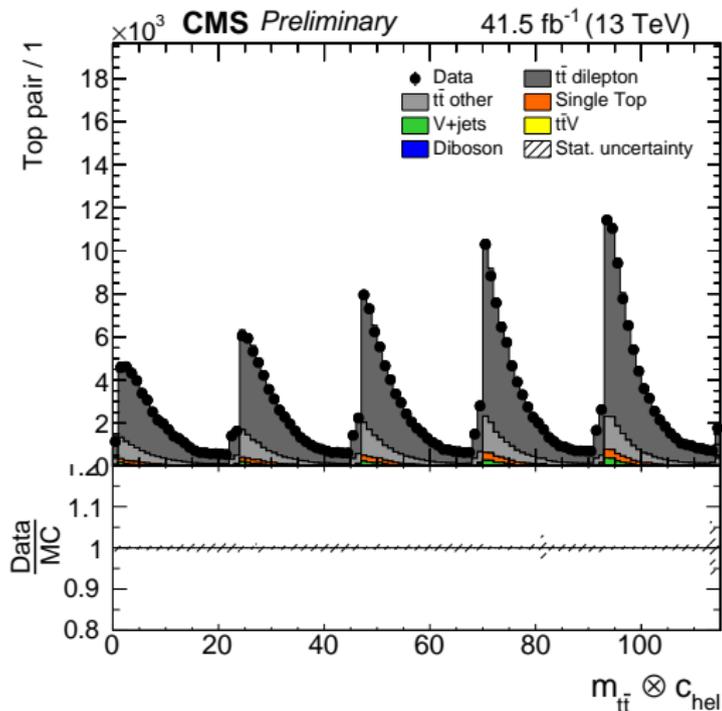

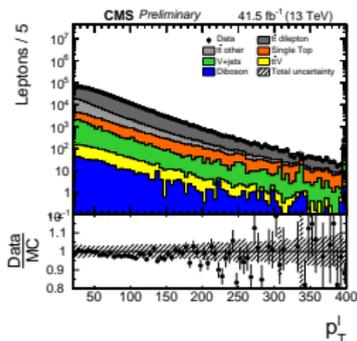

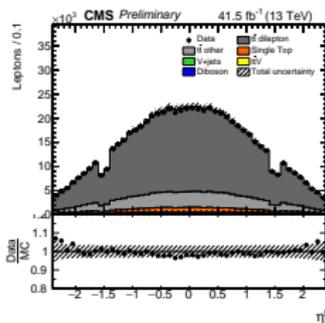

Figure: Unrolled plot for $m_{t\bar{t}}$ and c_{Hel} , where there are 5 c_{Hel} regions with 23 bins for $m_{t\bar{t}}$ in each ranging from 325 GeV to 1200 GeV.

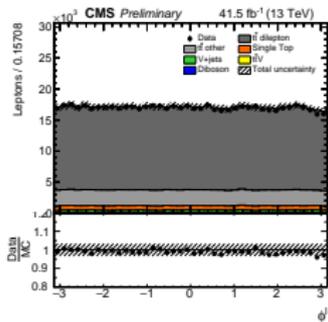

Control Plots with Combined Channels (1 of 43)

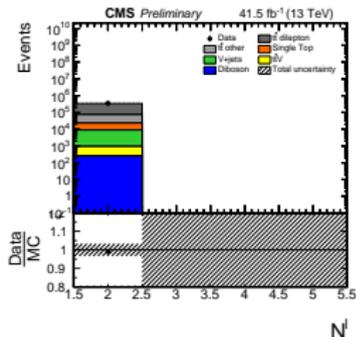

(a) Transverse momentum of leptons (step 7/8)

(b) Pseudorapidity of leptons (step 7/8)

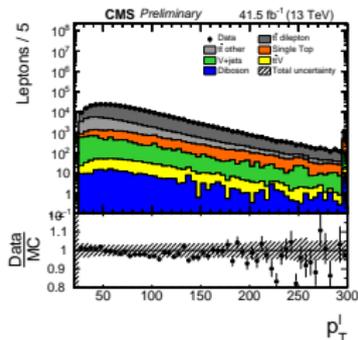

(c) Azimuthal angle of leptons (step 7/8)

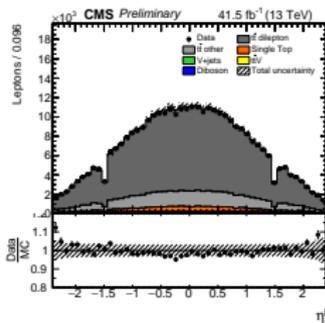

(d) Multiplicity of leptons (step 7/8)

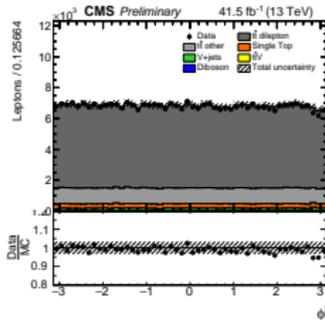

Control Plots with Combined Channels (2 of 43)

(a) Transverse momentum of leading leptons (step 7/8)

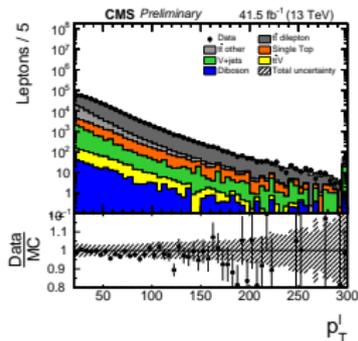

(b) Pseudorapidity of leading leptons (step 7/8)

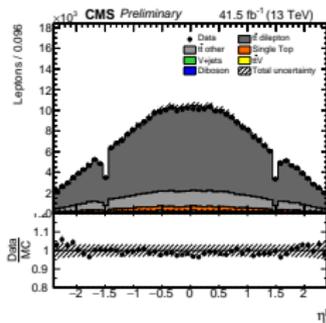

(c) Azimuthal angle of leading leptons (step 7/8)

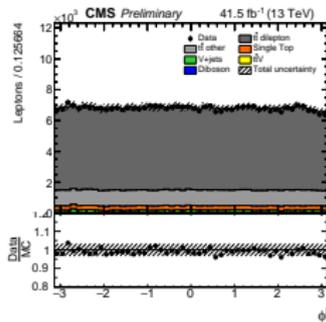

Control Plots with Combined Channels (3 of 43)

(a) Transverse momentum of 2nd lepton (step 7/8)

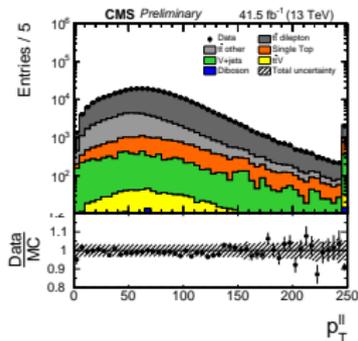

(b) Pseudorapidity of 2nd lepton (step 7/8)

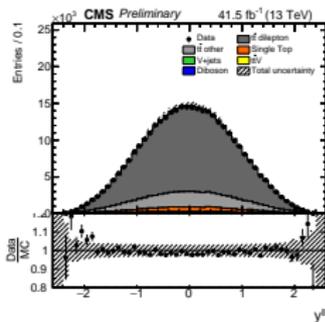

(c) Azimuthal angle of 2nd lepton (step 7/8)

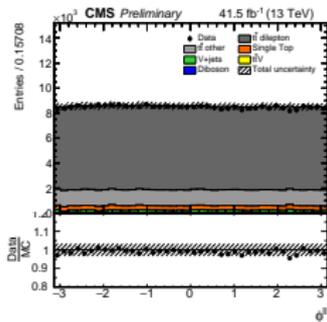

Control Plots with Combined Channels (4 of 43)

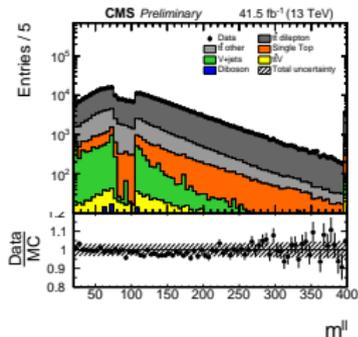

(a) Transverse momentum of di-leptons (step 7/8)

(b) Rapidity of di-leptons (step 7/8)

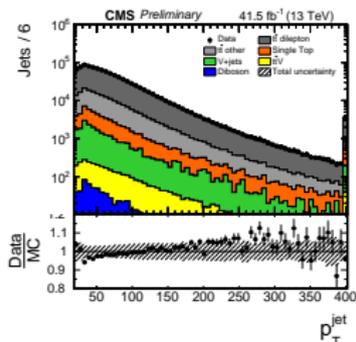

(c) Azimuthal angle of di-leptons (step 7/8)

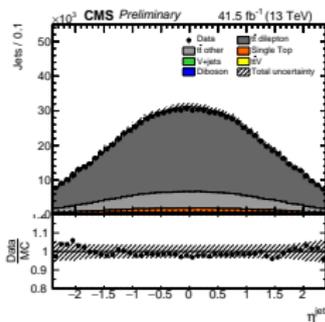

(d) Mass of di-leptons (step 7/8)

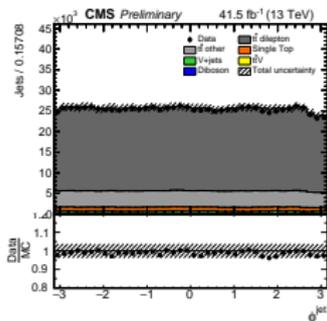

Control Plots with Combined Channels (5 of 43)

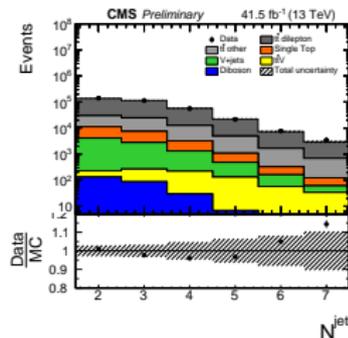

(a) Transverse momentum of jets (step 7/8)

(b) Pseudorapidity of jets (step 7/8)

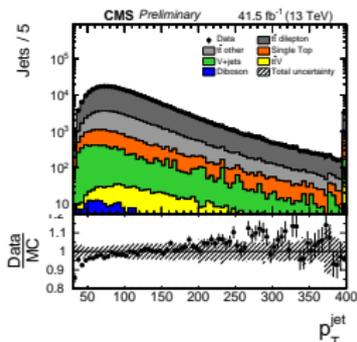

(c) Azimuthal angle of jets (step 7/8)

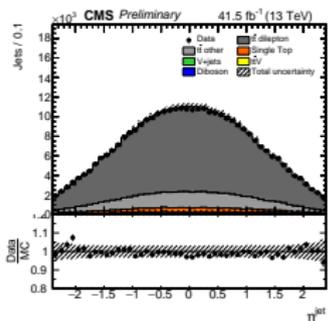

(d) Multiplicity of jets (step 7/8)

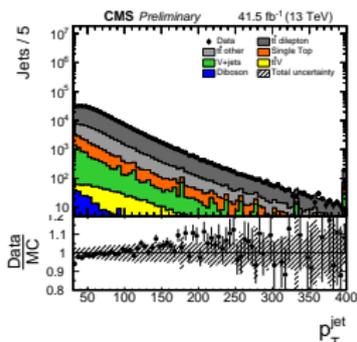

Control Plots with Combined Channels (6 of 43)

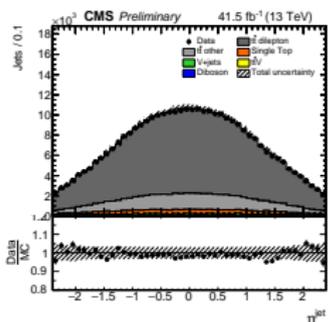

(a) Transverse momentum of leading jets (step 7/8)

(b) Pseudorapidity of leading jets (step 7/8)

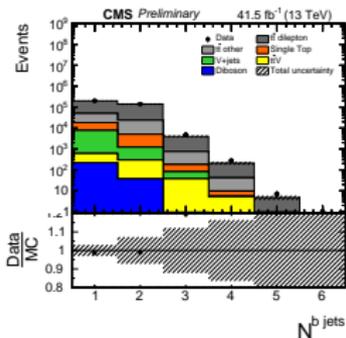

(c) Transverse momentum of subleading jets (step 7/8)

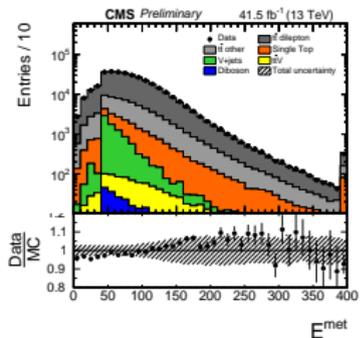

(d) Pseudorapidity of subleading jets (step 7/8)

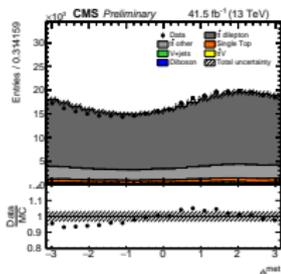

Control Plots with Combined Channels (7 of 43)

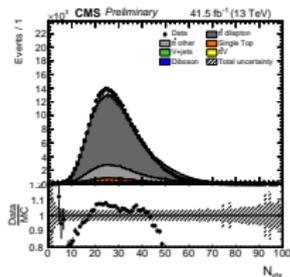

(a) Multiplicity of b-tagged jets (step 7/8)

(b) Missing transverse momentum (step 7/8)

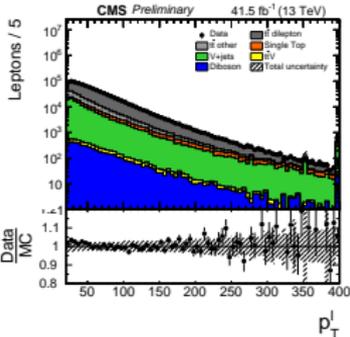

(c) Azimuthal angle of missing transverse momentum (step 7/8)

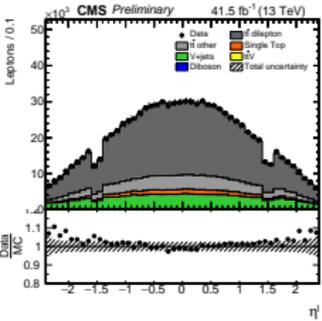

(d) Vertex multiplicity (pileup) (step 7/8)

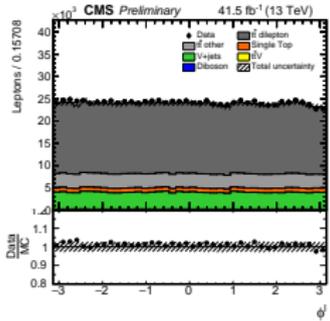

Control Plots with Combined Channels (8 of 43)

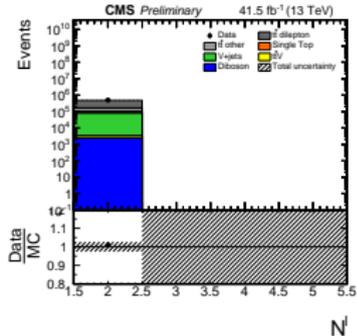

(a) Transverse momentum of leptons (step 6/8)

(b) Pseudorapidity of leptons (step 6/8)

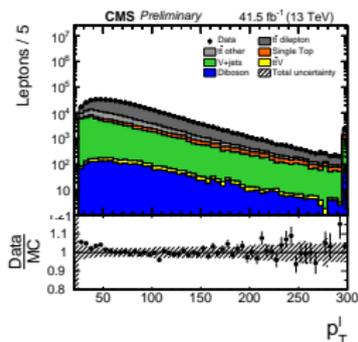

(c) Azimuthal angle of leptons (step 6/8)

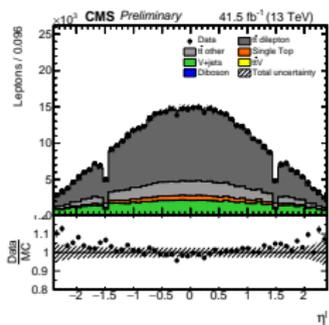

(d) Multiplicity of leptons (step 6/8)

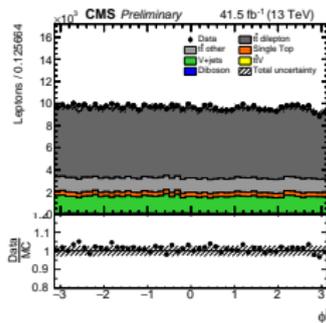

Control Plots with Combined Channels (9 of 43)

(a) Transverse momentum of leading leptons (step 6/8)

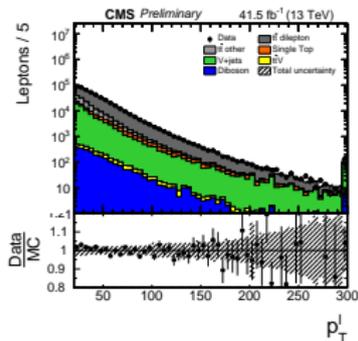

(b) Pseudorapidity of leading leptons (step 6/8)

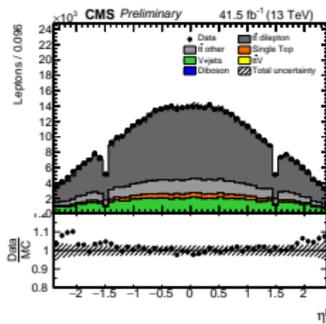

(c) Azimuthal angle of leading leptons (step 6/8)

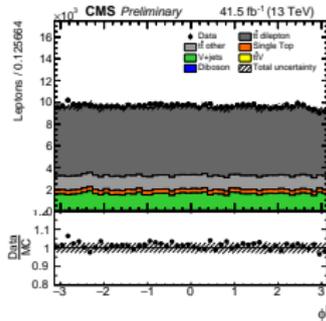

Control Plots with Combined Channels (10 of 43)

(a) Transverse momentum of 2nd leptons (step 6/8)

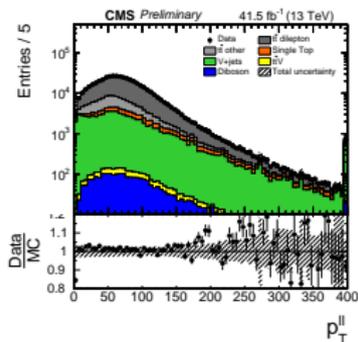

(b) Pseudorapidity of 2nd leptons (step 6/8)

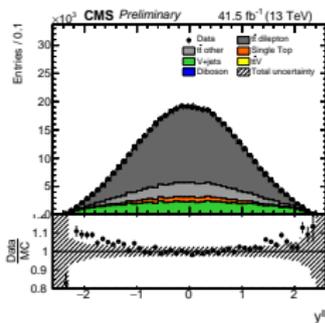

(c) Azimuthal angle of 2nd leptons (step 6/8)

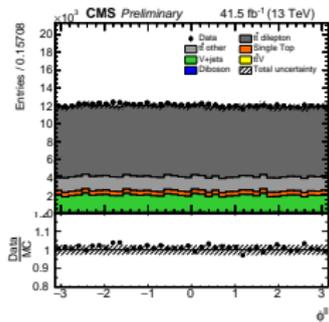

Control Plots with Combined Channels (11 of 43)

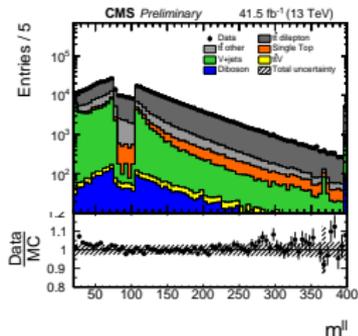

(a) Transverse momentum of di-leptons (step 6/8)

(b) Rapidity of di-leptons (step 6/8)

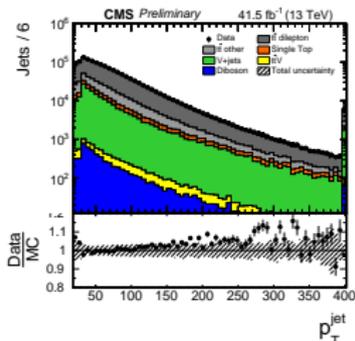

(c) Azimuthal angle of di-leptons (step 6/8)

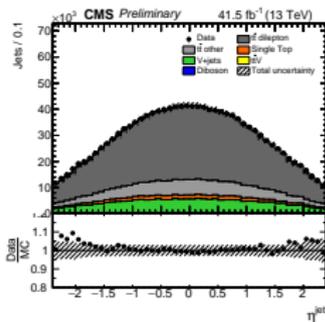

(d) Mass of di-leptons (step 6/8)

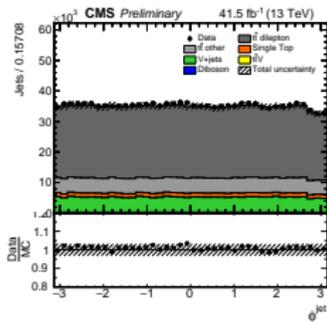

Control Plots with Combined Channels (12 of 43)

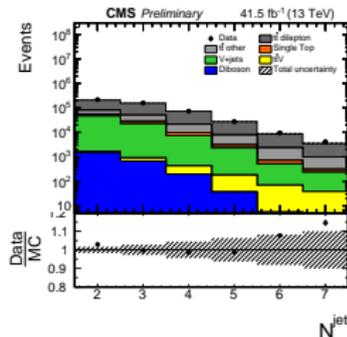

(a) Transverse momentum of jets (step 6/8)

(b) Pseudorapidity of jets (step 6/8)

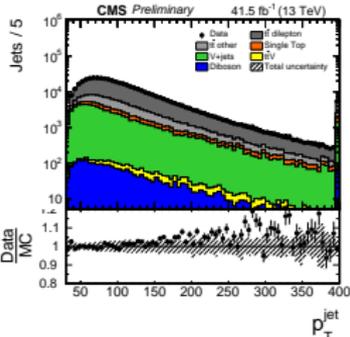

(c) Azimuthal angle of jets (step 6/8)

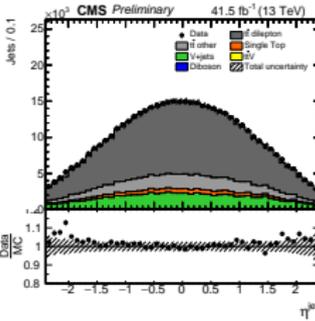

(d) Multiplicity of jets (step 6/8)

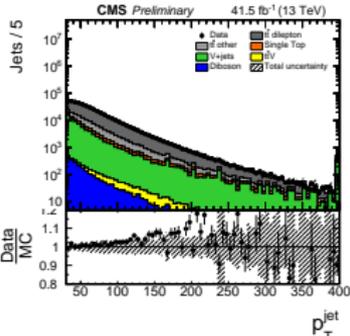

Control Plots with Combined Channels (13 of 43)

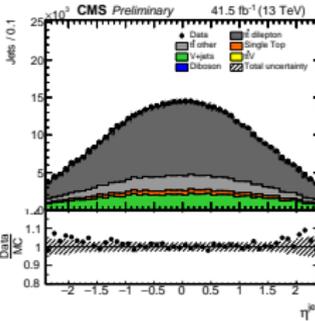

(a) Transverse momentum of leading jets (step 6/8)

(b) Pseudorapidity of leading jets (step 6/8)

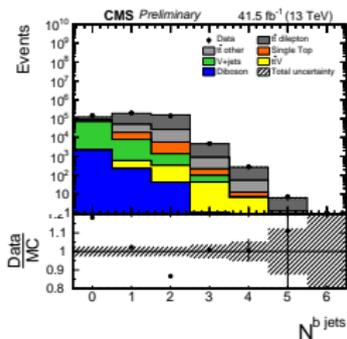

(c) Transverse momentum of subleading jets (step 6/8)

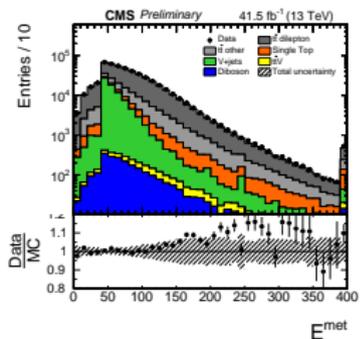

(d) Pseudorapidity of subleading jets (step 6/8)

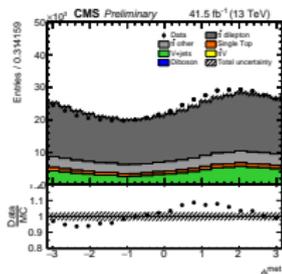

Control Plots with Combined Channels (14 of 43)

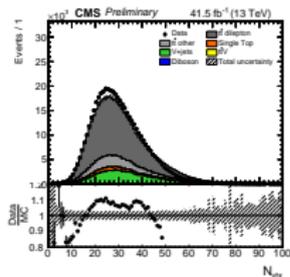

(a) Multiplicity of b-tagged jets (step 6/8)

(b) Missing transverse momentum (step 6/8)

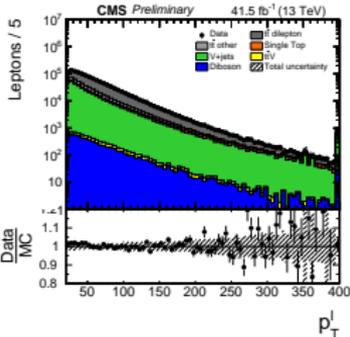

(c) Azimuthal angle of missing transverse momentum (step 6/8)

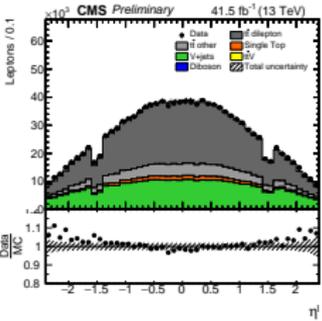

(d) Vertex multiplicity (pileup) (step 6/8)

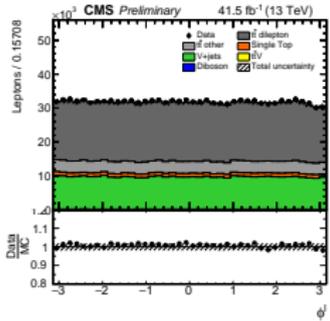

Control Plots with Combined Channels (15 of 43)

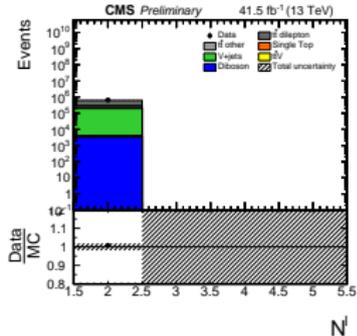

(a) Transverse momentum of leptons (step 5/8)

(b) Pseudorapidity of leptons (step 5/8)

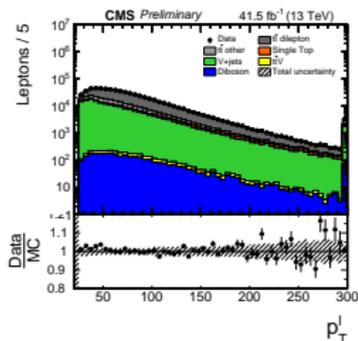

(c) Azimuthal angle of leptons (step 5/8)

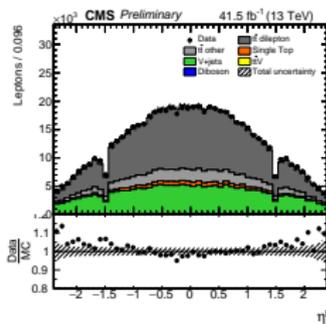

(d) Multiplicity of leptons (step 5/8)

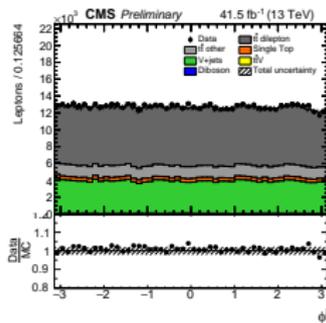

Control Plots with Combined Channels (16 of 43)

(a) Transverse momentum of leading leptons (step 5/8)

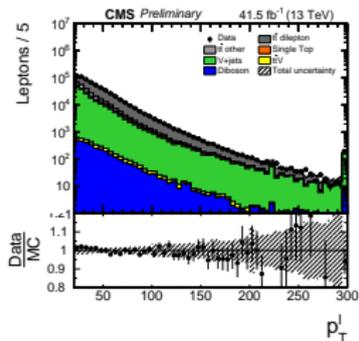

(b) Pseudorapidity of leading leptons (step 5/8)

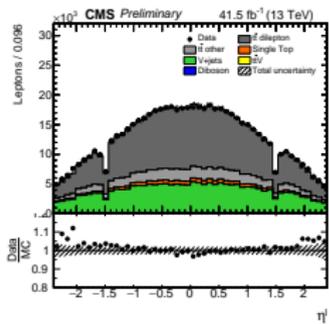

(c) Azimuthal angle of leading leptons (step 5/8)

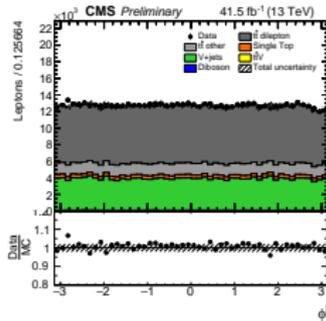

Control Plots with Combined Channels (17 of 43)

(a) Transverse momentum of 2nd leptons (step 5/8)

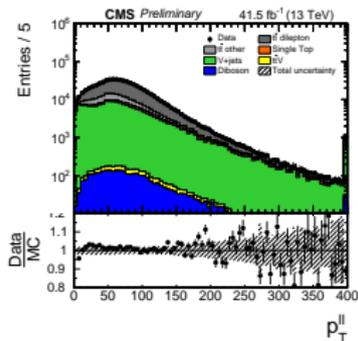

(b) Pseudorapidity of 2nd leptons (step 5/8)

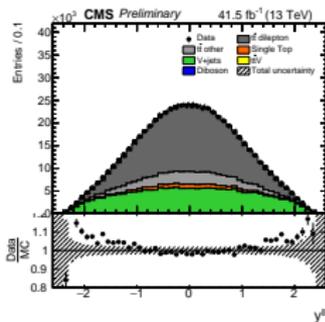

(c) Azimuthal angle of 2nd leptons (step 5/8)

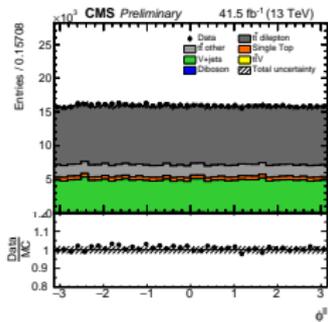

Control Plots with Combined Channels (18 of 43)

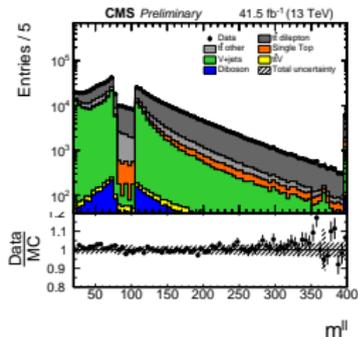

(a) Transverse momentum of di-leptons (step 5/8)

(b) Rapidity of di-leptons (step 5/8)

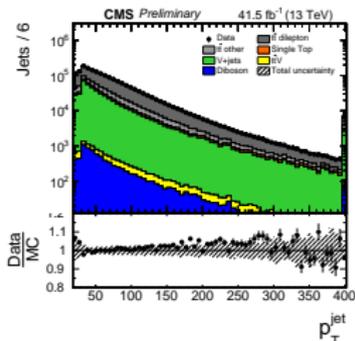

(c) Azimuthal angle of di-leptons (step 5/8)

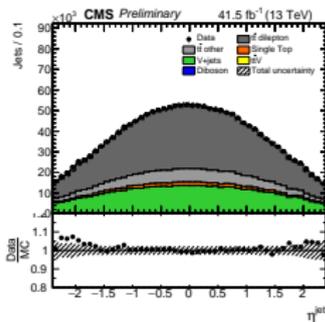

(d) Mass of di-leptons (step 5/8)

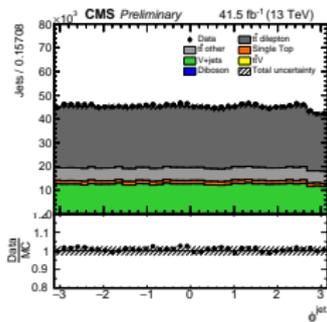

Control Plots with Combined Channels (19 of 43)

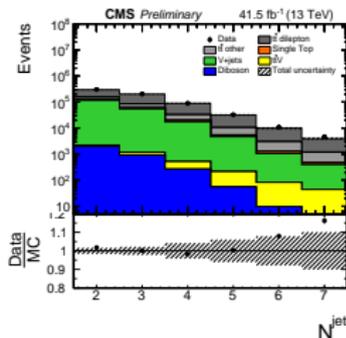

(a) Transverse momentum of jets (step 5/8)

(b) Pseudorapidity of jets (step 5/8)

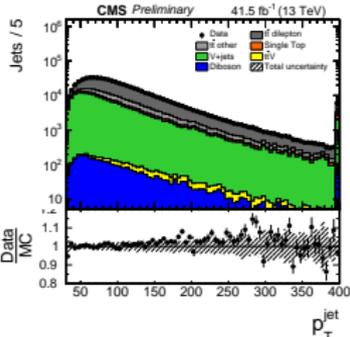

(c) Azimuthal angle of jets (step 5/8)

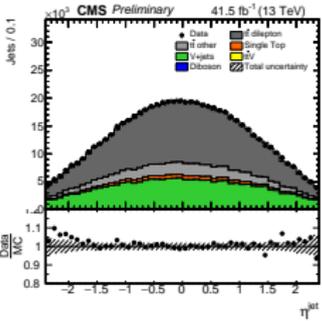

(d) Multiplicity of jets (step 5/8)

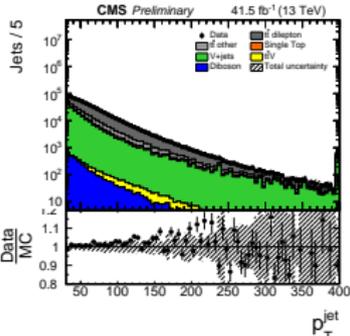

Control Plots with Combined Channels (20 of 43)

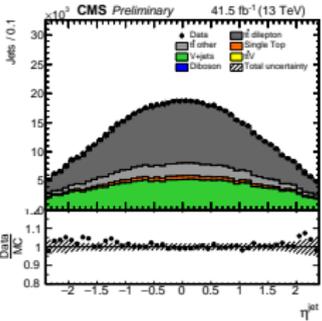

(a) Transverse momentum of leading jets (step 5/8)

(b) Pseudorapidity of leading jets (step 5/8)

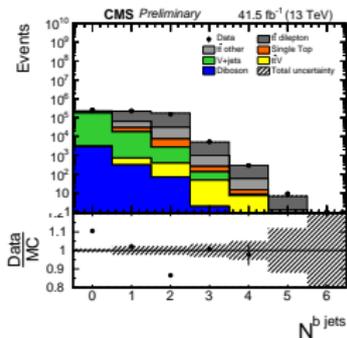

(c) Transverse momentum of subleading jets (step 5/8)

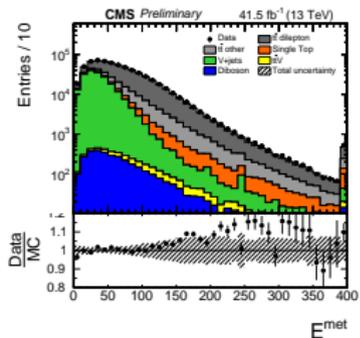

(d) Pseudorapidity of subleading jets (step 5/8)

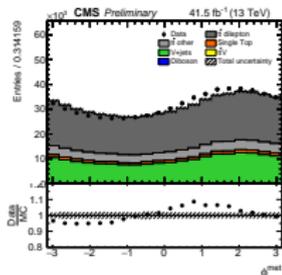

Control Plots with Combined Channels (21 of 43)

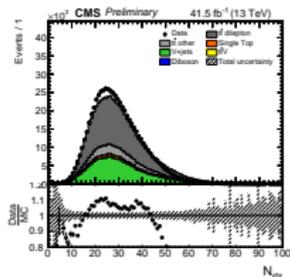

(a) Multiplicity of b-tagged jets (step 5/8)

(b) Missing transverse momentum (step 5/8)

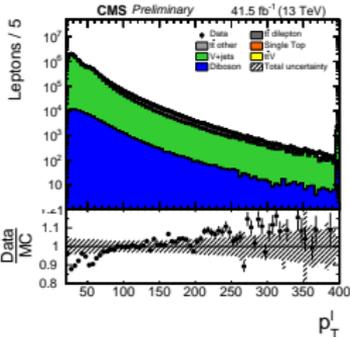

(c) Azimuthal angle of missing transverse momentum (step 5/8)

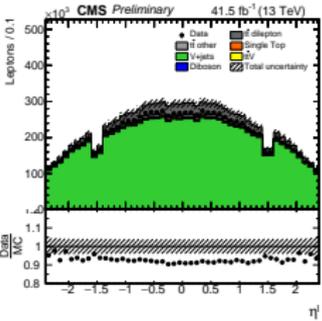

(d) Vertex multiplicity (pileup) (step 5/8)

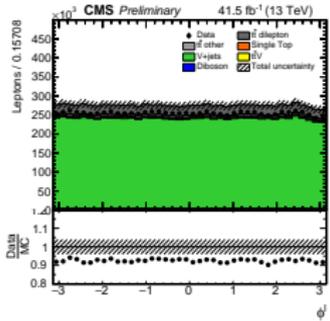

Control Plots with Combined Channels (22 of 43)

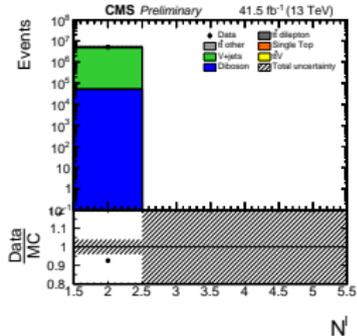

(a) Transverse momentum of leptons (step 4/8)

(b) Pseudorapidity of leptons (step 4/8)

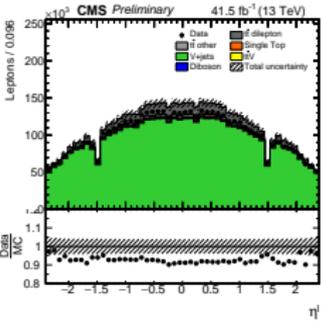

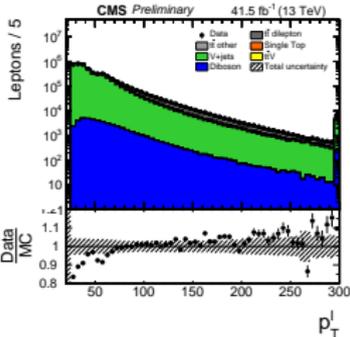

(c) Azimuthal angle of leptons (step 4/8)

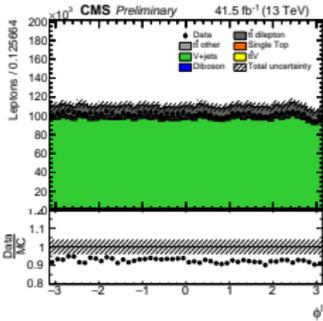

(d) Multiplicity of leptons (step 4/8)

Control Plots with Combined Channels (23 of 43)

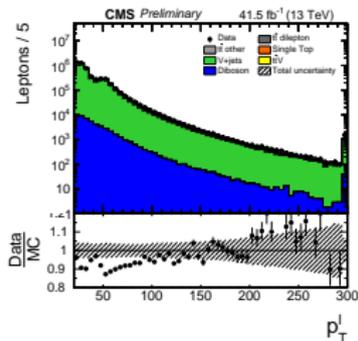

(a) Transverse momentum of leading leptons (step 4/8) (b) Pseudorapidity of leading leptons (step 4/8)

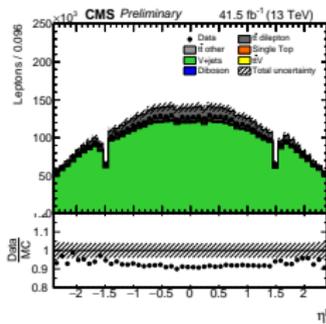

(c) Azimuthal angle of leading leptons (step 4/8)

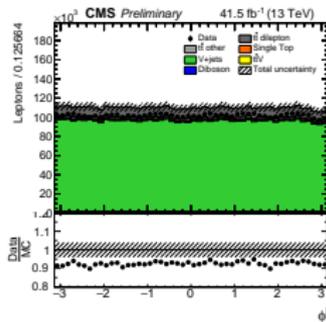

Control Plots with Combined Channels (24 of 43)

(a) Transverse momentum of 2nd leptons (step 4/8)

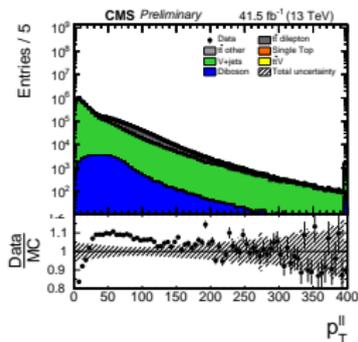

(b) Pseudorapidity of 2nd leptons (step 4/8)

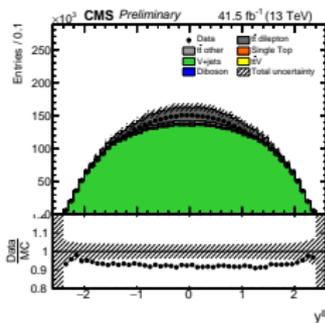

(c) Azimuthal angle of 2nd leptons (step 4/8)

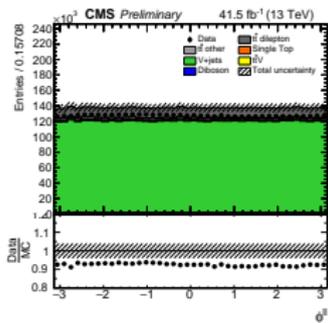

Control Plots with Combined Channels (25 of 43)

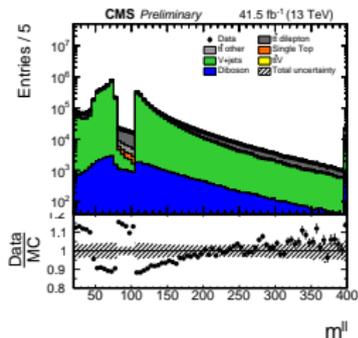

(a) Transverse momentum of di-leptons (step 4/8)

(b) Rapidity of di-leptons (step 4/8)

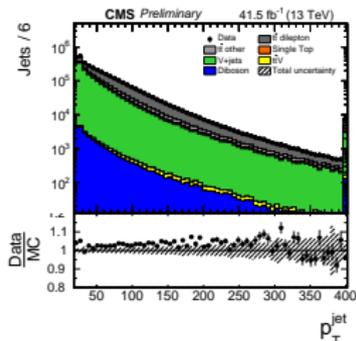

(c) Azimuthal angle of di-leptons (step 4/8)

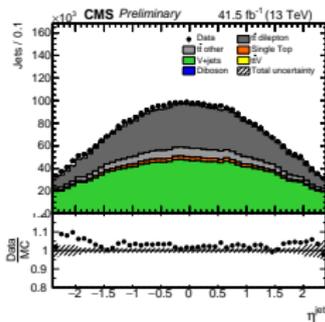

(d) Mass of di-leptons (step 4/8)

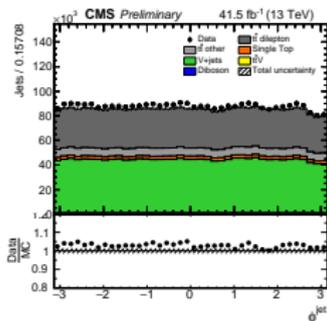

Control Plots with Combined Channels (26 of 43)

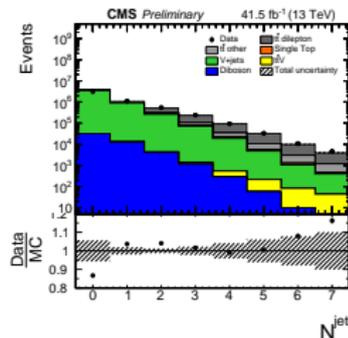

(a) Transverse momentum of jets (step 4/8)

(b) Pseudorapidity of jets (step 4/8)

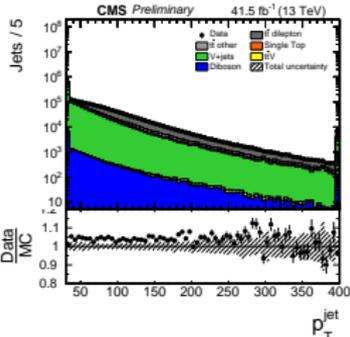

(c) Azimuthal angle of jets (step 4/8)

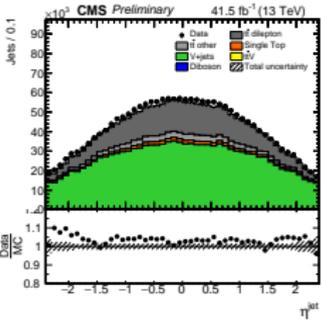

(d) Multiplicity of jets (step 4/8)

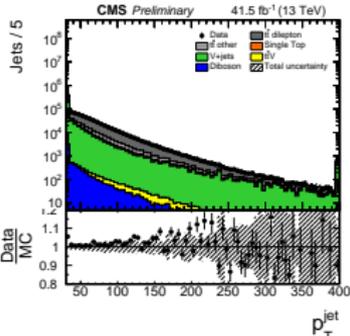

Control Plots with Combined Channels (27 of 43)

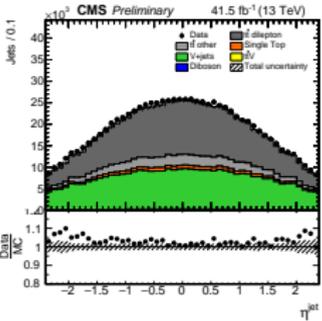

(a) Transverse momentum of leading jets (step 4/8)

(b) Pseudorapidity of leading jets (step 4/8)

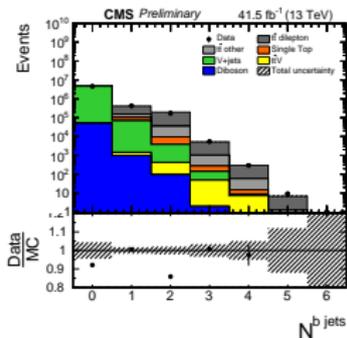

(c) Transverse momentum of subleading jets (step 4/8)

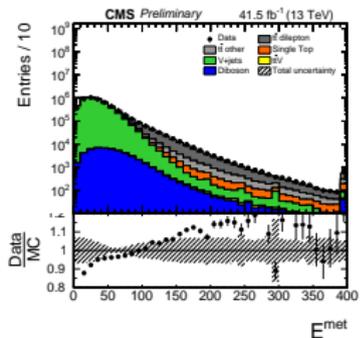

(d) Pseudorapidity of subleading jets (step 4/8)

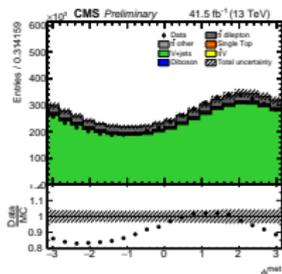

Control Plots with Combined Channels (28 of 43)

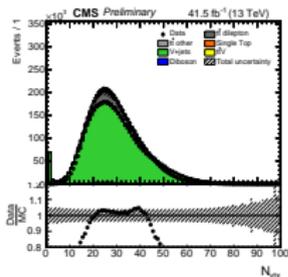

(a) Multiplicity of b-tagged jets (step 4/8)

(b) Missing transverse momentum (step 4/8)

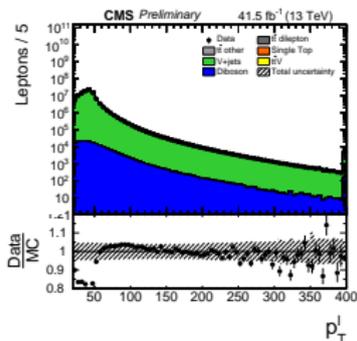

(c) Azimuthal angle of missing transverse momentum (step 4/8)

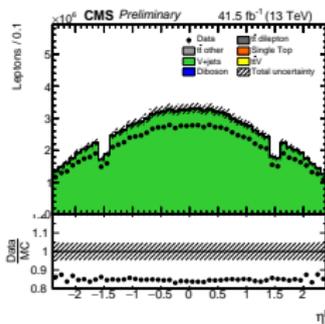

(d) Vertex multiplicity (pileup) (step 4/8)

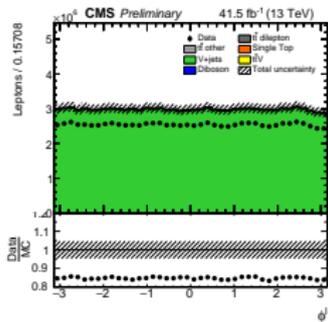

Control Plots with Combined Channels (29 of 43)

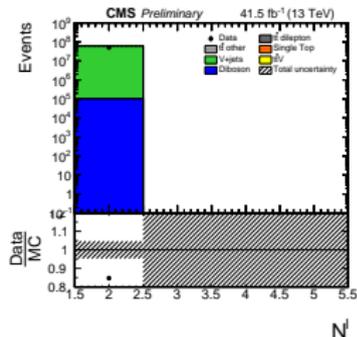

(a) Transverse momentum of leptons (step 3/8)

(b) Pseudorapidity of leptons (step 3/8)

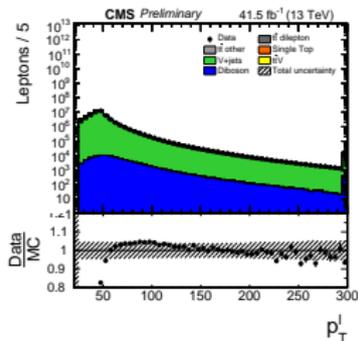

(c) Azimuthal angle of leptons (step 3/8)

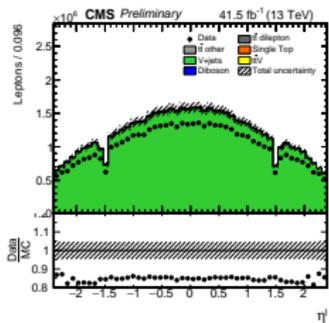

(d) Multiplicity of leptons (step 3/8)

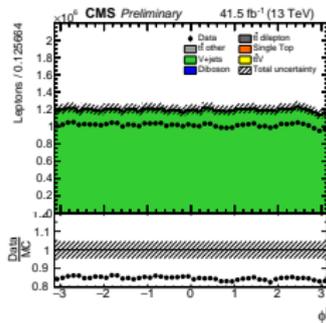

Control Plots with Combined Channels (30 of 43)

(a) Transverse momentum of leading leptons (step 3/8)

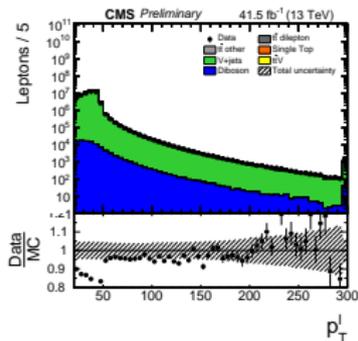

(b) Pseudorapidity of leading leptons (step 3/8)

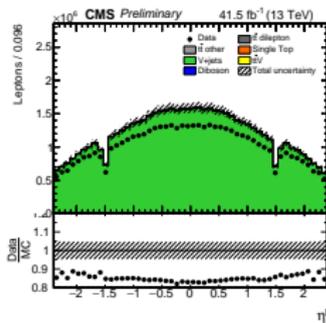

(c) Azimuthal angle of leading leptons (step 3/8)

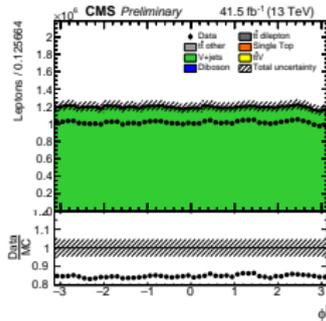

Control Plots with Combined Channels (31 of 43)

(a) Transverse momentum of 2nd leptons (step 3/8)

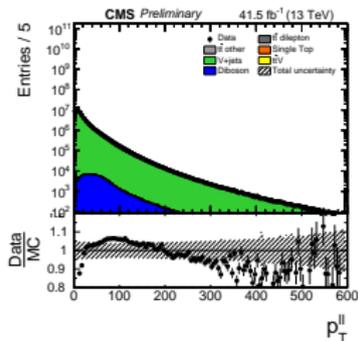

(b) Pseudorapidity of 2nd leptons (step 3/8)

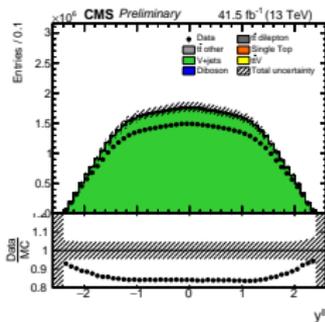

(c) Azimuthal angle of 2nd leptons (step 3/8)

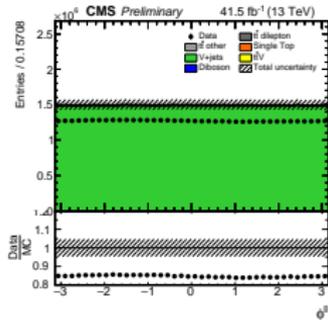

Control Plots with Combined Channels (32 of 43)

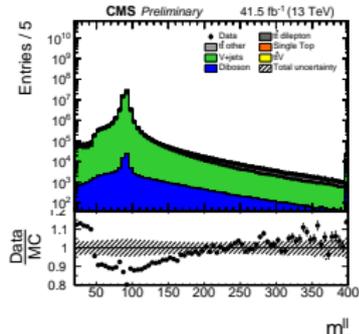

(a) Transverse momentum of di-leptons (step 3/8)

(b) Rapidity of di-leptons (step 3/8)

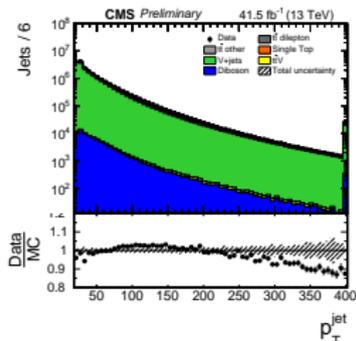

(c) Azimuthal angle of di-leptons (step 3/8)

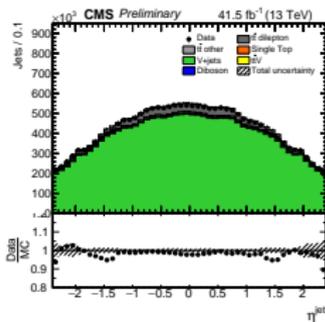

(d) Mass of di-leptons (step 3/8)

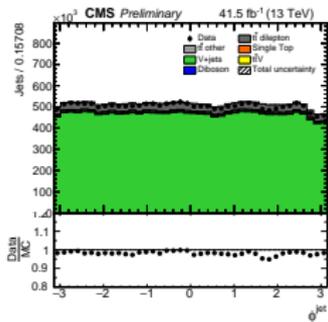

Control Plots with Combined Channels (33 of 43)

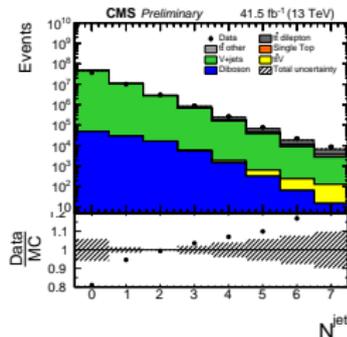

(a) Transverse momentum of jets (step 3/8)

(b) Pseudorapidity of jets (step 3/8)

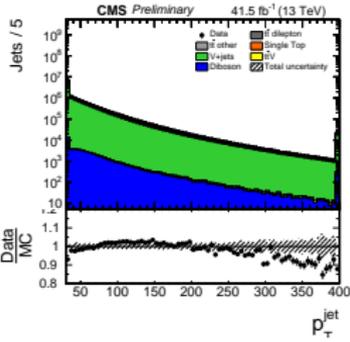

(c) Azimuthal angle of jets (step 3/8)

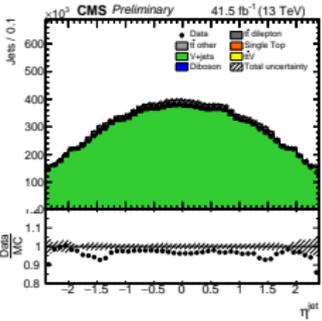

(d) Multiplicity of jets (step 3/8)

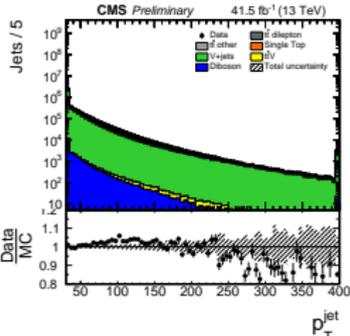

Control Plots with Combined Channels (34 of 43)

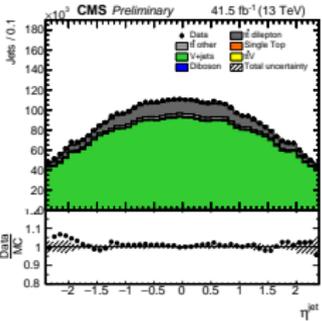

(a) Transverse momentum of leading jets (step 3/8)

(b) Pseudorapidity of leading jets (step 3/8)

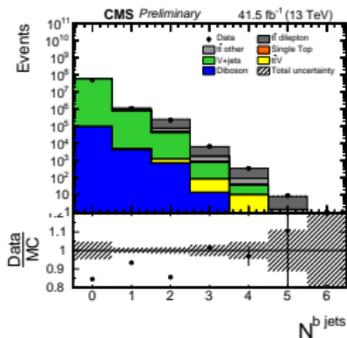

(c) Transverse momentum of subleading jets (step 3/8)

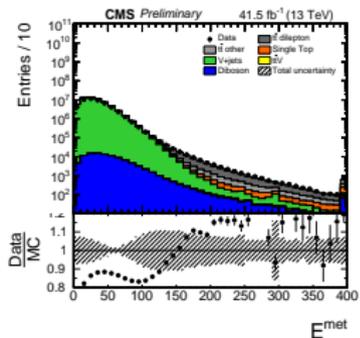

(d) Pseudorapidity of subleading jets (step 3/8)

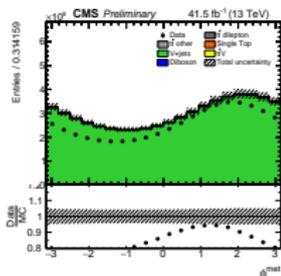

Control Plots with Combined Channels (35 of 43)

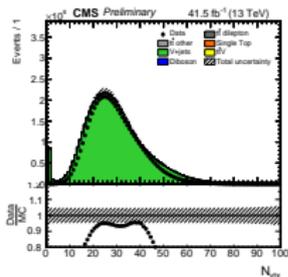

(a) Multiplicity of b-tagged jets (step 3/8)

(b) Missing transverse momentum (step 3/8)

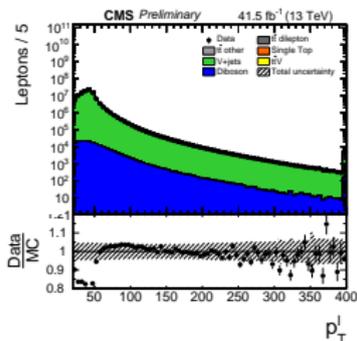

(c) Azimuthal angle of missing transverse momentum (step 3/8)

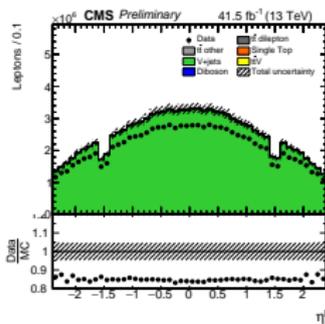

(d) Vertex multiplicity (pileup) (step 3/8)

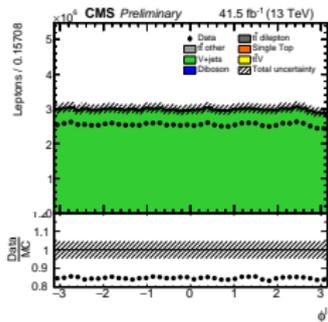

Control Plots with Combined Channels (36 of 43)

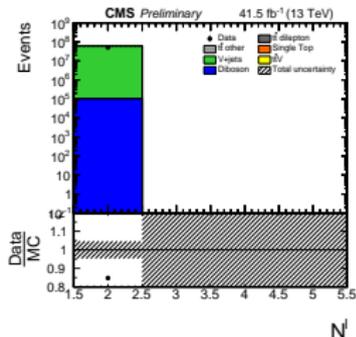

(a) Transverse momentum of leptons (step 2/8)

(b) Pseudorapidity of leptons (step 2/8)

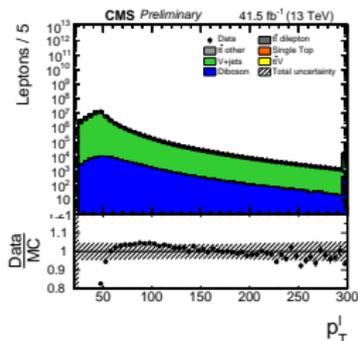

(c) Azimuthal angle of leptons (step 2/8)

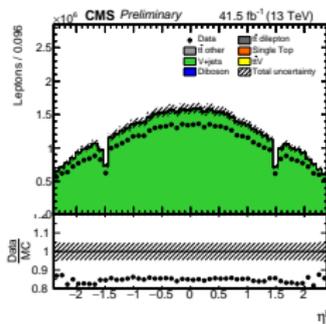

(d) Multiplicity of leptons (step 2/8)

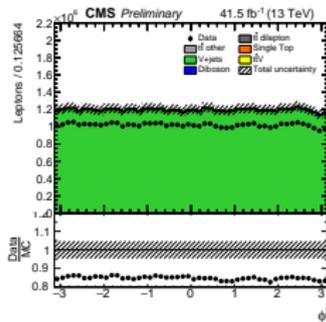

Control Plots with Combined Channels (37 of 43)

(a) Transverse momentum of leading leptons (step 2/8)

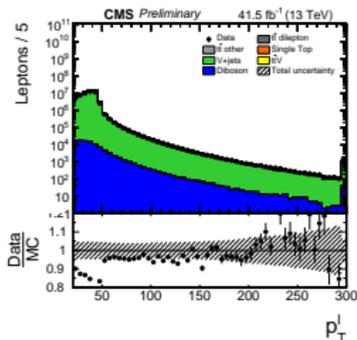

(b) Pseudorapidity of leading leptons (step 2/8)

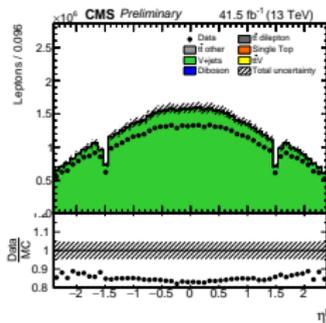

(c) Azimuthal angle of leading leptons (step 2/8)

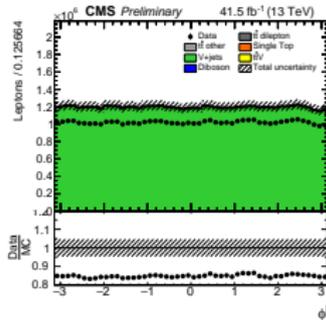

Control Plots with Combined Channels (38 of 43)

(a) Transverse momentum of 2nd leptons (step 2/8)

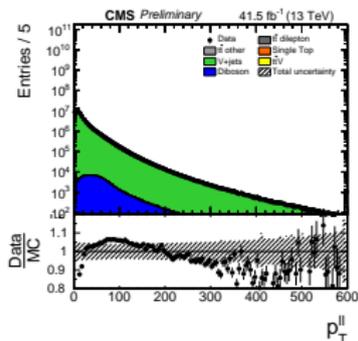

(b) Pseudorapidity of 2nd leptons (step 2/8)

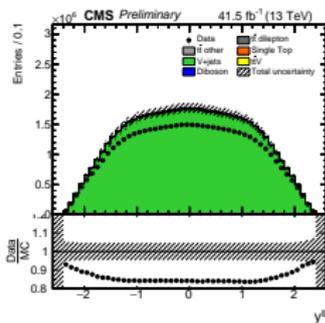

(c) Azimuthal angle of 2nd leptons (step 2/8)

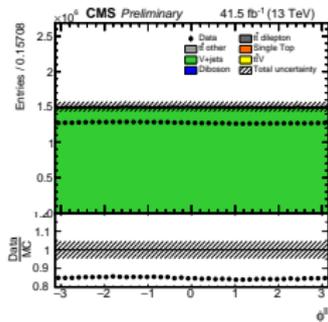

Control Plots with Combined Channels (39 of 43)

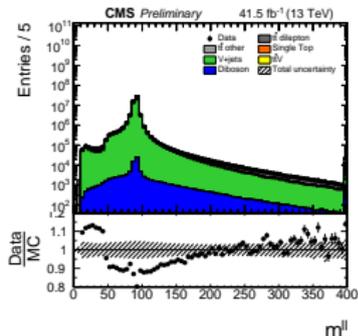

(a) Transverse momentum of di-leptons (step 2/8)

(b) Rapidity of di-leptons (step 2/8)

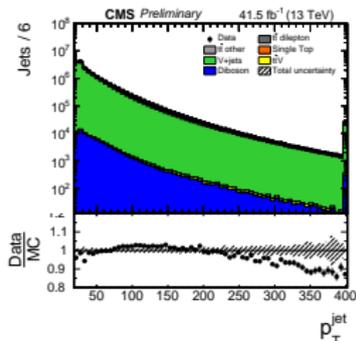

(c) Azimuthal angle of di-leptons (step 2/8)

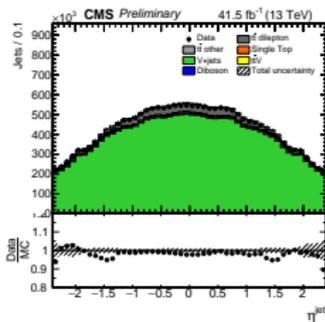

(d) Mass of di-leptons (step 2/8)

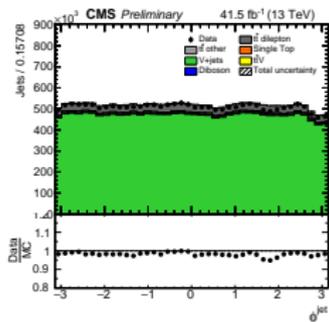

Control Plots with Combined Channels (40 of 43)

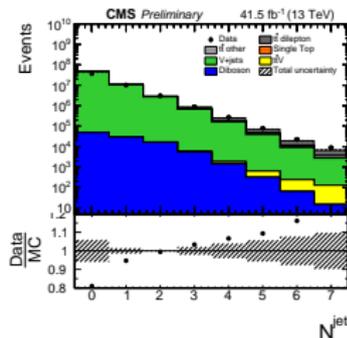

(a) Transverse momentum of jets (step 2/8)

(b) Pseudorapidity of jets (step 2/8)

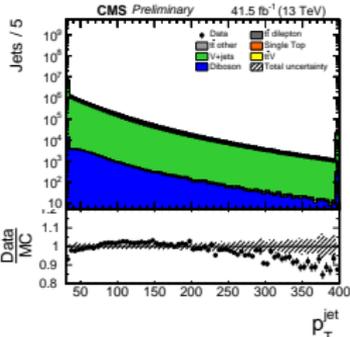

(c) Azimuthal angle of jets (step 2/8)

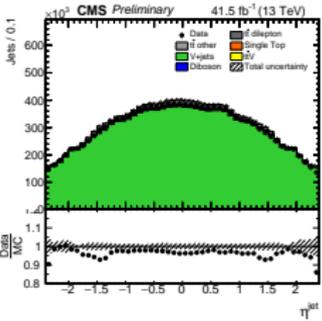

(d) Multiplicity of jets (step 2/8)

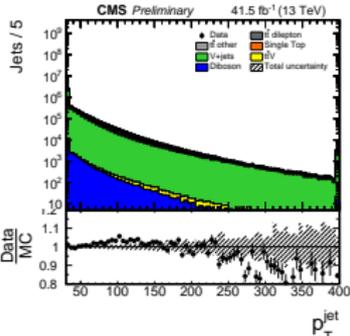

Control Plots with Combined Channels (41 of 43)

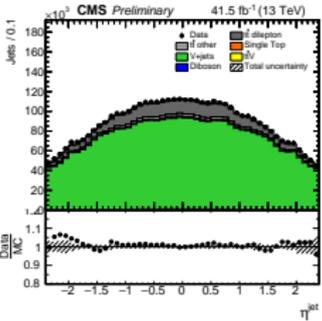

(a) Transverse momentum of leading jets (step 2/8)

(b) Pseudorapidity of leading jets (step 2/8)

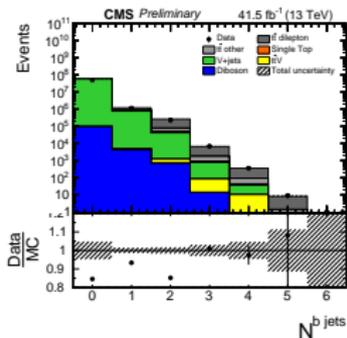

(c) Transverse momentum of subleading jets (step 2/8)

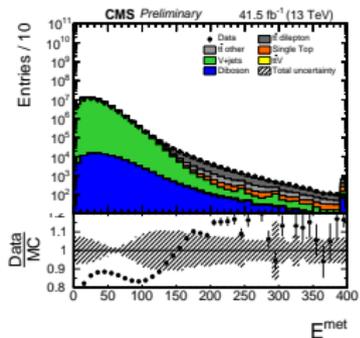

(d) Pseudorapidity of subleading jets (step 2/8)

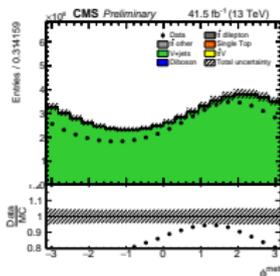

Control Plots with Combined Channels (42 of 43)

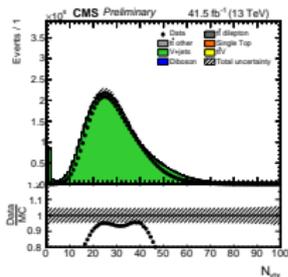

(a) Multiplicity of b-tagged jets (step 2/8)

(b) Missing transverse momentum (step 2/8)

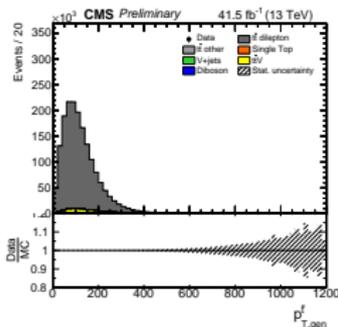

(c) Azimuthal angle of missing transverse momentum (step 2/8)

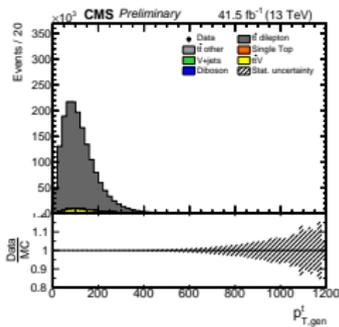

(d) Vertex multiplicity (pileup) (step 2/8)

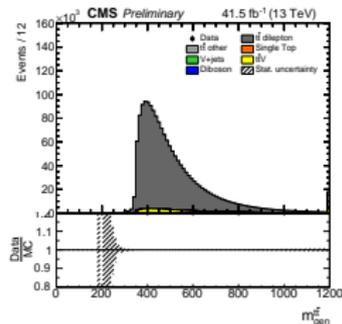

Control Plots with Combined Channels (43 of 43)

(a) Transverse momentum of antitop quark.

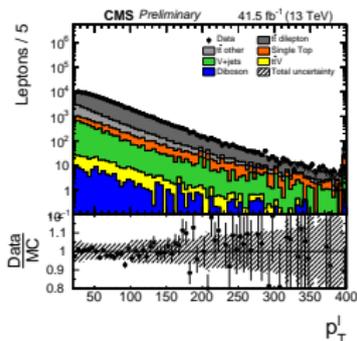

(b) Transverse momentum of top quark.

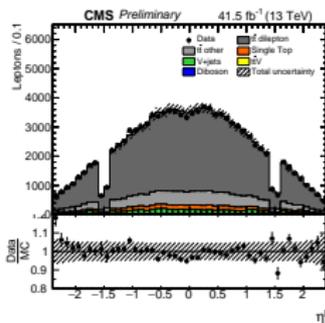

(c) Mass of $t\bar{t}$ system.

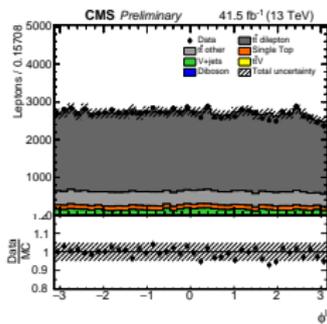

Control Plots with ee Channel (1 of 43)

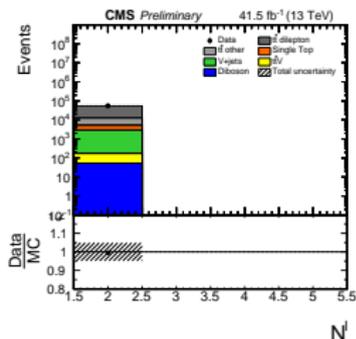

(a) Transverse momentum of leptons (step 7/8)

(b) Pseudorapidity of leptons (step 7/8)

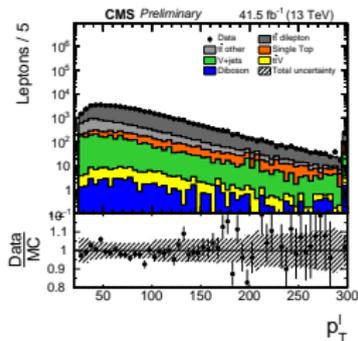

(c) Azimuthal angle of leptons (step 7/8)

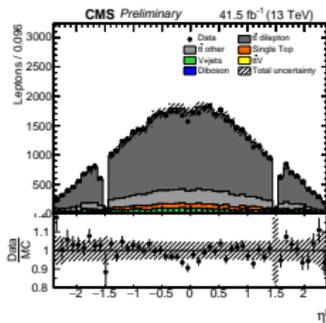

(d) Multiplicity of leptons (step 7/8)

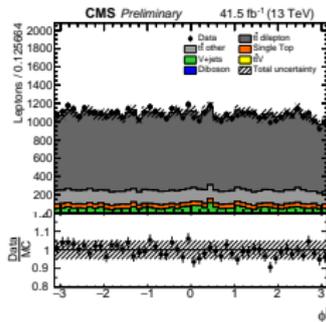

Control Plots with ee Channel (2 of 43)

(a) Transverse momentum of leading leptons (step 7/8)

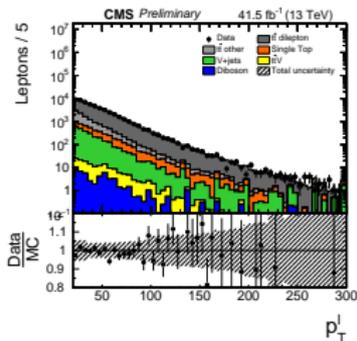

(b) Pseudorapidity of leading leptons (step 7/8)

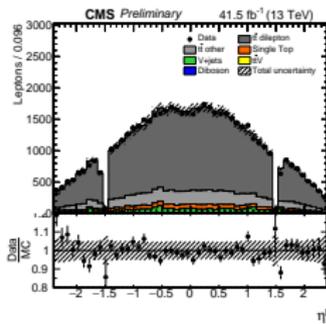

(c) Azimuthal angle of leading leptons (step 7/8)

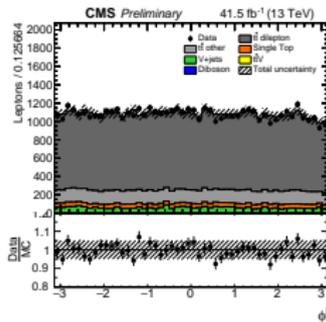

Control Plots with ee Channel (3 of 43)

(a) Transverse momentum of 2nd leptons (step 7/8)

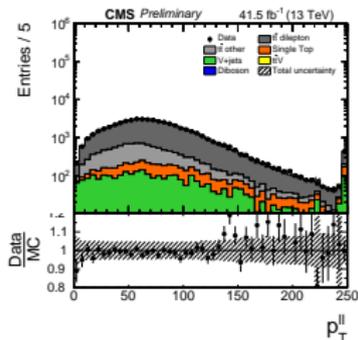

(b) Pseudorapidity of 2nd leptons (step 7/8)

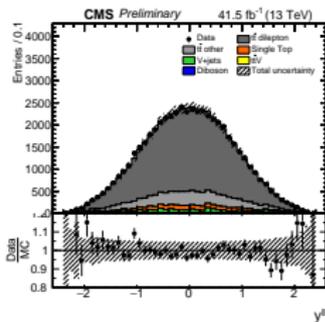

(c) Azimuthal angle of 2nd leptons (step 7/8)

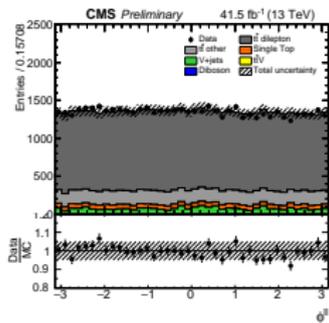

Control Plots with ee Channel (4 of 43)

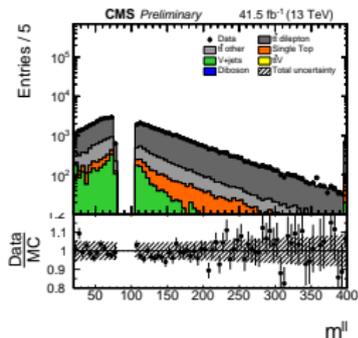

(a) Transverse momentum of di-leptons (step 7/8)

(b) Rapidity of di-leptons (step 7/8)

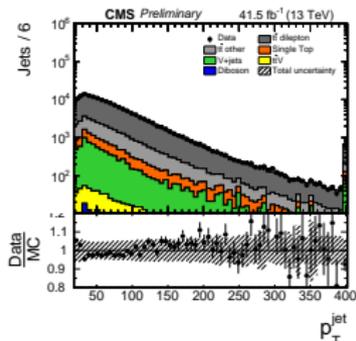

(c) Azimuthal angle of di-leptons (step 7/8)

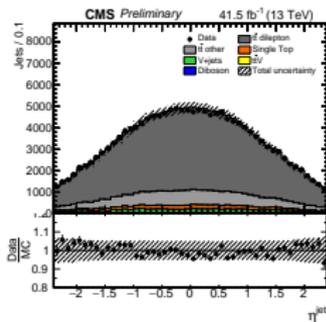

(d) Mass of di-leptons (step 7/8)

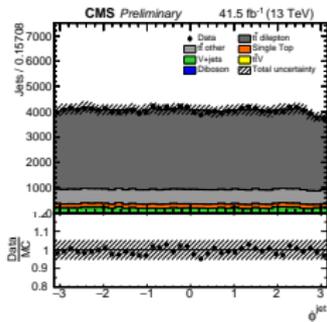

Control Plots with ee Channel (5 of 43)

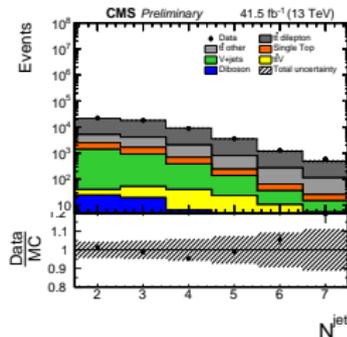

(a) Transverse momentum of jets (step 7/8)

(b) Pseudorapidity of jets (step 7/8)

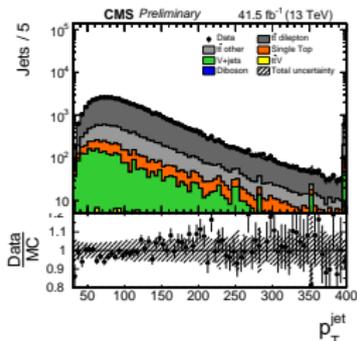

(c) Azimuthal angle of jets (step 7/8)

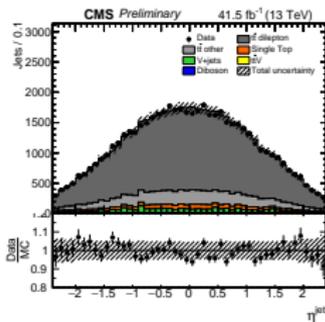

(d) Multiplicity of jets (step 7/8)

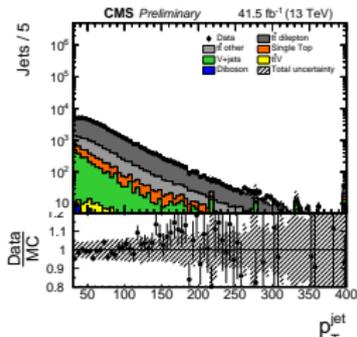

Control Plots with ee Channel (6 of 43)

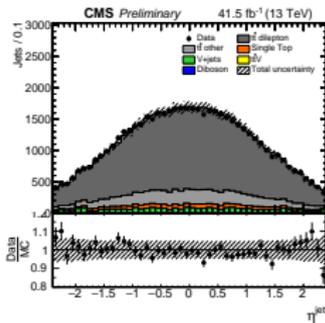

(a) Transverse momentum of leading jets (step 7/8)

(b) Pseudorapidity of leading jets (step 7/8)

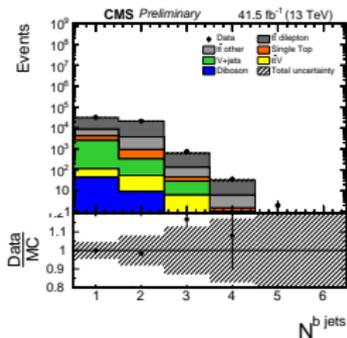

(c) Transverse momentum of subleading jets (step 7/8)

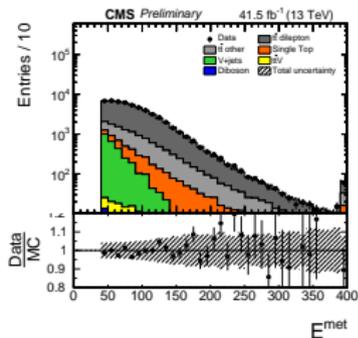

(d) Pseudorapidity of subleading jets (step 7/8)

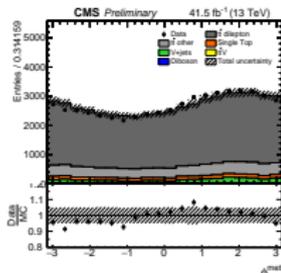

Control Plots with ee Channel (7 of 43)

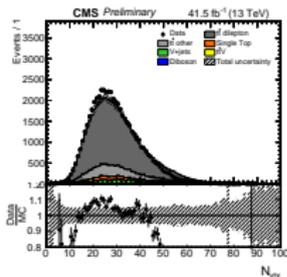

(a) Multiplicity of b-tagged jets (step 7/8)

(b) Missing transverse momentum (step 7/8)

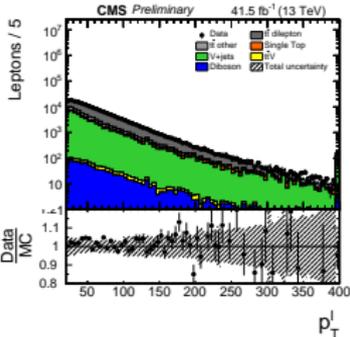

(c) Azimuthal angle of missing transverse momentum (step 7/8)

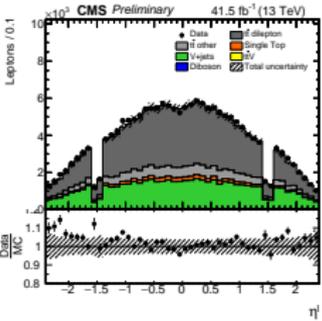

(d) Vertex multiplicity (pileup) (step 7/8)

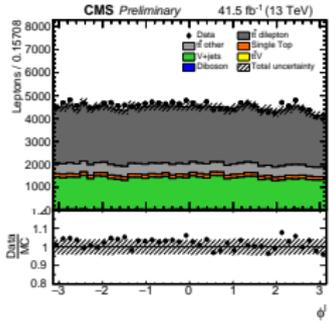

Control Plots with ee Channel (8 of 43)

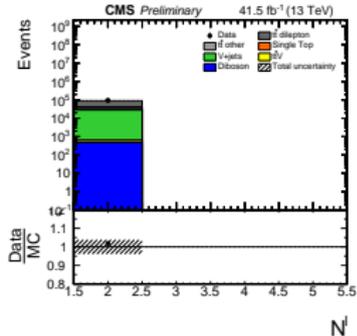

(a) Transverse momentum of leptons (step 6/8)

(b) Pseudorapidity of leptons (step 6/8)

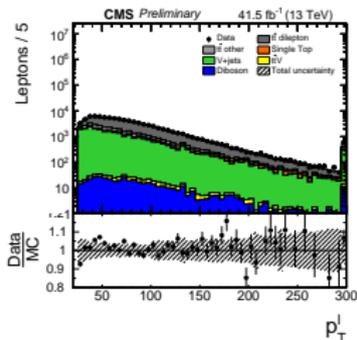

(c) Azimuthal angle of leptons (step 6/8)

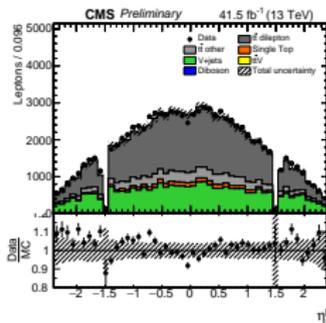

(d) Multiplicity of leptons (step 6/8)

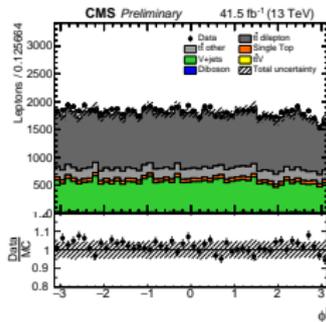

Control Plots with ee Channel (9 of 43)

(a) Transverse momentum of leading leptons (step 6/8)

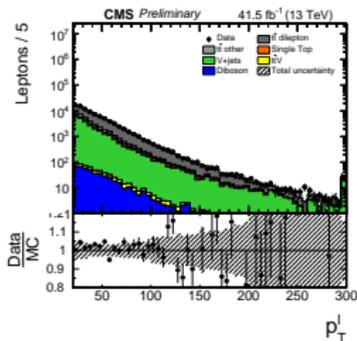

(b) Pseudorapidity of leading leptons (step 6/8)

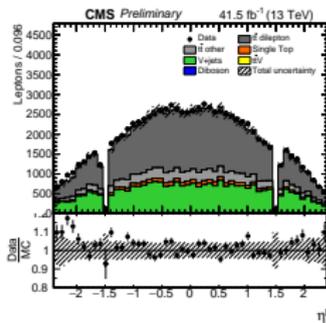

(c) Azimuthal angle of leading leptons (step 6/8)

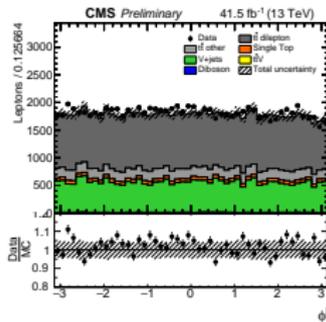

Control Plots with ee Channel (10 of 43)

(a) Transverse momentum of 2nd lepton (step 6/8)

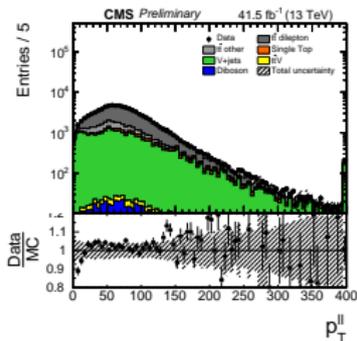

(b) Pseudorapidity of 2nd lepton (step 6/8)

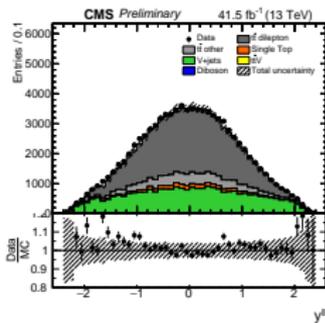

(c) Azimuthal angle of 2nd lepton (step 6/8)

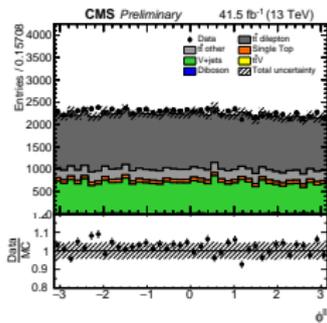

Control Plots with ee Channel (11 of 43)

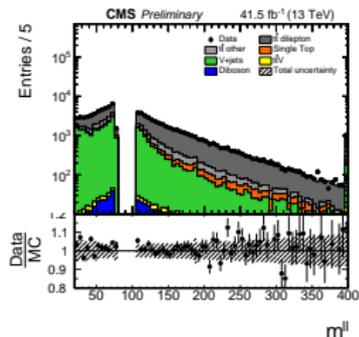

(a) Transverse momentum of di-leptons (step 6/8)

(b) Rapidity of di-leptons (step 6/8)

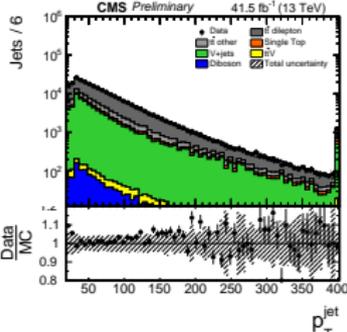

(c) Azimuthal angle of di-leptons (step 6/8)

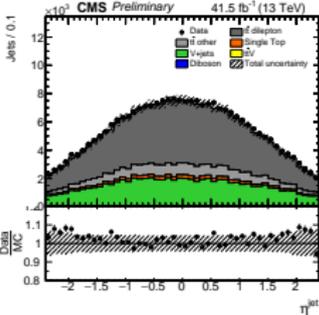

(d) Mass of di-leptons (step 6/8)

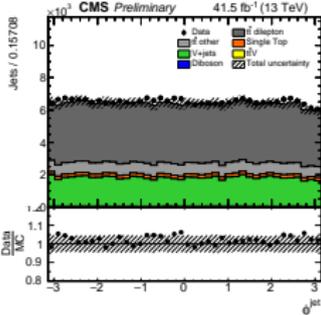

Control Plots with ee Channel (12 of 43)

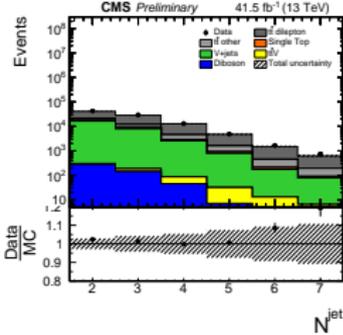

(a) Transverse momentum of jets (step 6/8)

(b) Pseudorapidity of jets (step 6/8)

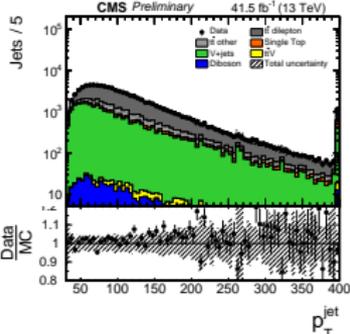

(c) Azimuthal angle of jets (step 6/8)

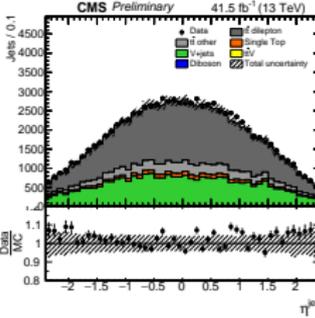

(d) Multiplicity of jets (step 6/8)

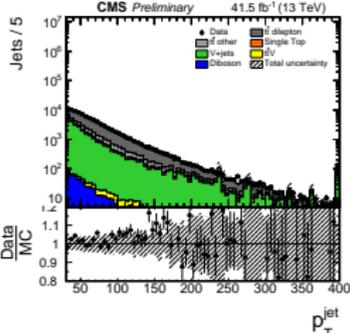

Control Plots with ee Channel (13 of 43)

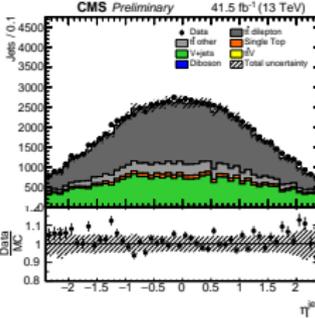

(a) Transverse momentum of leading jets (step 6/8)

(b) Pseudorapidity of leading jets (step 6/8)

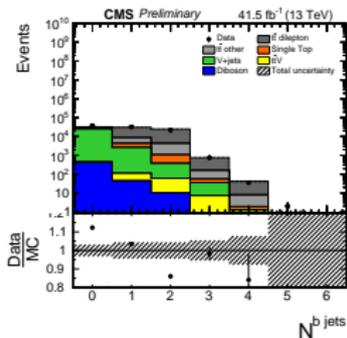

(c) Transverse momentum of subleading jets (step 6/8)

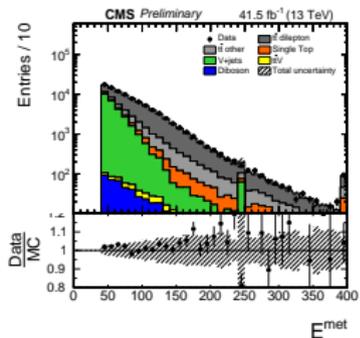

(d) Pseudorapidity of subleading jets (step 6/8)

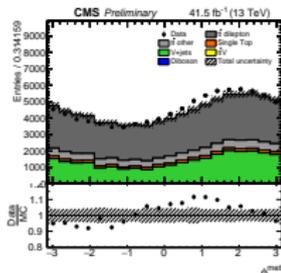

Control Plots with ee Channel (14 of 43)

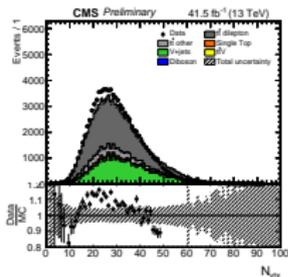

(a) Multiplicity of b-tagged jets (step 6/8)

(b) Missing transverse momentum (step 6/8)

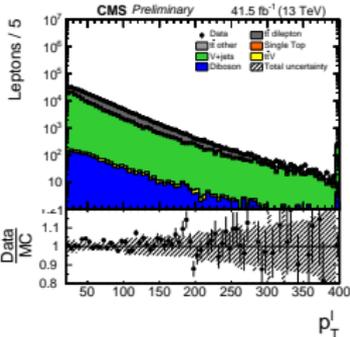

(c) Azimuthal angle of missing transverse momentum (step 6/8)

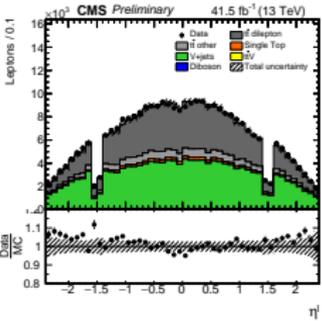

(d) Vertex multiplicity (pileup) (step 6/8)

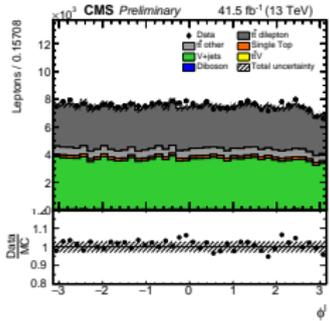

Control Plots with ee Channel (15 of 43)

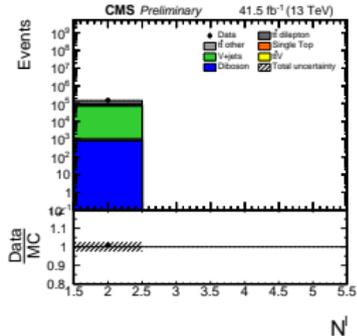

(a) Transverse momentum of leptons (step 5/8)

(b) Pseudorapidity of leptons (step 5/8)

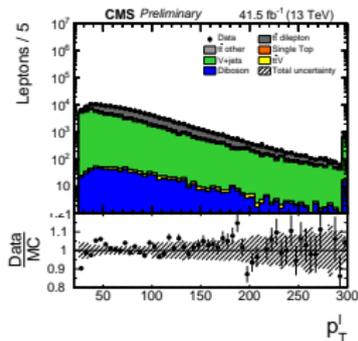

(c) Azimuthal angle of leptons (step 5/8)

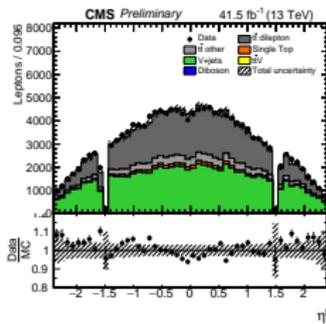

(d) Multiplicity of leptons (step 5/8)

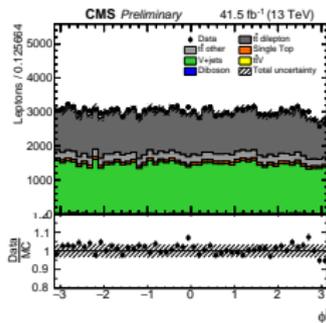

Control Plots with ee Channel (16 of 43)

(a) Transverse momentum of leading leptons (step 5/8)

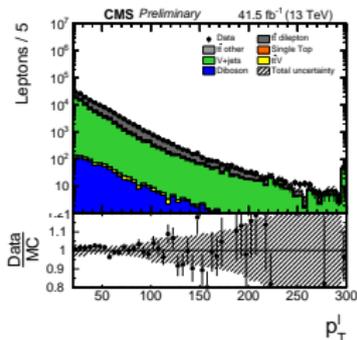

(b) Pseudorapidity of leading leptons (step 5/8)

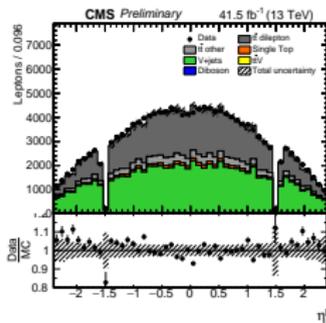

(c) Azimuthal angle of leading leptons (step 5/8)

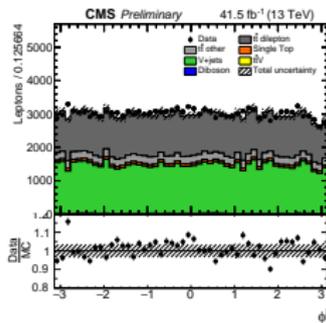

Control Plots with ee Channel (17 of 43)

(a) Transverse momentum of 2nd lepton (step 5/8)

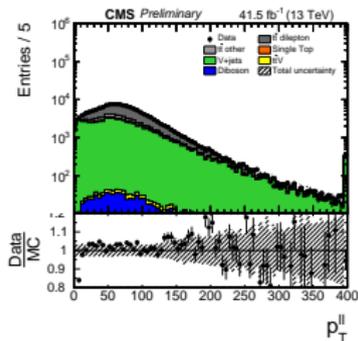

(b) Pseudorapidity of 2nd lepton (step 5/8)

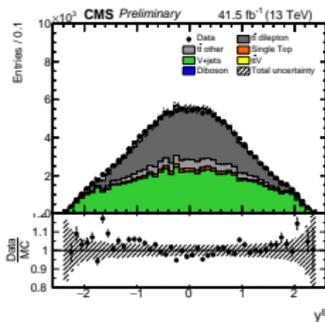

(c) Azimuthal angle of 2nd lepton (step 5/8)

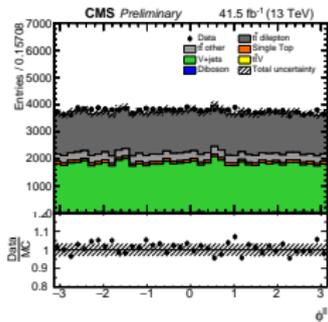

Control Plots with ee Channel (18 of 43)

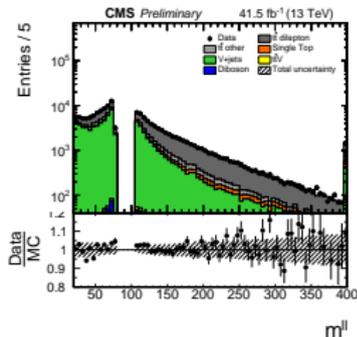

(a) Transverse momentum of di-leptons (step 5/8)

(b) Rapidity of di-leptons (step 5/8)

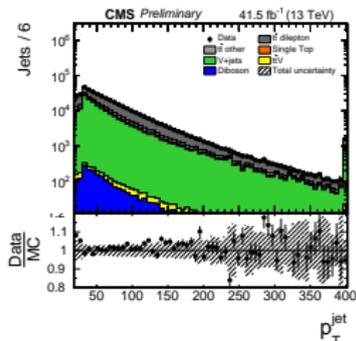

(c) Azimuthal angle of di-leptons (step 5/8)

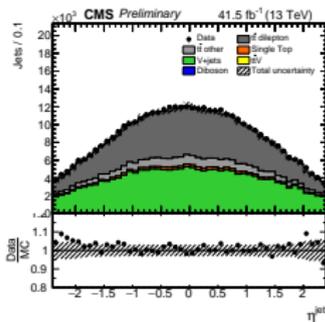

(d) Mass of di-leptons (step 5/8)

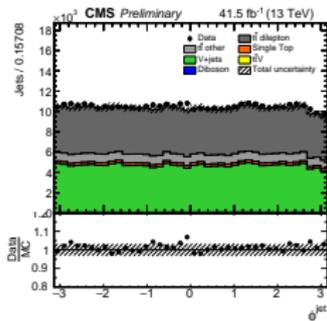

Control Plots with ee Channel (19 of 43)

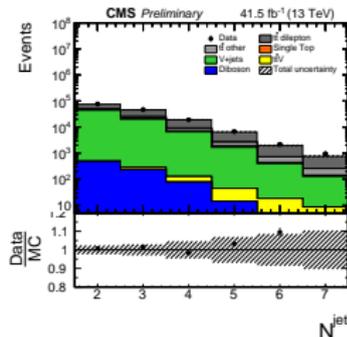

(a) Transverse momentum of jets (step 5/8)

(b) Pseudorapidity of jets (step 5/8)

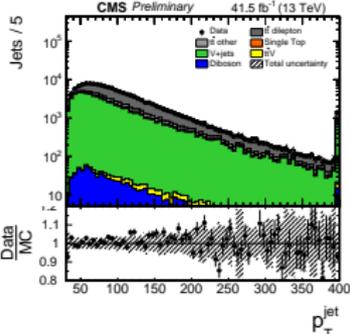

(c) Azimuthal angle of jets (step 5/8)

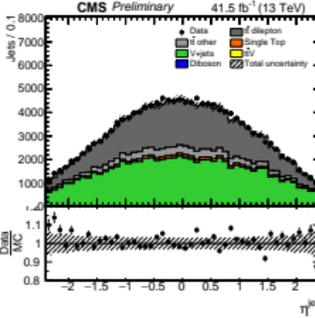

(d) Multiplicity of jets (step 5/8)

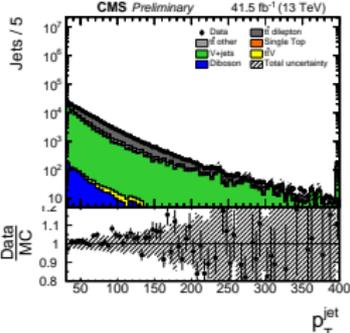

Control Plots with ee Channel (20 of 43)

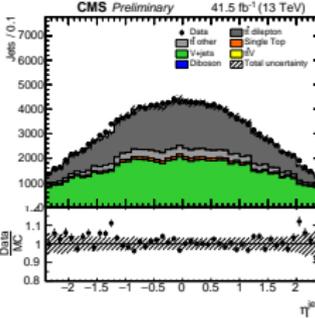

(a) Transverse momentum of leading jets (step 5/8)

(b) Pseudorapidity of leading jets (step 5/8)

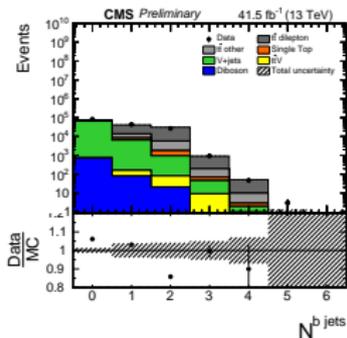

(c) Transverse momentum of subleading jets (step 5/8)

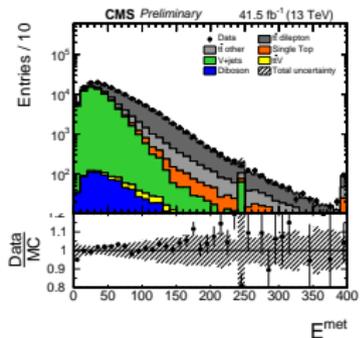

(d) Pseudorapidity of subleading jets (step 5/8)

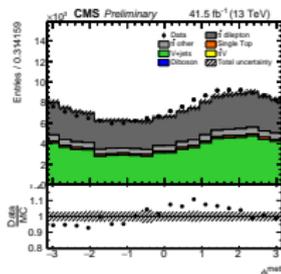

Control Plots with ee Channel (21 of 43)

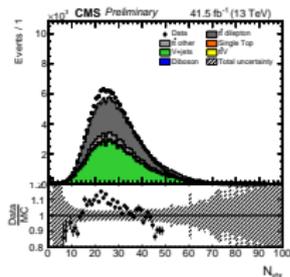

(a) Multiplicity of b-tagged jets (step 5/8)

(b) Missing transverse momentum (step 5/8)

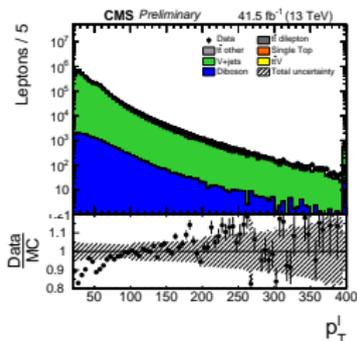

(c) Azimuthal angle of missing transverse momentum (step 5/8)

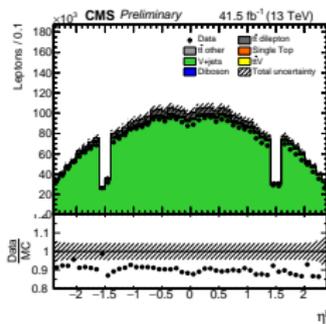

(d) Vertex multiplicity (pileup) (step 5/8)

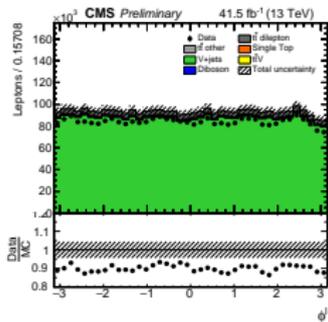

Control Plots with ee Channel (22 of 43)

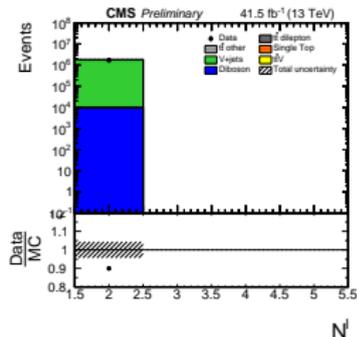

(a) Transverse momentum of leptons (step 4/8)

(b) Pseudorapidity of leptons (step 4/8)

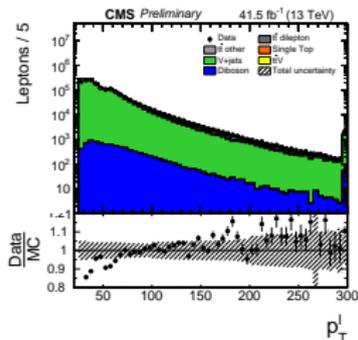

(c) Azimuthal angle of leptons (step 4/8)

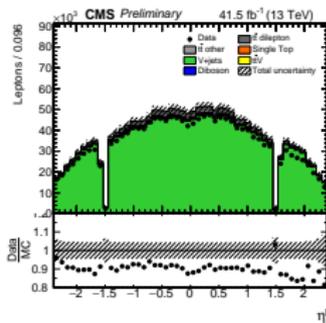

(d) Multiplicity of leptons (step 4/8)

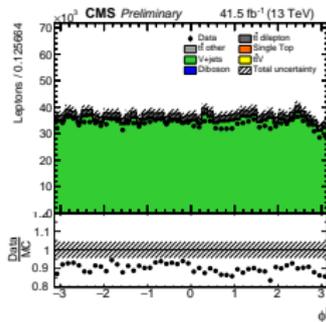

Control Plots with ee Channel (23 of 43)

(a) Transverse momentum of leading leptons (step 4/8)

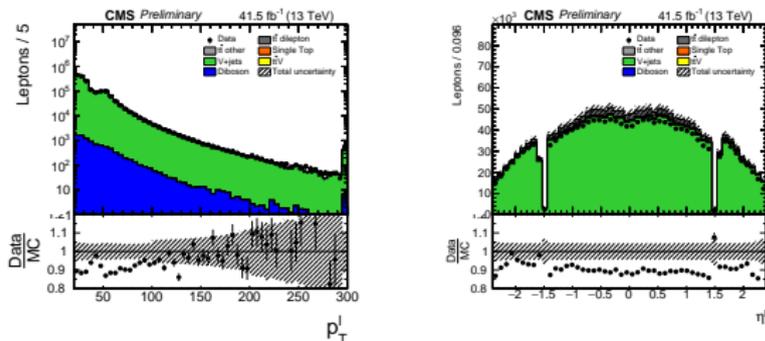

(b) Pseudorapidity of leading leptons (step 4/8)

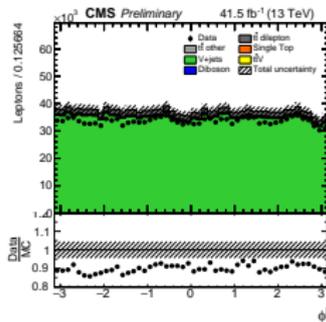

(c) Azimuthal angle of leading leptons (step 4/8)

Control Plots with ee Channel (24 of 43)

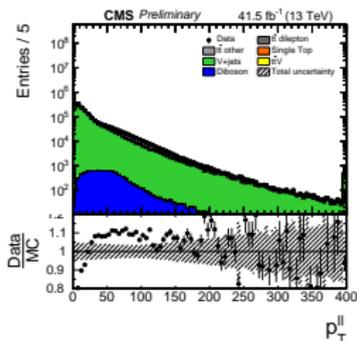

(a) Transverse momentum of 2nd lepton (step 4/8) (b) Pseudorapidity of 2nd lepton (step 4/8)

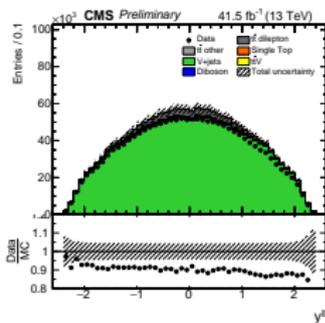

(c) Azimuthal angle of 2nd lepton (step 4/8)

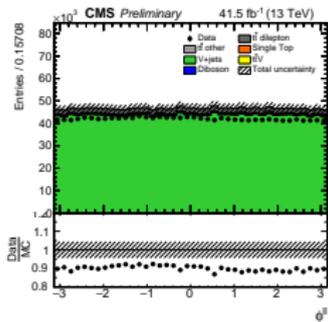

Control Plots with ee Channel (25 of 43)

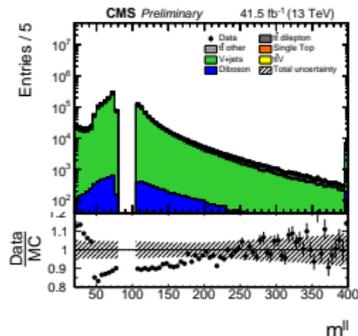

(a) Transverse momentum of di-leptons (step 4/8)

(b) Rapidity of di-leptons (step 4/8)

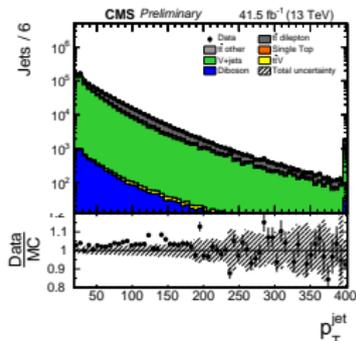

(c) Azimuthal angle of di-leptons (step 4/8)

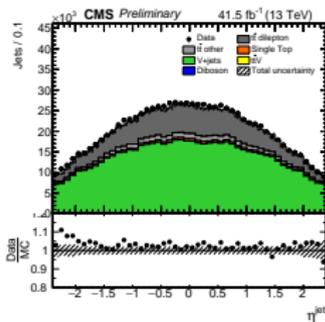

(d) Mass of di-leptons (step 4/8)

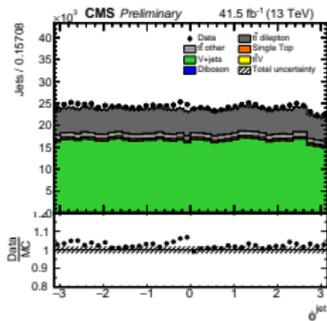

Control Plots with ee Channel (26 of 43)

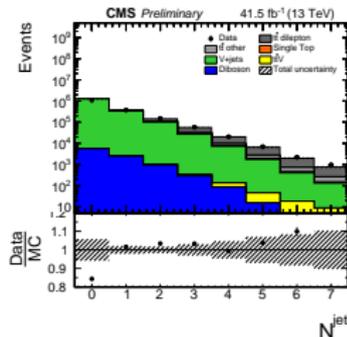

(a) Transverse momentum of jets (step 4/8)

(b) Pseudorapidity of jets (step 4/8)

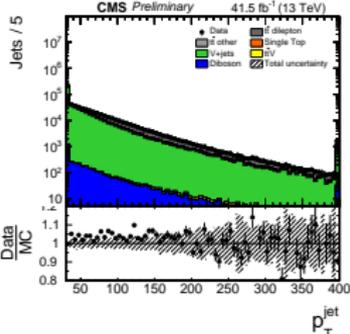

(c) Azimuthal angle of jets (step 4/8)

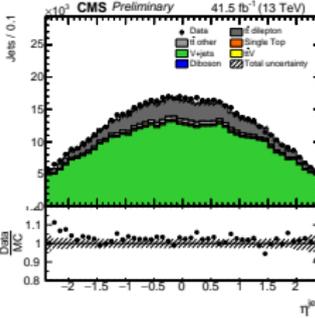

(d) Multiplicity of jets (step 4/8)

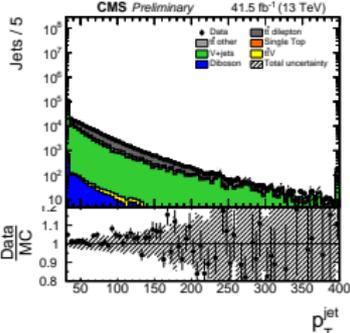

Control Plots with ee Channel (27 of 43)

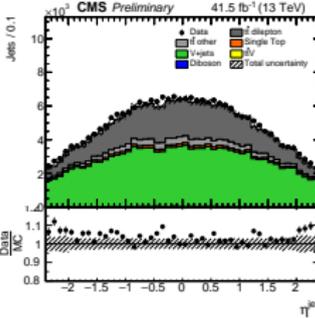

(a) Transverse momentum of leading jets (step 4/8)

(b) Pseudorapidity of leading jets (step 4/8)

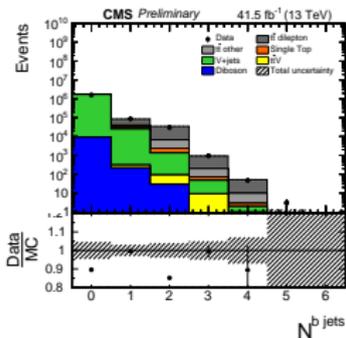

(c) Transverse momentum of subleading jets (step 4/8)

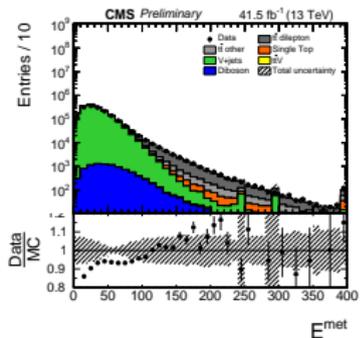

(d) Pseudorapidity of subleading jets (step 4/8)

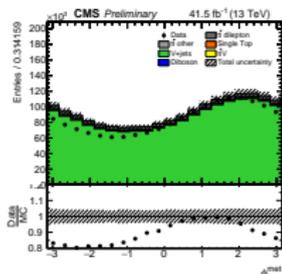

Control Plots with ee Channel (28 of 43)

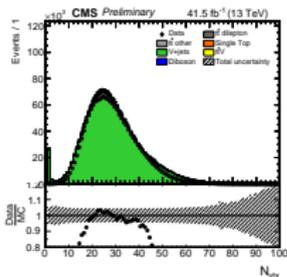

(a) Multiplicity of b-tagged jets (step 4/8)

(b) Missing transverse momentum (step 4/8)

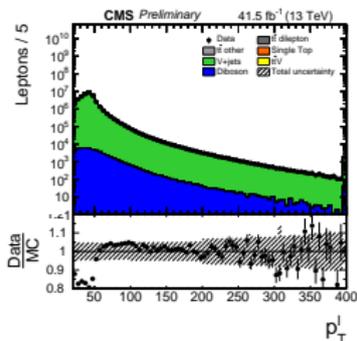

(c) Azimuthal angle of missing transverse momentum (step 4/8)

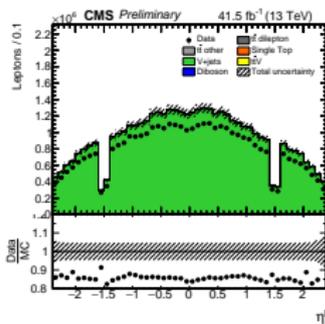

(d) Vertex multiplicity (pileup) (step 4/8)

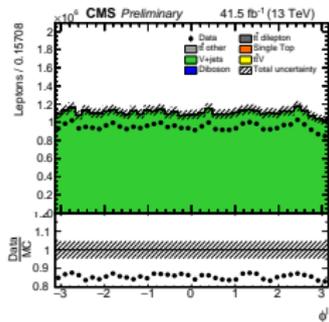

Control Plots with ee Channel (29 of 43)

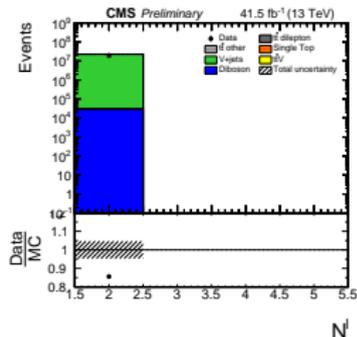

(a) Transverse momentum of leptons (step 3/8)

(b) Pseudorapidity of leptons (step 3/8)

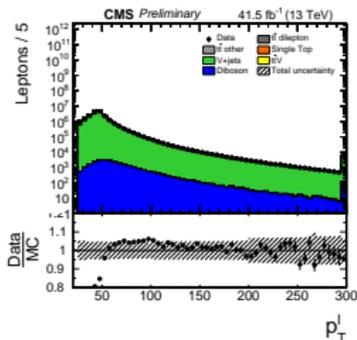

(c) Azimuthal angle of leptons (step 3/8)

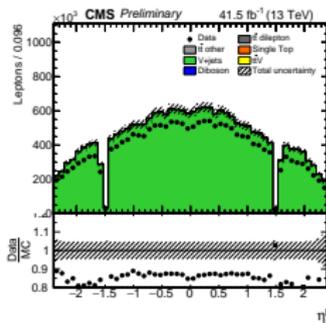

(d) Multiplicity of leptons (step 3/8)

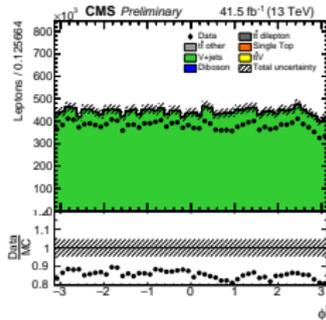

Control Plots with ee Channel (30 of 43)

(a) Transverse momentum of leading leptons (step 3/8)

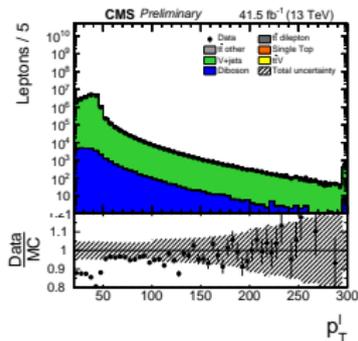

(b) Pseudorapidity of leading leptons (step 3/8)

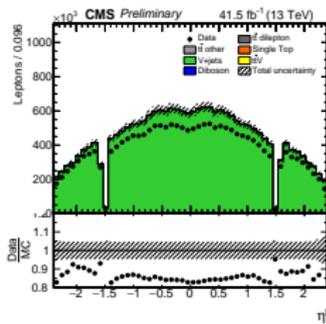

(c) Azimuthal angle of leading leptons (step 3/8)

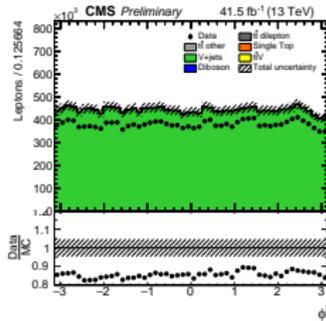

Control Plots with ee Channel (31 of 43)

(a) Transverse momentum of 2nd lepton (step 3/8)

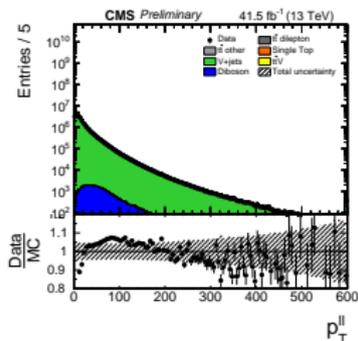

(b) Pseudorapidity of 2nd lepton (step 3/8)

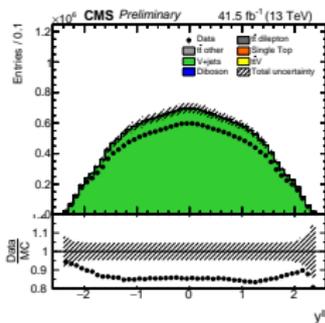

(c) Azimuthal angle of 2nd lepton (step 3/8)

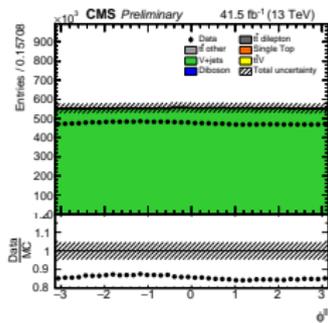

Control Plots with ee Channel (32 of 43)

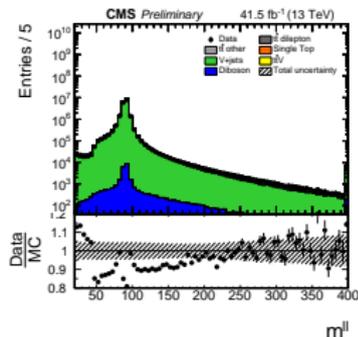

(a) Transverse momentum of di-leptons (step 3/8)

(b) Rapidity of di-leptons (step 3/8)

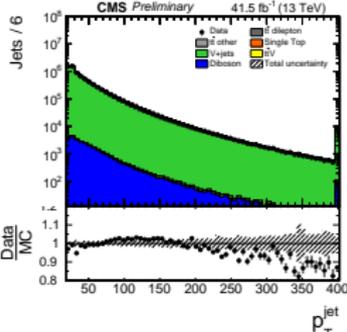

(c) Azimuthal angle of di-leptons (step 3/8)

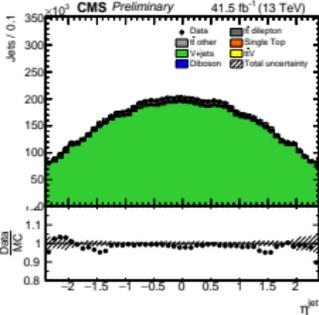

(d) Mass of di-leptons (step 3/8)

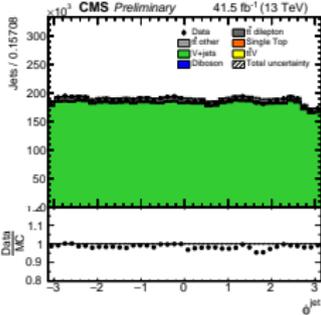

Control Plots with ee Channel (33 of 43)

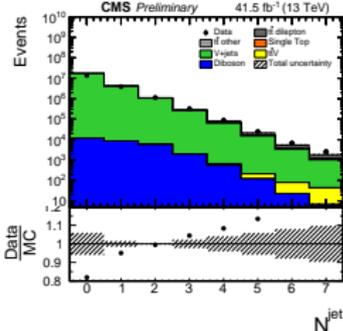

(a) Transverse momentum of jets (step 3/8)

(b) Pseudorapidity of jets (step 3/8)

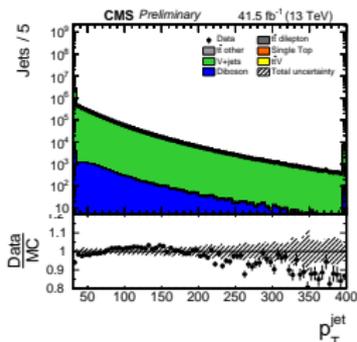

(c) Azimuthal angle of jets (step 3/8)

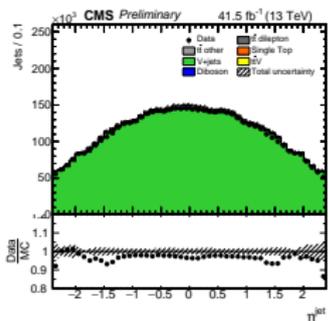

(d) Multiplicity of jets (step 3/8)

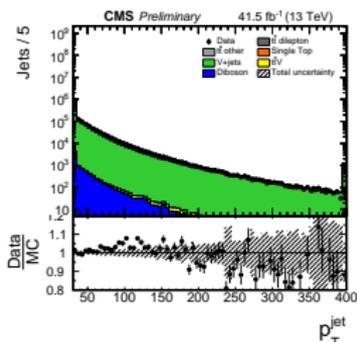

Control Plots with ee Channel (34 of 43)

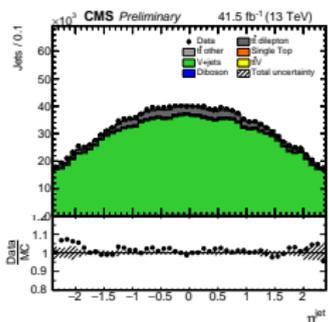

(a) Transverse momentum of leading jets (step 3/8)

(b) Pseudorapidity of leading jets (step 3/8)

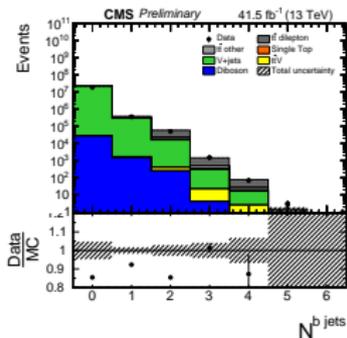

(c) Transverse momentum of subleading jets (step 3/8)

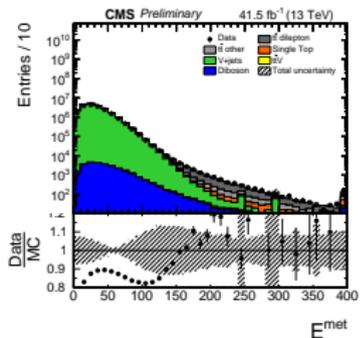

(d) Pseudorapidity of subleading jets (step 3/8)

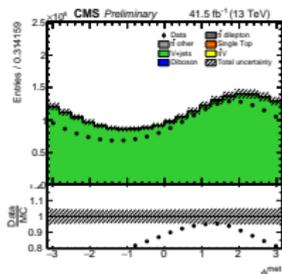

Control Plots with ee Channel (35 of 43)

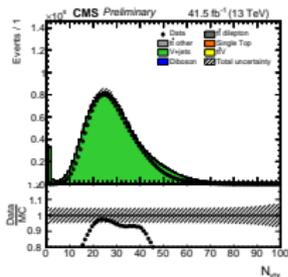

(a) Multiplicity of b-tagged jets (step 3/8)

(b) Missing transverse momentum (step 3/8)

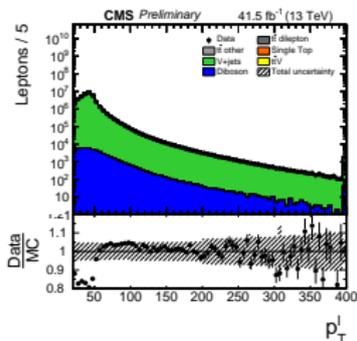

(c) Azimuthal angle of missing transverse momentum (step 3/8)

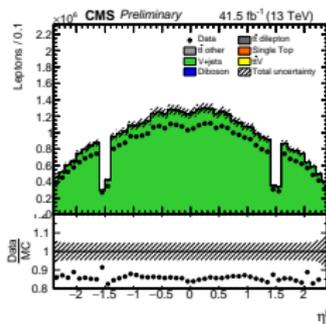

(d) Vertex multiplicity (pileup) (step 3/8)

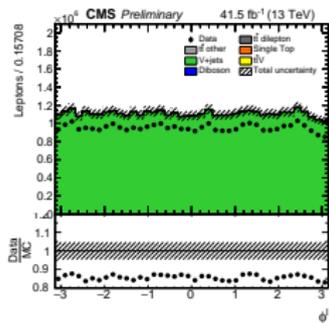

Control Plots with ee Channel (36 of 43)

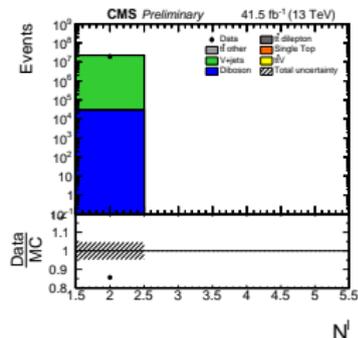

(a) Transverse momentum of leptons (step 2/8)

(b) Pseudorapidity of leptons (step 2/8)

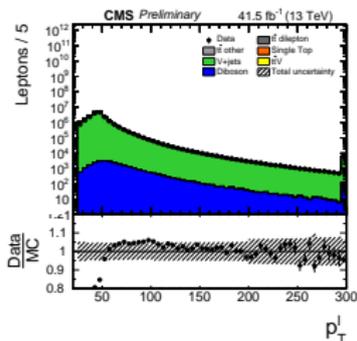

(c) Azimuthal angle of leptons (step 2/8)

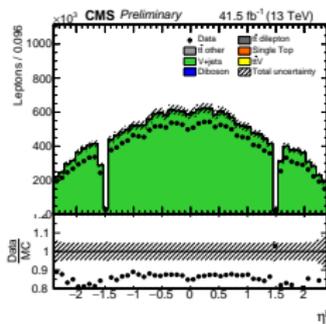

(d) Multiplicity of leptons (step 2/8)

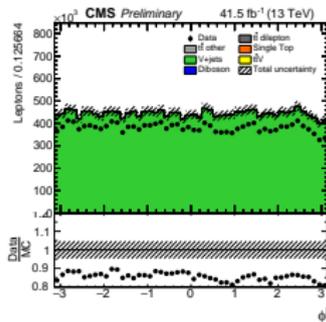

Control Plots with ee Channel (37 of 43)

(a) Transverse momentum of leading leptons (step 2/8)

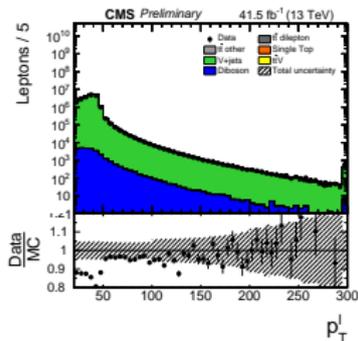

(b) Pseudorapidity of leading leptons (step 2/8)

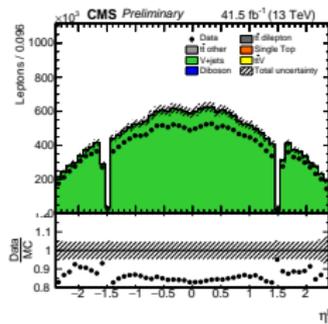

(c) Azimuthal angle of leading leptons (step 2/8)

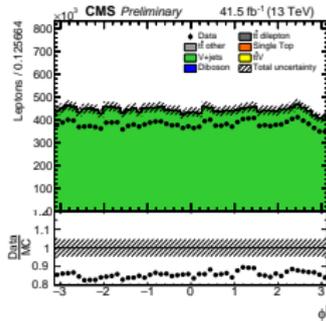

Control Plots with ee Channel (38 of 43)

(a) Transverse momentum of 2nd leptons (step 2/8)

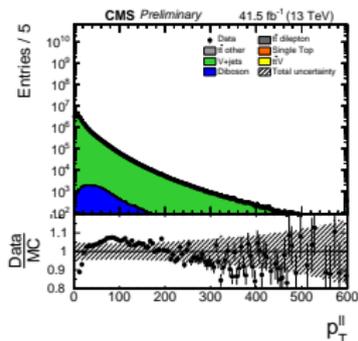

(b) Pseudorapidity of 2nd leptons (step 2/8)

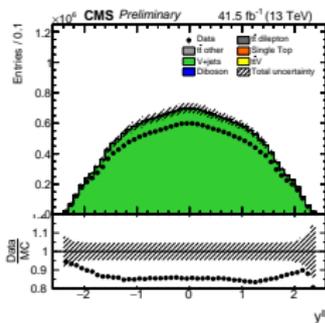

(c) Azimuthal angle of 2nd leptons (step 2/8)

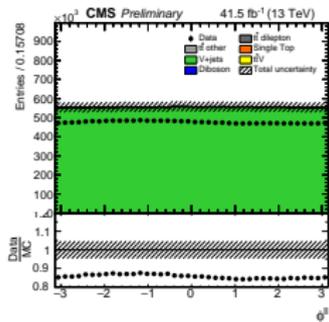

Control Plots with ee Channel (39 of 43)

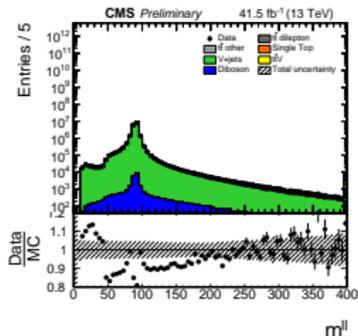

(a) Transverse momentum of di-leptons (step 2/8)

(b) Rapidity of di-leptons (step 2/8)

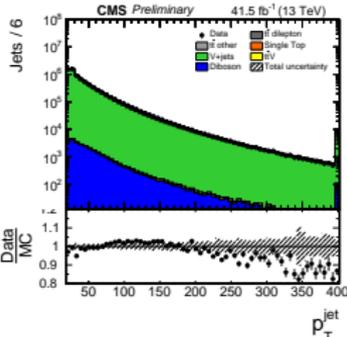

(c) Azimuthal angle of di-leptons (step 2/8)

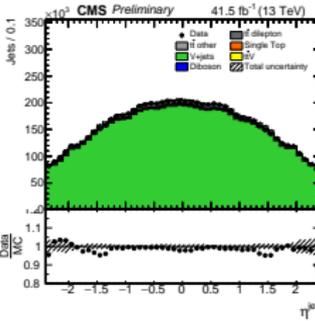

(d) Mass of di-leptons (step 2/8)

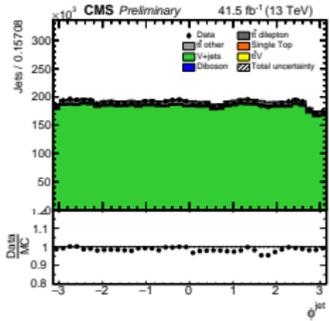

Control Plots with ee Channel (40 of 43)

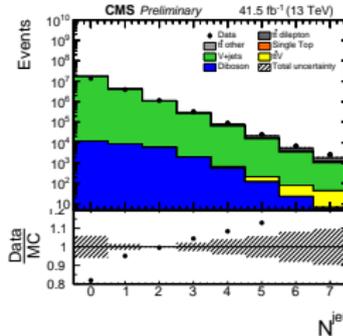

(a) Transverse momentum of jets (step 2/8)

(b) Pseudorapidity of jets (step 2/8)

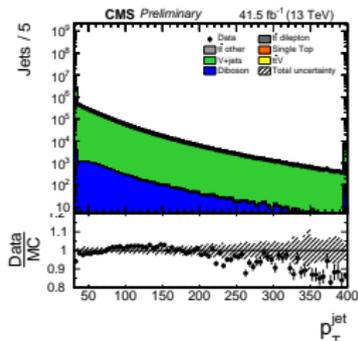

(c) Azimuthal angle of jets (step 2/8)

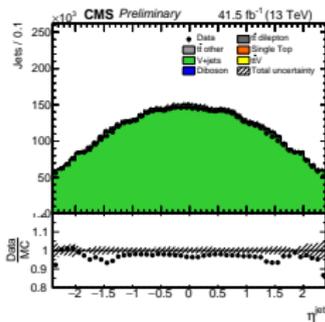

(d) Multiplicity of jets (step 2/8)

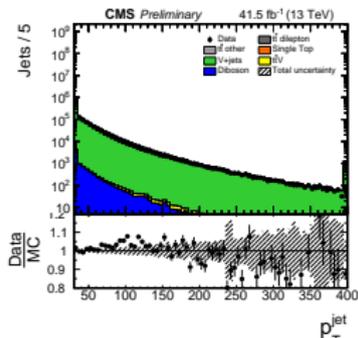

Control Plots with ee Channel (41 of 43)

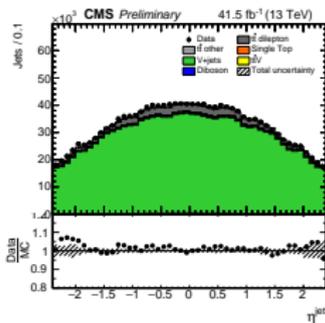

(a) Transverse momentum of leading jets (step 2/8)

(b) Pseudorapidity of leading jets (step 2/8)

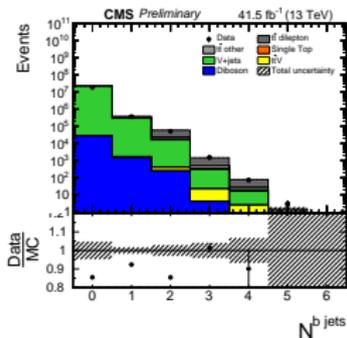

(c) Transverse momentum of subleading jets (step 2/8)

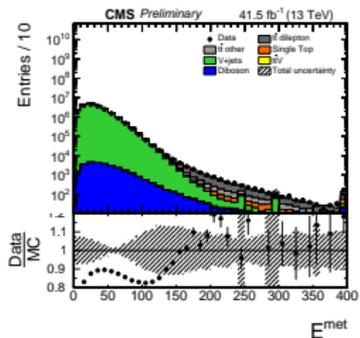

(d) Pseudorapidity of subleading jets (step 2/8)

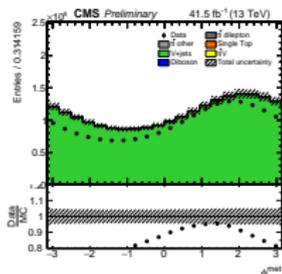

Control Plots with ee Channel (42 of 43)

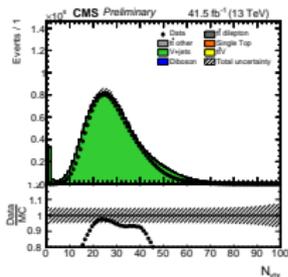

(a) Multiplicity of b-tagged jets (step 2/8)

(b) Missing transverse momentum (step 2/8)

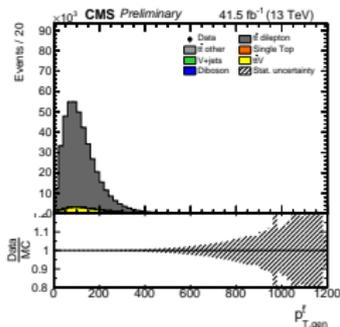

(c) Azimuthal angle of missing transverse momentum (step 2/8)

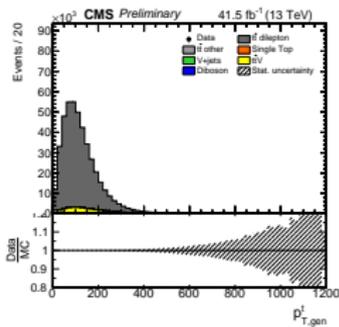

(d) Vertex multiplicity (pileup) (step 2/8)

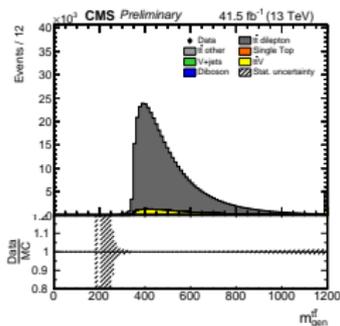

Control Plots with ee Channel (43 of 43)

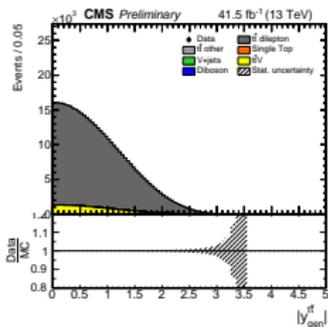

(a) Transverse momentum of antitop quark.

(b) Transverse momentum of top quark.

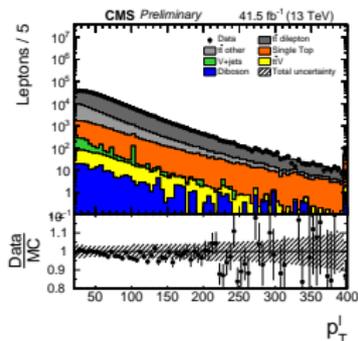

(c) Mass of $t\bar{t}$ system.

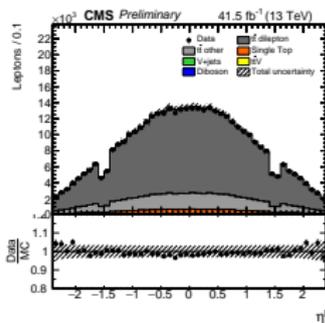

(d) Absolute rapidity of $t\bar{t}$ system.

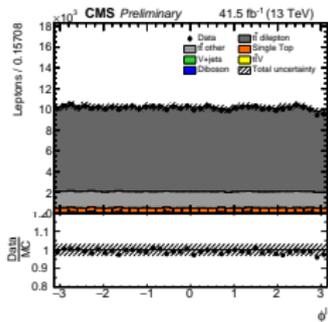

Control Plots with emu Channel (1 of 29)

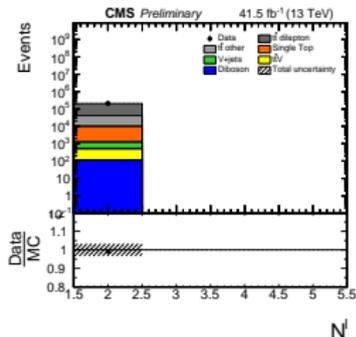

(a) Transverse momentum of leptons (step 7/8)

(b) Pseudorapidity of leptons (step 7/8)

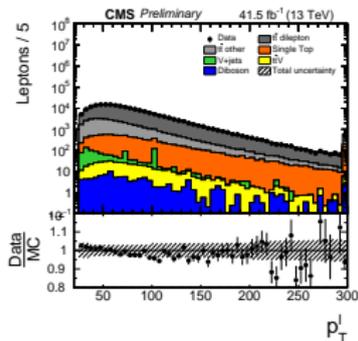

(c) Azimuthal angle of leptons (step 7/8)

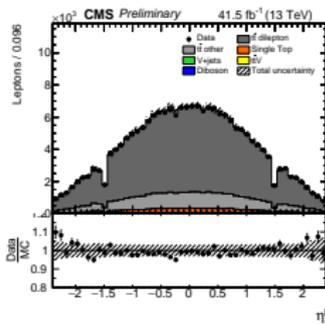

(d) Multiplicity of leptons (step 7/8)

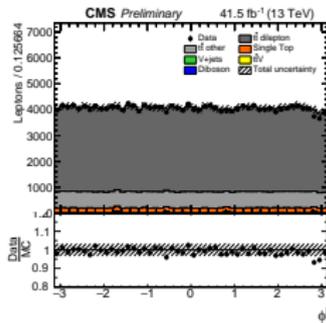

Control Plots with emu Channel (2 of 29)

(a) Transverse momentum of leading leptons (step 7/8)

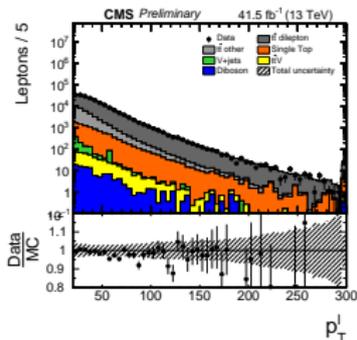

(b) Pseudorapidity of leading leptons (step 7/8)

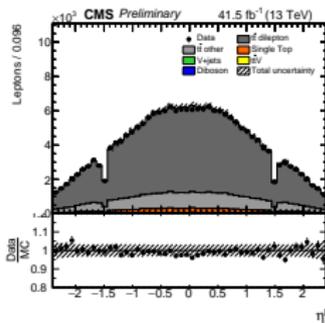

(c) Azimuthal angle of leading leptons (step 7/8)

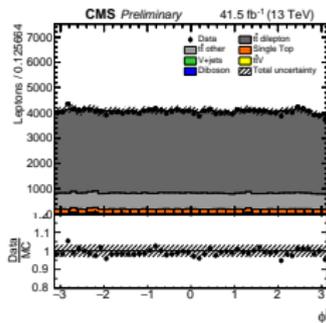

Control Plots with emu Channel (3 of 29)

(a) Transverse momentum of 2nd lepton (step 7/8)

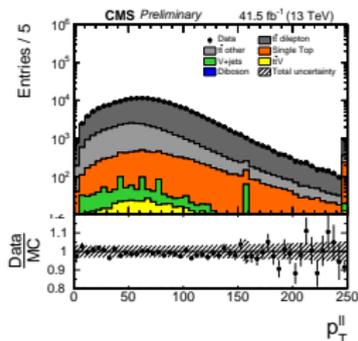

(b) Pseudorapidity of 2nd lepton (step 7/8)

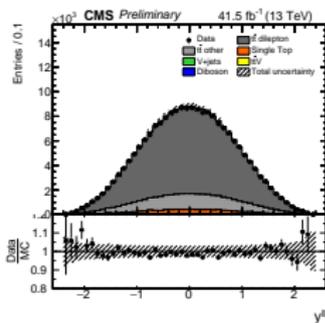

(c) Azimuthal angle of 2nd lepton (step 7/8)

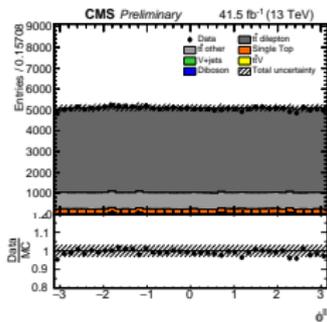

Control Plots with emu Channel (4 of 29)

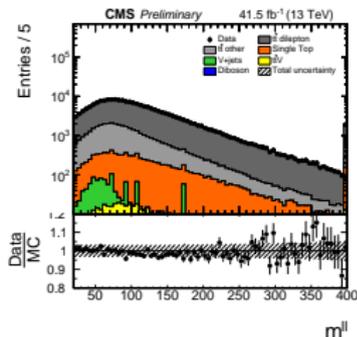

(a) Transverse momentum of di-leptons (step 7/8)

(b) Rapidity of di-leptons (step 7/8)

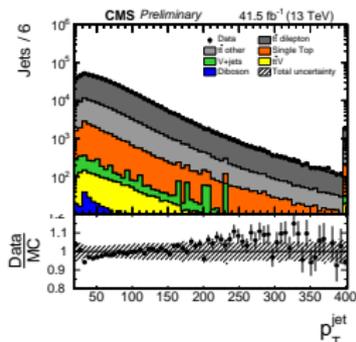

(c) Azimuthal angle of di-leptons (step 7/8)

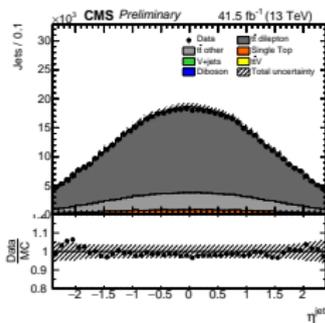

(d) Mass of di-leptons (step 7/8)

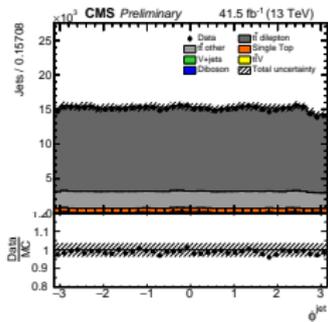

Control Plots with emu Channel (5 of 29)

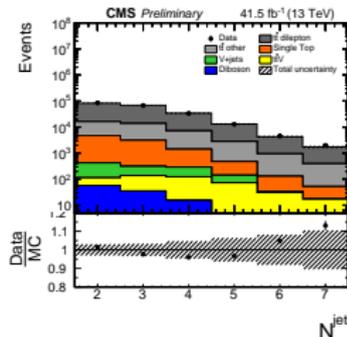

(a) Transverse momentum of jets (step 7/8)

(b) Pseudorapidity of jets (step 7/8)

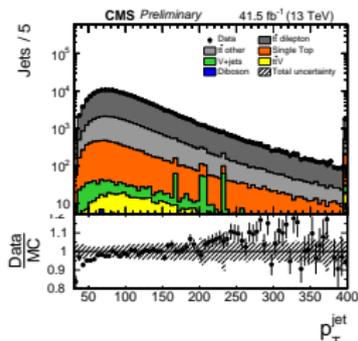

(c) Azimuthal angle of jets (step 7/8)

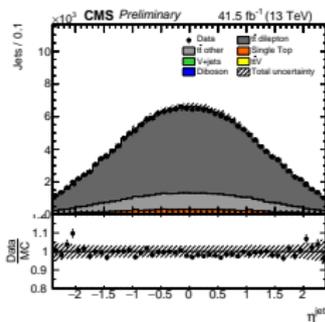

(d) Multiplicity of jets (step 7/8)

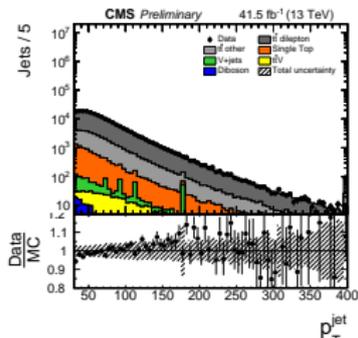

Control Plots with emu Channel (6 of 29)

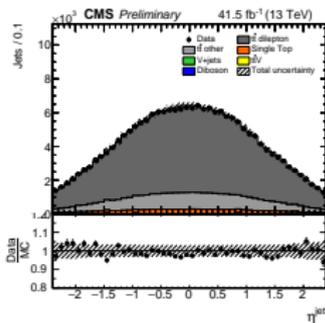

(a) Transverse momentum of leading jets (step 7/8)

(b) Pseudorapidity of leading jets (step 7/8)

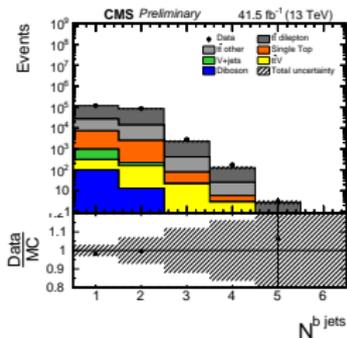

(c) Transverse momentum of subleading jets (step 7/8)

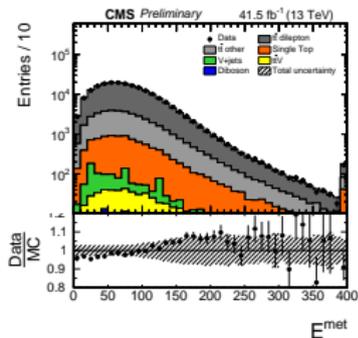

(d) Pseudorapidity of subleading jets (step 7/8)

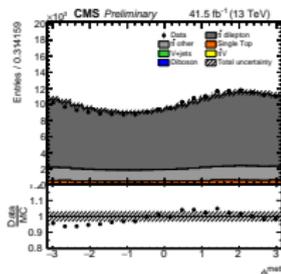

Control Plots with emu Channel (7 of 29)

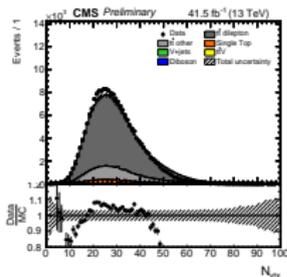

(a) Multiplicity of b-tagged jets (step 7/8)

(b) Missing transverse momentum (step 7/8)

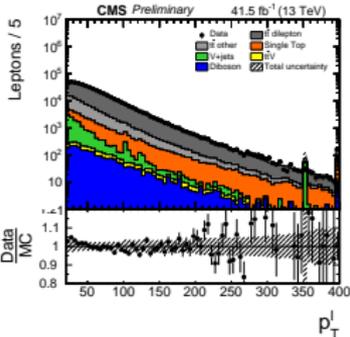

(c) Azimuthal angle of missing transverse momentum (step 7/8)

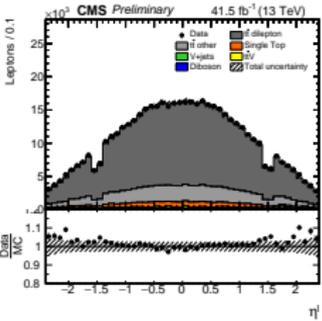

(d) Vertex multiplicity (pileup) (step 7/8)

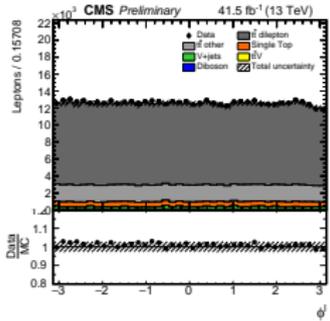

Control Plots with emu Channel (8 of 29)

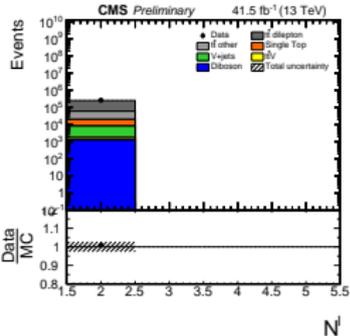

(a) Transverse momentum of leptons (step 5/8)

(b) Pseudorapidity of leptons (step 5/8)

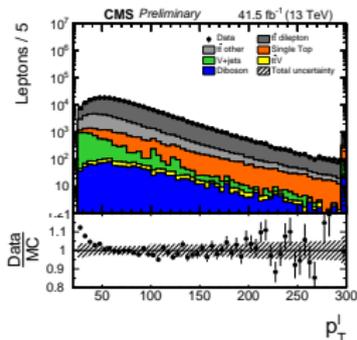

(c) Azimuthal angle of leptons (step 5/8)

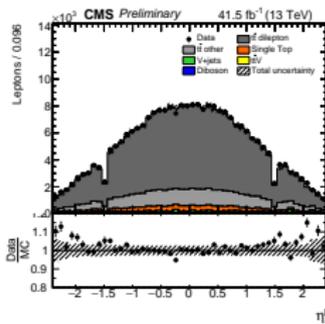

(d) Multiplicity of leptons (step 5/8)

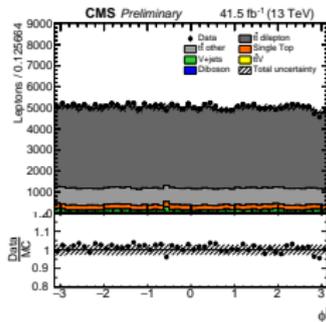

Control Plots with emu Channel (9 of 29)

(a) Transverse momentum of leading leptons (step 5/8)

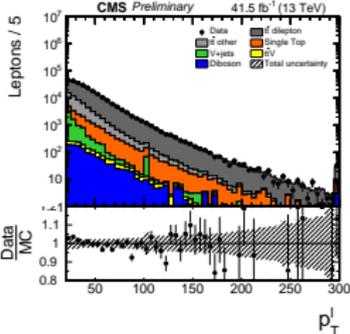

(b) Pseudorapidity of leading leptons (step 5/8)

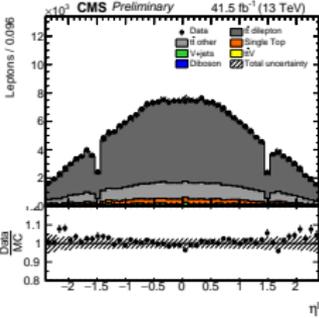

(c) Azimuthal angle of leading leptons (step 5/8)

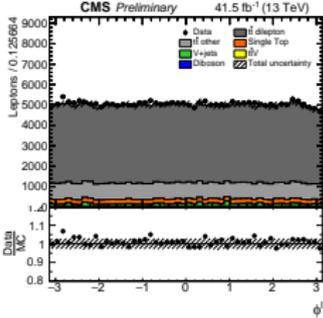

Control Plots with emu Channel (10 of 29)

(a) Transverse momentum of 2nd leptons (step 5/8)

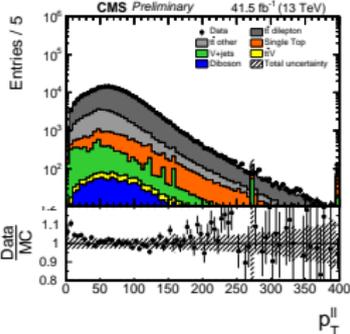

(b) Pseudorapidity of 2nd leptons (step 5/8)

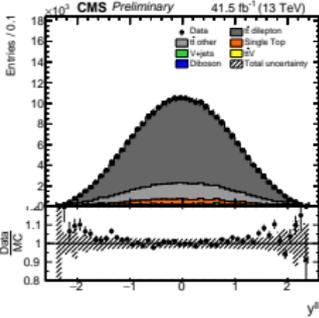

(c) Azimuthal angle of 2nd leptons (step 5/8)

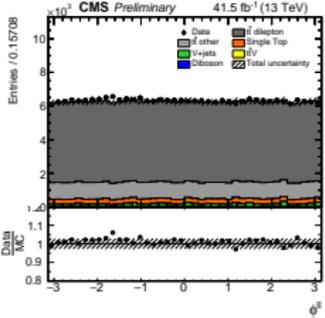

Control Plots with emu Channel (11 of 29)

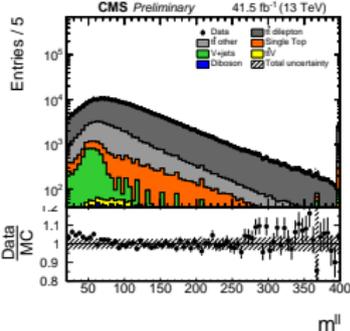

(a) Transverse momentum of di-leptons (step 5/8)

(b) Rapidity of di-leptons (step 5/8)

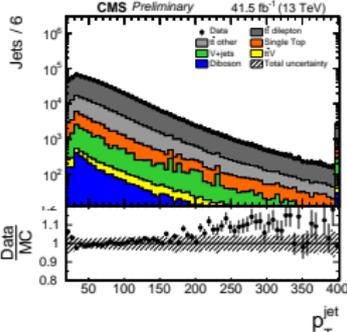

(c) Azimuthal angle of di-leptons (step 5/8)

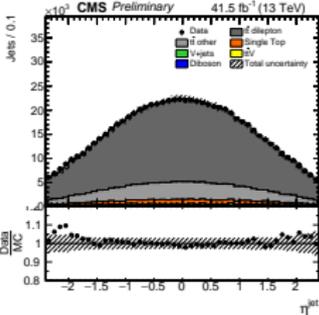

(d) Mass of di-leptons (step 5/8)

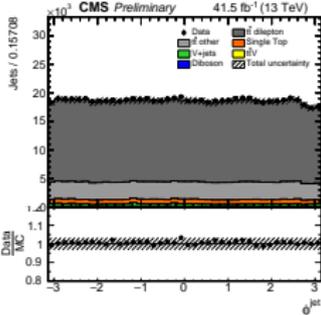

Control Plots with emu Channel (12 of 29)

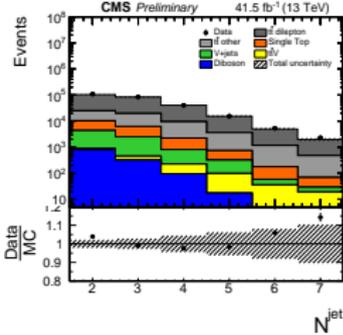

(a) Transverse momentum of jets (step 5/8)

(b) Pseudorapidity of jets (step 5/8)

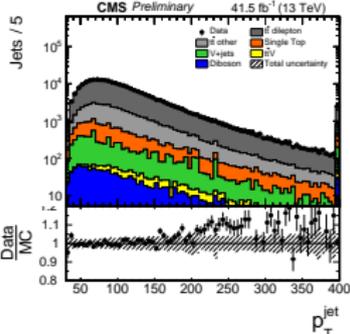

(c) Azimuthal angle of jets (step 5/8)

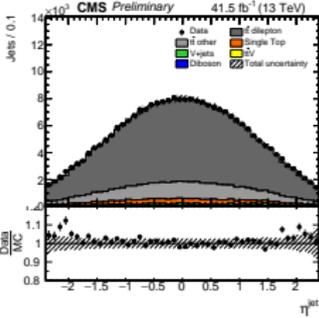

(d) Multiplicity of jets (step 5/8)

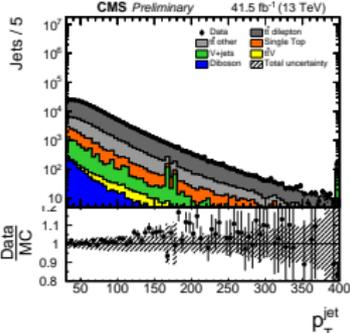

Control Plots with emu Channel (13 of 29)

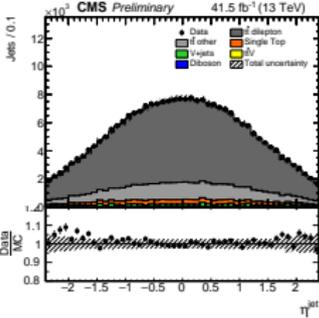

(a) Transverse momentum of leading jets (step 5/8)

(b) Pseudorapidity of leading jets (step 5/8)

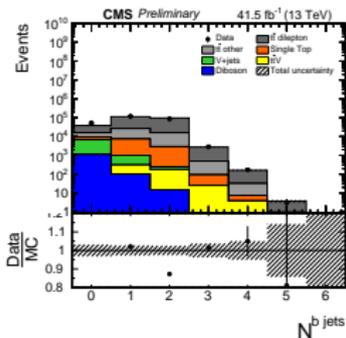

(c) Transverse momentum of subleading jets (step 5/8)

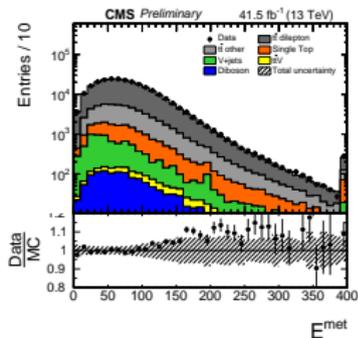

(d) Pseudorapidity of subleading jets (step 5/8)

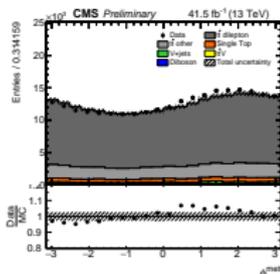

Control Plots with emu Channel (14 of 29)

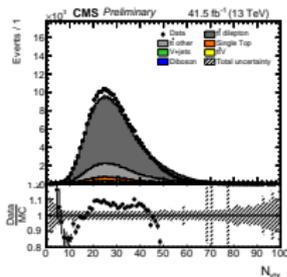

(a) Multiplicity of b-tagged jets (step 5/8)

(b) Missing transverse momentum (step 5/8)

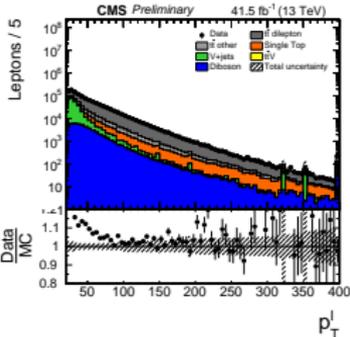

(c) Azimuthal angle of missing transverse momentum (step 5/8)

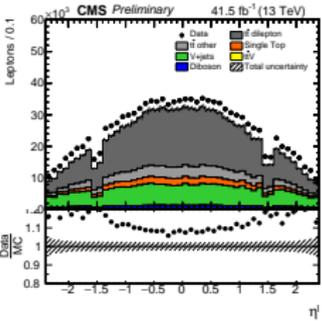

(d) Vertex multiplicity (pileup) (step 5/8)

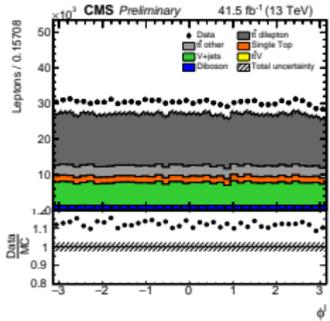

Control Plots with emu Channel (15 of 29)

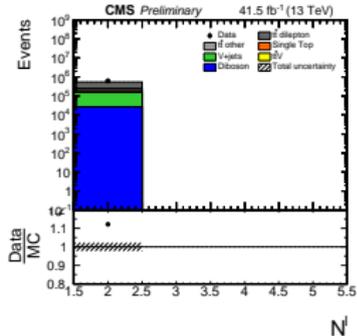

(a) Transverse momentum of leptons (step 3/8)

(b) Pseudorapidity of leptons (step 3/8)

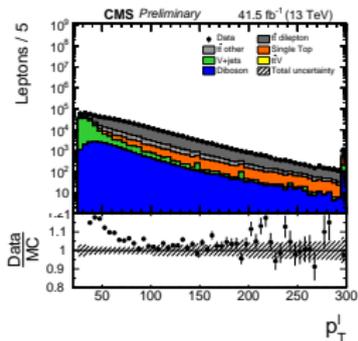

(c) Azimuthal angle of leptons (step 3/8)

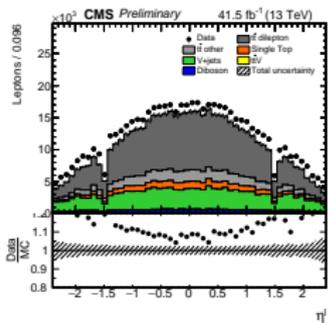

(d) Multiplicity of leptons (step 3/8)

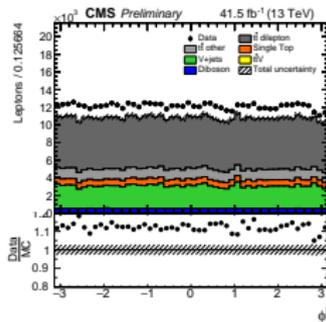

Control Plots with emu Channel (16 of 29)

(a) Transverse momentum of leading leptons (step 3/8)

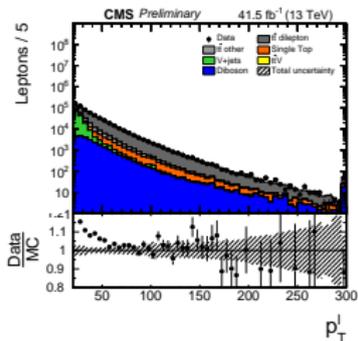

(b) Pseudorapidity of leading leptons (step 3/8)

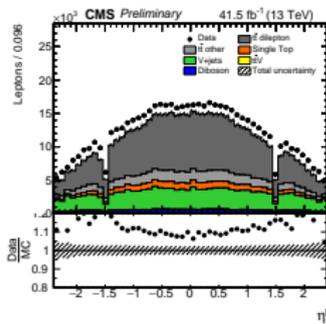

(c) Azimuthal angle of leading leptons (step 3/8)

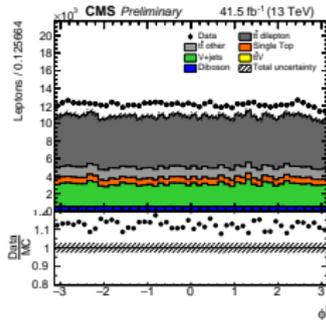

Control Plots with emu Channel (17 of 29)

(a) Transverse momentum of 2nd lepton (step 3/8)

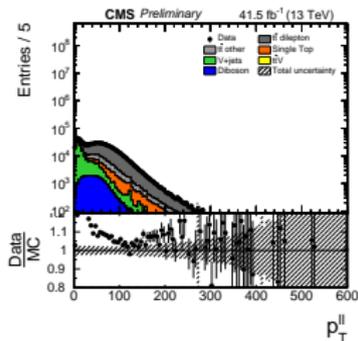

(b) Pseudorapidity of 2nd lepton (step 3/8)

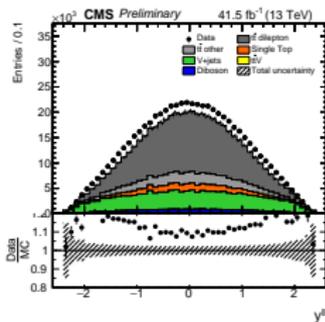

(c) Azimuthal angle of 2nd lepton (step 3/8)

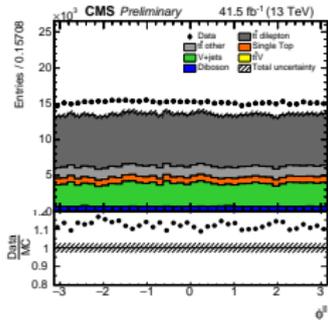

Control Plots with emu Channel (18 of 29)

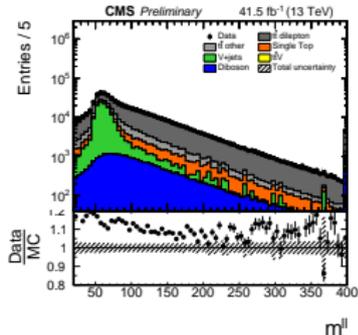

(a) Transverse momentum of di-leptons (step 3/8)

(b) Rapidity of di-leptons (step 3/8)

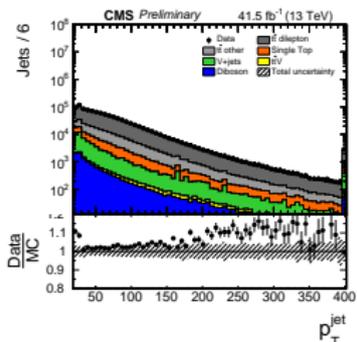

(c) Azimuthal angle of di-leptons (step 3/8)

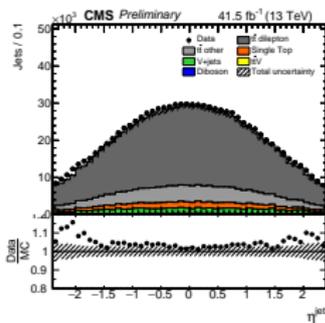

(d) Mass of di-leptons (step 3/8)

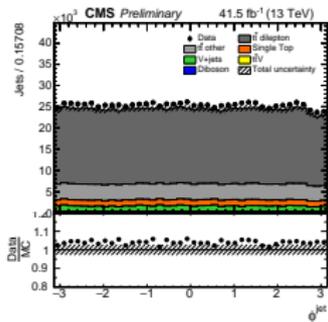

Control Plots with emu Channel (19 of 29)

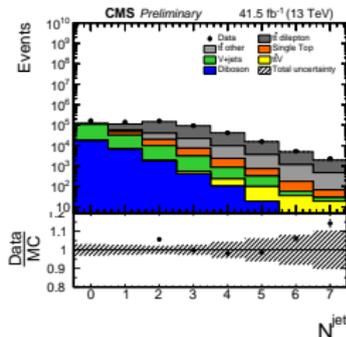

(a) Transverse momentum of jets (step 3/8)

(b) Pseudorapidity of jets (step 3/8)

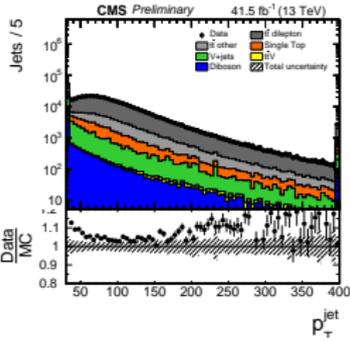

(c) Azimuthal angle of jets (step 3/8)

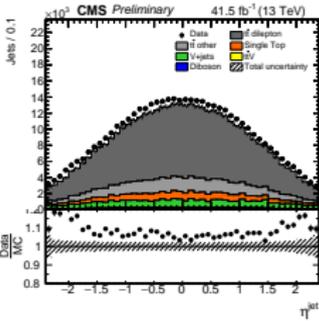

(d) Multiplicity of jets (step 3/8)

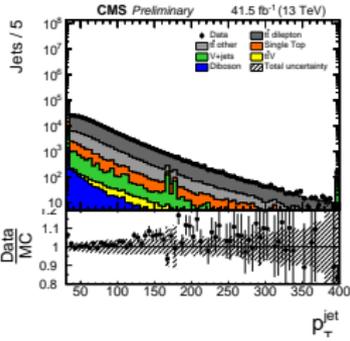

Control Plots with emu Channel (20 of 29)

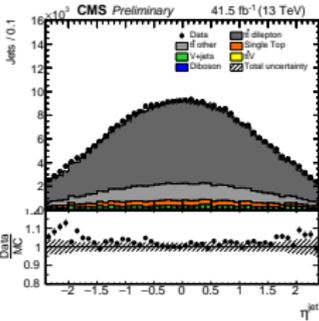

(a) Transverse momentum of leading jets (step 3/8)

(b) Pseudorapidity of leading jets (step 3/8)

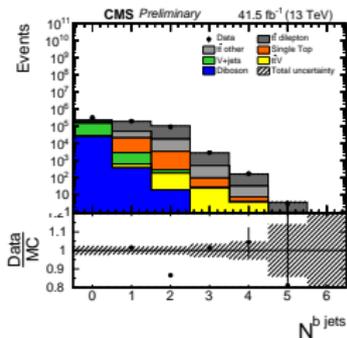

(c) Transverse momentum of subleading jets (step 3/8)

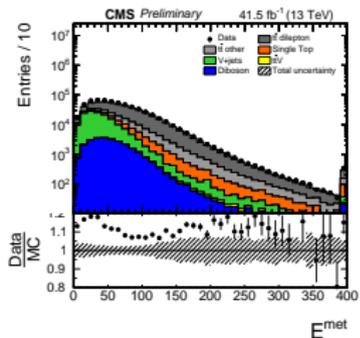

(d) Pseudorapidity of subleading jets (step 3/8)

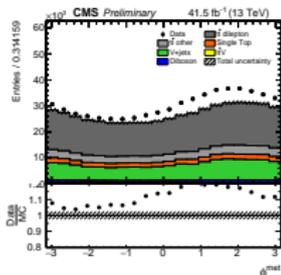

Control Plots with emu Channel (21 of 29)

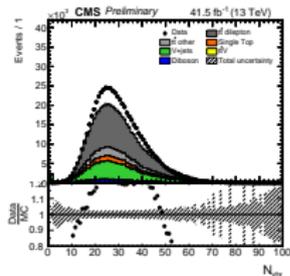

(a) Multiplicity of b-tagged jets (step 3/8)

(b) Missing transverse momentum (step 3/8)

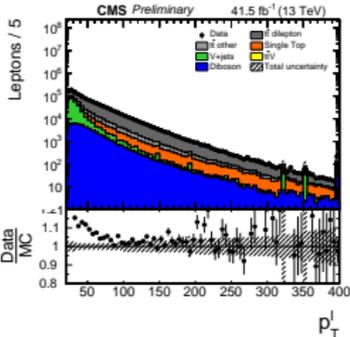

(c) Azimuthal angle of missing transverse momentum (step 3/8)

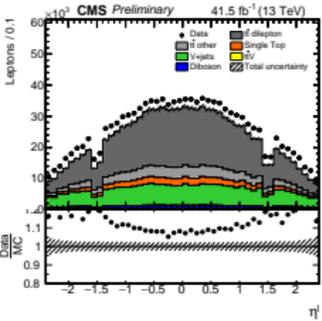

(d) Vertex multiplicity (pileup) (step 3/8)

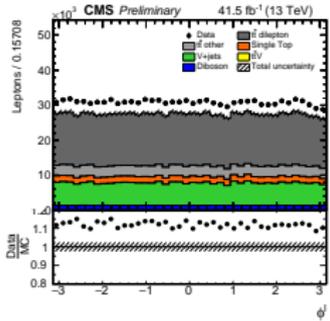

Control Plots with emu Channel (22 of 29)

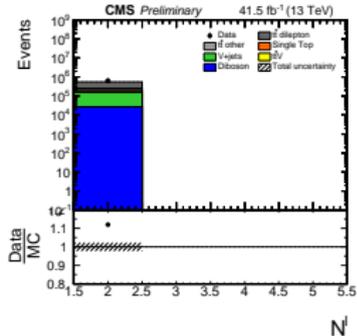

(a) Transverse momentum of leptons (step 2/8)

(b) Pseudorapidity of leptons (step 2/8)

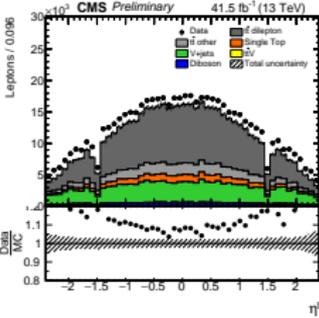

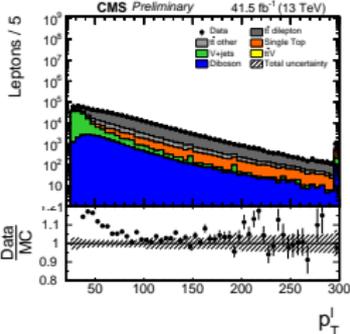

(c) Azimuthal angle of leptons (step 2/8)

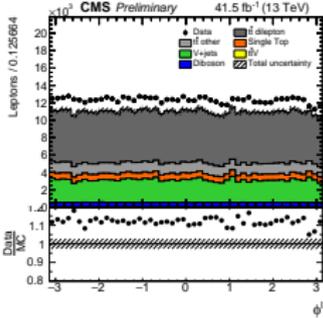

(d) Multiplicity of leptons (step 2/8)

Control Plots with emu Channel (23 of 29)

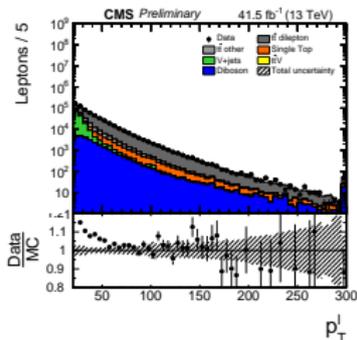

(a) Transverse momentum of leading leptons (step 2/8) (b) Pseudorapidity of leading leptons (step 2/8)

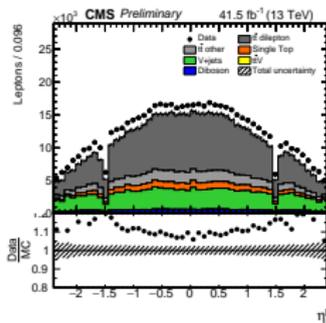

(c) Azimuthal angle of leading leptons (step 2/8)

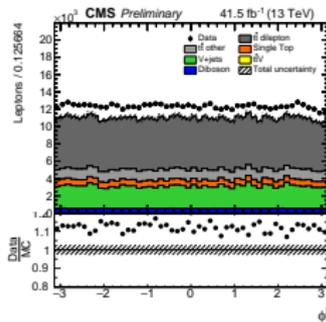

Control Plots with emu Channel (24 of 29)

(a) Transverse momentum of 2nd lepton (step 2/8)

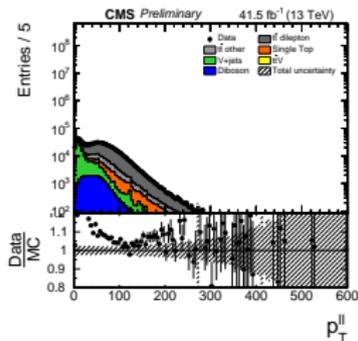

(b) Pseudorapidity of 2nd lepton (step 2/8)

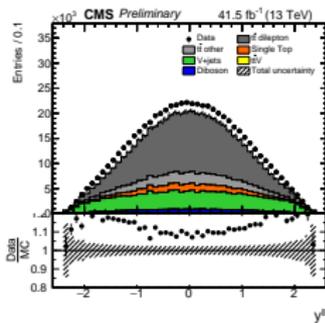

(c) Azimuthal angle of 2nd lepton (step 2/8)

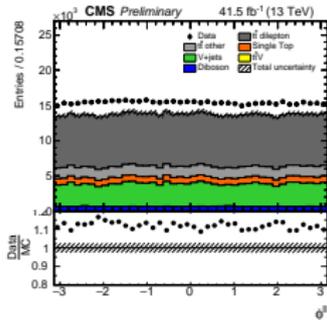

Control Plots with emu Channel (25 of 29)

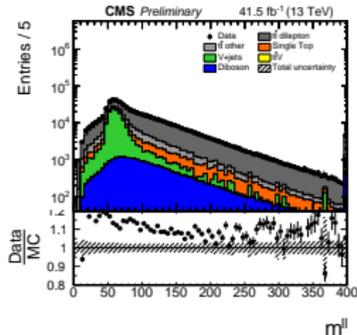

(a) Transverse momentum of di-leptons (step 2/8)

(b) Rapidity of di-leptons (step 2/8)

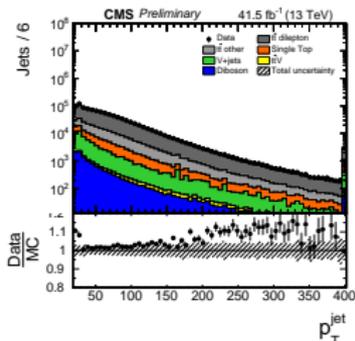

(c) Azimuthal angle of di-leptons (step 2/8)

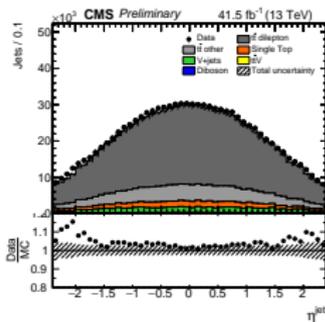

(d) Mass of di-leptons (step 2/8)

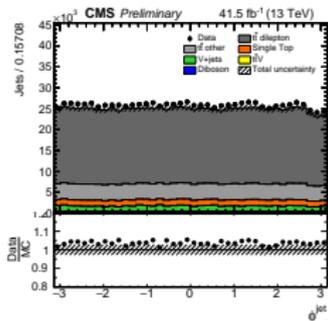

Control Plots with emu Channel (26 of 29)

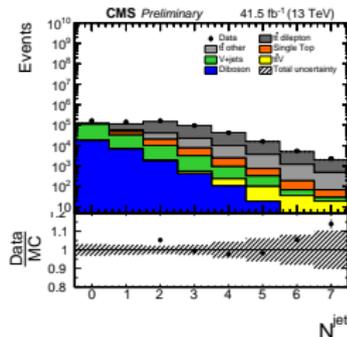

(a) Transverse momentum of jets (step 2/8)

(b) Pseudorapidity of jets (step 2/8)

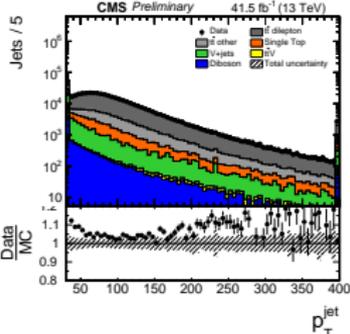

(c) Azimuthal angle of jets (step 2/8)

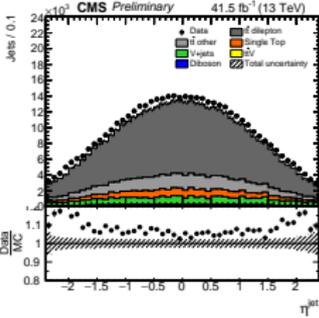

(d) Multiplicity of jets (step 2/8)

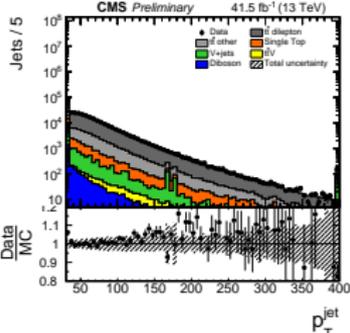

Control Plots with emu Channel (27 of 29)

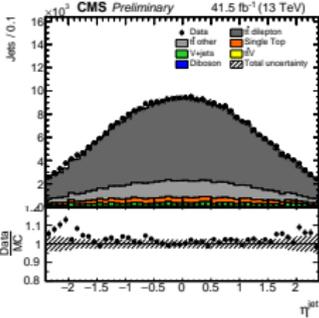

(a) Transverse momentum of leading jets (step 2/8)

(b) Pseudorapidity of leading jets (step 2/8)

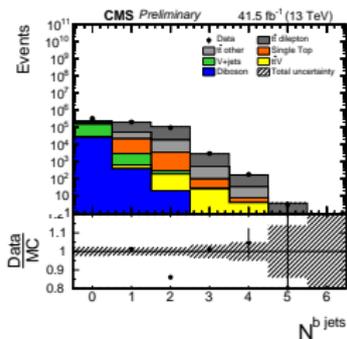

(c) Transverse momentum of subleading jets (step 2/8)

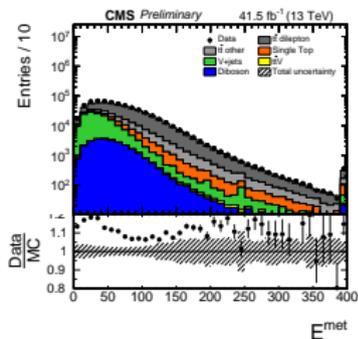

(d) Pseudorapidity of subleading jets (step 2/8)

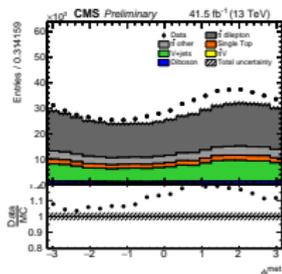

Control Plots with emu Channel (28 of 29)

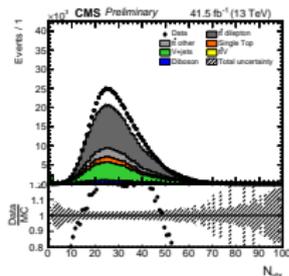

(a) Multiplicity of b-tagged jets (step 2/8)

(b) Missing transverse momentum (step 2/8)

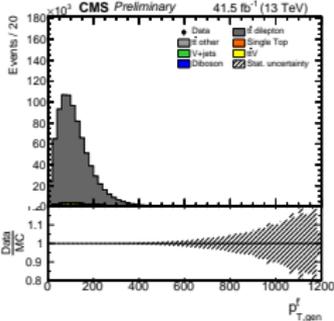

(c) Azimuthal angle of missing transverse momentum (step 2/8)

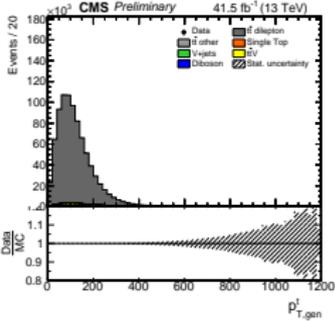

(d) Vertex multiplicity (pileup) (step 2/8)

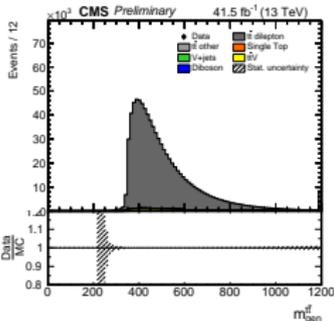

Control Plots with emu Channel (29 of 29)

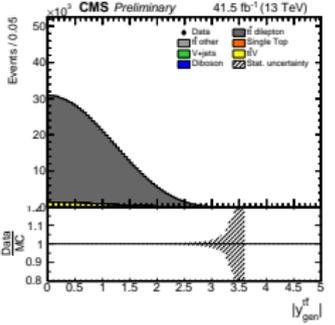

(a) Transverse momentum of antitop quark.

(b) Transverse momentum of top quark.

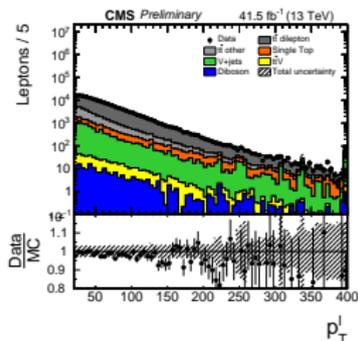

(c) Mass of $t\bar{t}$ system.

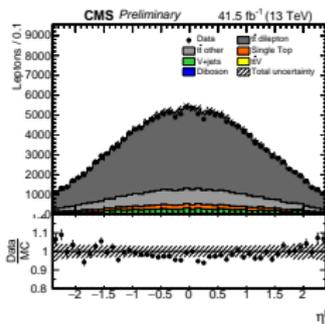

(d) Absolute rapidity of $t\bar{t}$ system.

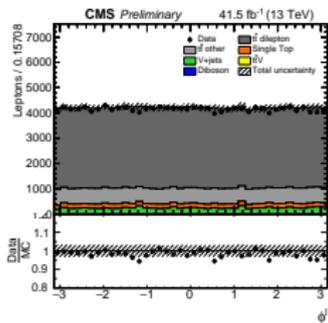

Control Plots with mumu Channel (1 of 43)

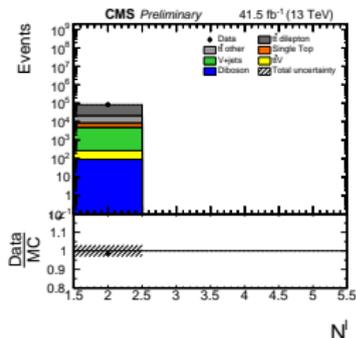

(a) Transverse momentum of leptons (step 7/8)

(b) Pseudorapidity of leptons (step 7/8)

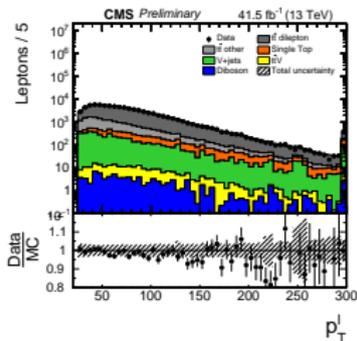

(c) Azimuthal angle of leptons (step 7/8)

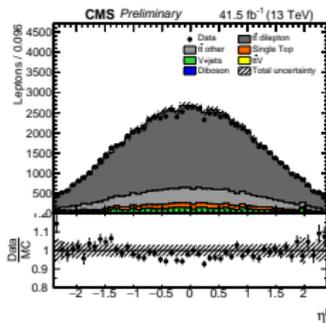

(d) Multiplicity of leptons (step 7/8)

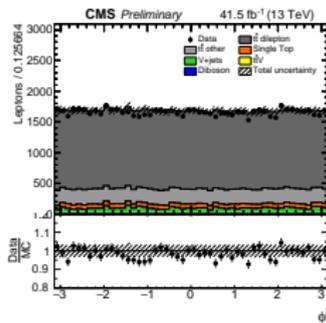

Control Plots with mumu Channel (2 of 43)

(a) Transverse momentum of leading leptons (step 7/8)

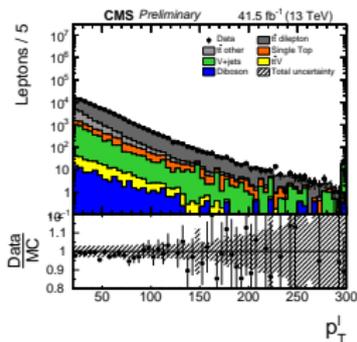

(b) Pseudorapidity of leading leptons (step 7/8)

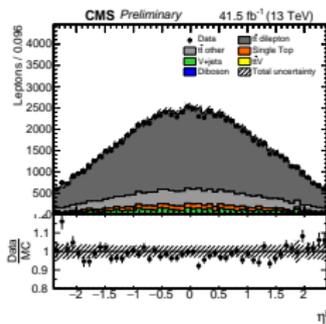

(c) Azimuthal angle of leading leptons (step 7/8)

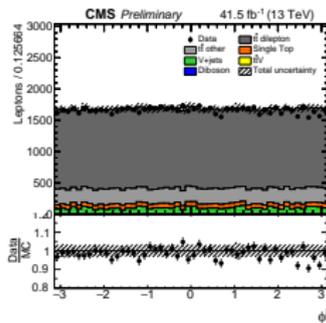

Control Plots with mumu Channel (3 of 43)

(a) Transverse momentum of 2nd lepton (step 7/8)

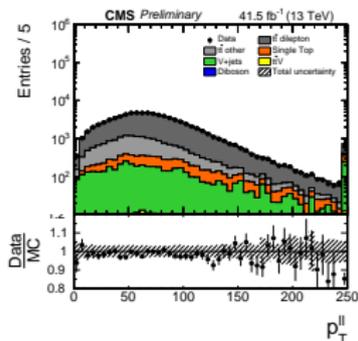

(b) Pseudorapidity of 2nd lepton (step 7/8)

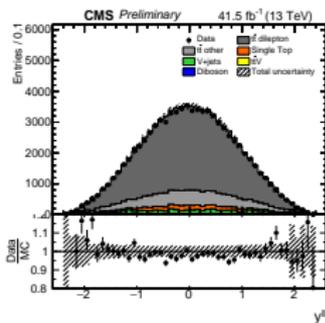

(c) Azimuthal angle of 2nd lepton (step 7/8)

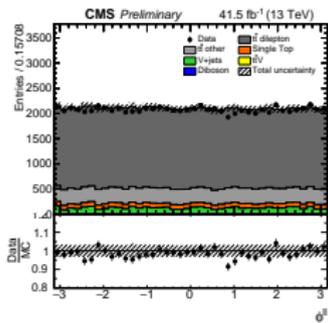

Control Plots with mumu Channel (4 of 43)

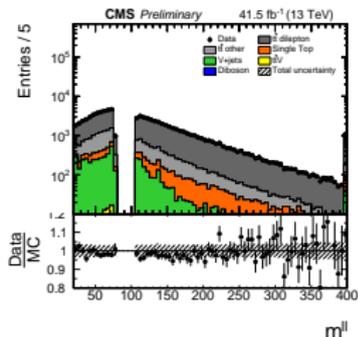

(a) Transverse momentum of di-leptons (step 7/8)

(b) Rapidity of di-leptons (step 7/8)

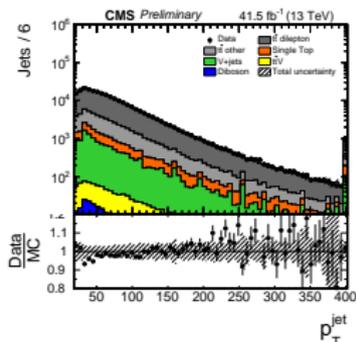

(c) Azimuthal angle of di-leptons (step 7/8)

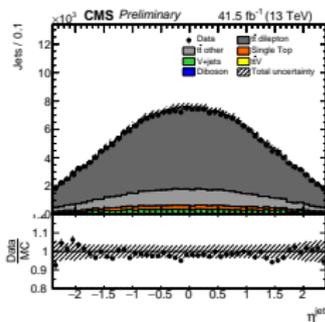

(d) Mass of di-leptons (step 7/8)

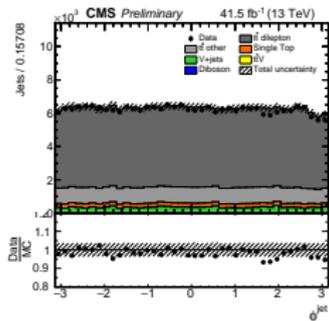

Control Plots with mumu Channel (5 of 43)

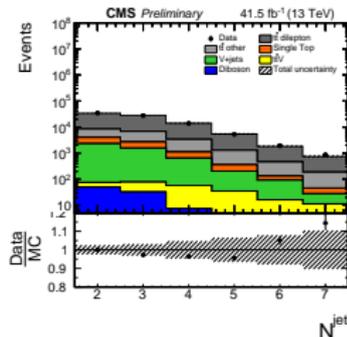

(a) Transverse momentum of jets (step 7/8)

(b) Pseudorapidity of jets (step 7/8)

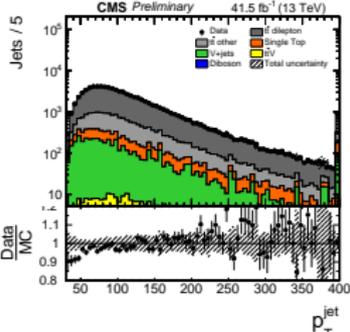

(c) Azimuthal angle of jets (step 7/8)

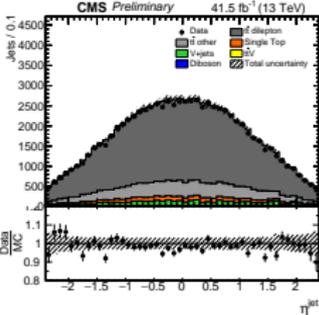

(d) Multiplicity of jets (step 7/8)

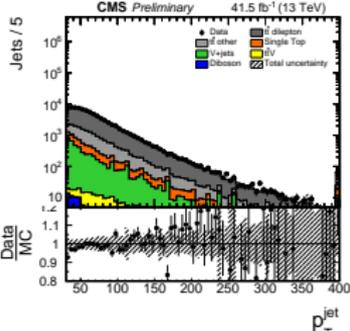

Control Plots with mumu Channel (6 of 43)

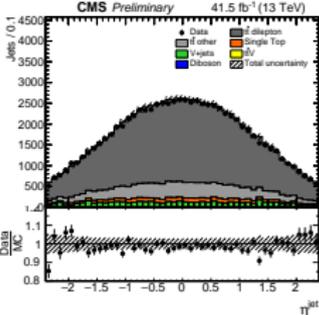

(a) Transverse momentum of leading jets (step 7/8)

(b) Pseudorapidity of leading jets (step 7/8)

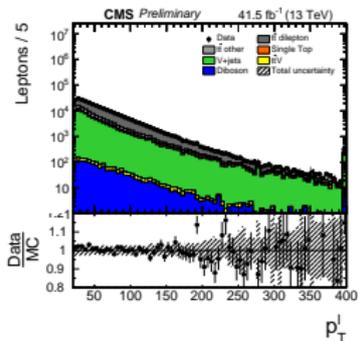

(c) Transverse momentum of subleading jets (step 7/8)

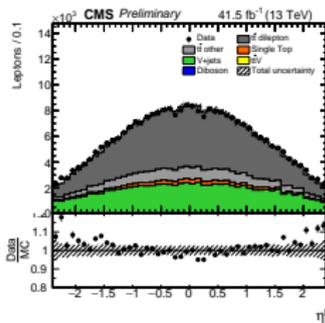

(d) Pseudorapidity of subleading jets (step 7/8)

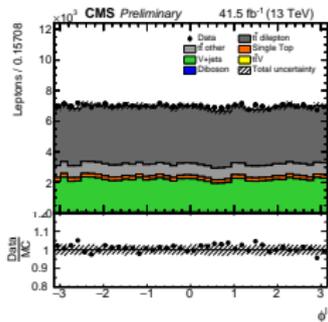

Control Plots with mumu Channel (8 of 43)

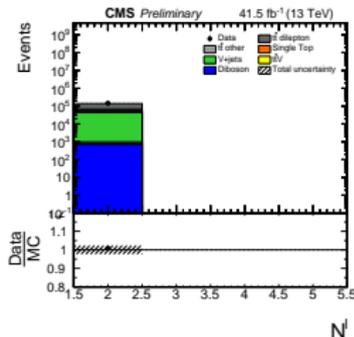

(a) Transverse momentum of leptons (step 6/8)

(b) Pseudorapidity of leptons (step 6/8)

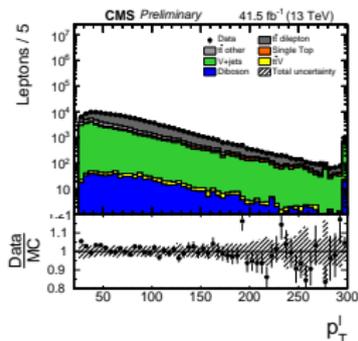

(c) Azimuthal angle of leptons (step 6/8)

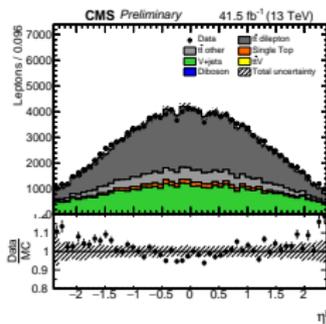

(d) Multiplicity of leptons (step 6/8)

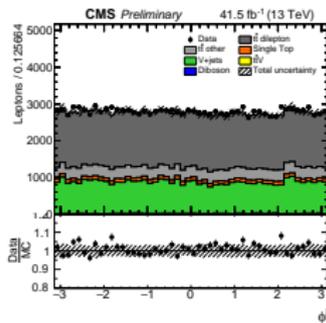

Control Plots with mumu Channel (9 of 43)

(a) Transverse momentum of leading leptons (step 6/8)

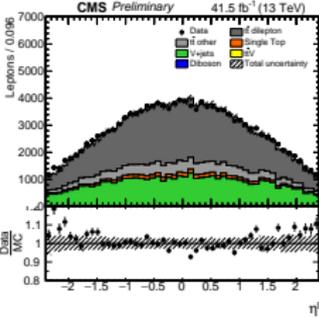

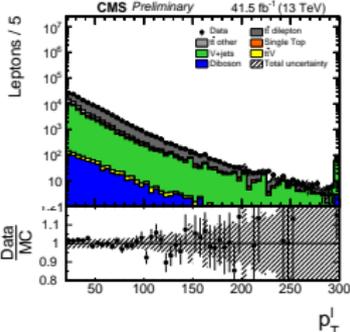

(b) Pseudorapidity of leading leptons (step 6/8)

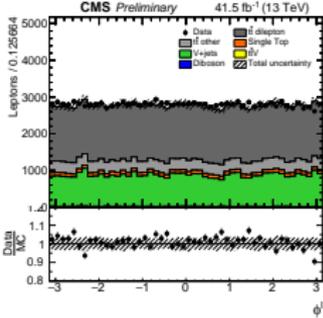

(c) Azimuthal angle of leading leptons (step 6/8)

Control Plots with mumu Channel (10 of 43)

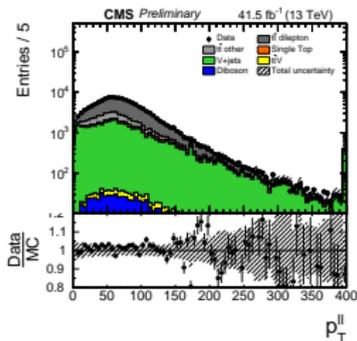

(a) Transverse momentum of 2nd leptons (step 6/8)

(b) Pseudorapidity of 2nd leptons (step 6/8)

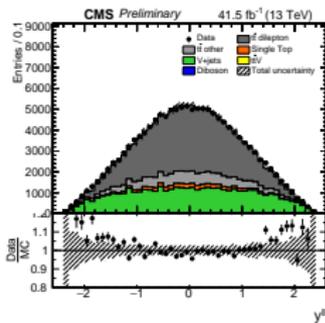

(c) Azimuthal angle of 2nd leptons (step 6/8)

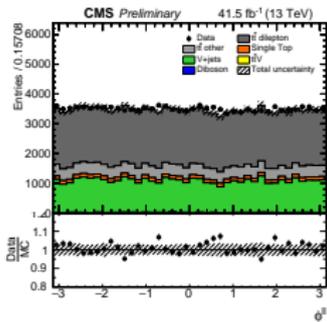

Control Plots with mumu Channel (11 of 43)

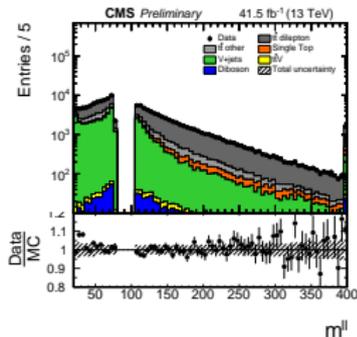

(a) Transverse momentum of di-leptons (step 6/8)

(b) Rapidity of di-leptons (step 6/8)

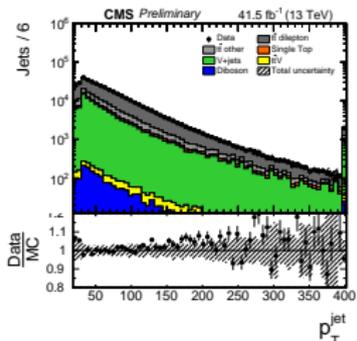

(c) Azimuthal angle of di-leptons (step 6/8)

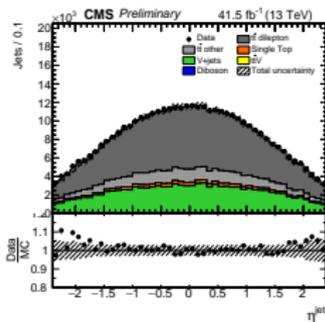

(d) Mass of di-leptons (step 6/8)

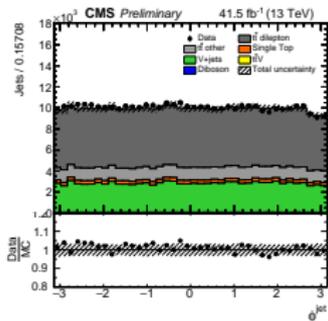

Control Plots with mumu Channel (12 of 43)

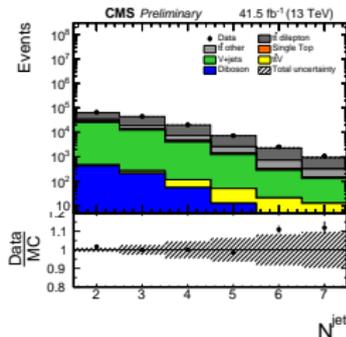

(a) Transverse momentum of jets (step 6/8)

(b) Pseudorapidity of jets (step 6/8)

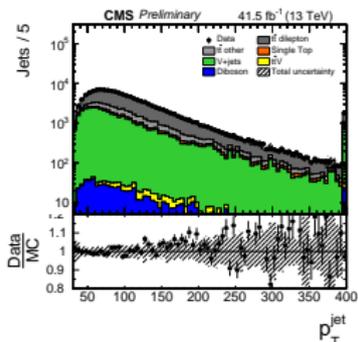

(c) Azimuthal angle of jets (step 6/8)

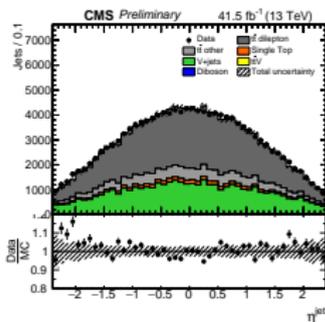

(d) Multiplicity of jets (step 6/8)

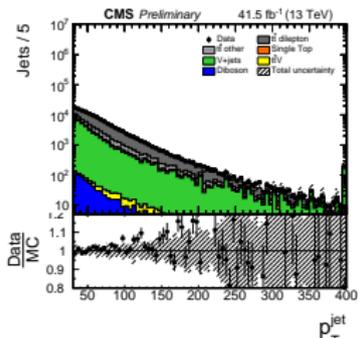

Control Plots with mumu Channel (13 of 43)

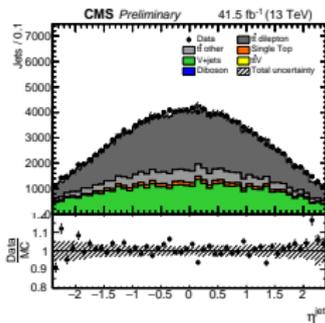

(a) Transverse momentum of leading jets (step 6/8)

(b) Pseudorapidity of leading jets (step 6/8)

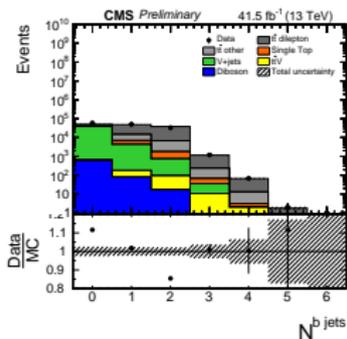

(c) Transverse momentum of subleading jets (step 6/8)

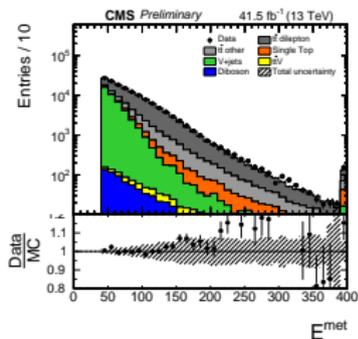

(d) Pseudorapidity of subleading jets (step 6/8)

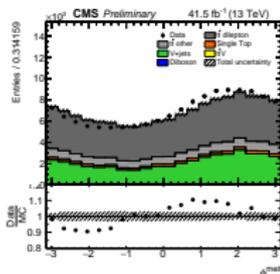

Control Plots with mumu Channel (14 of 43)

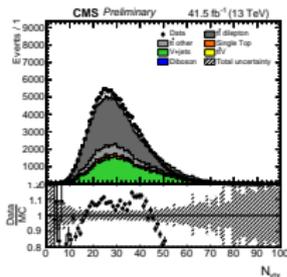

(a) Multiplicity of b-tagged jets (step 6/8)

(b) Missing transverse momentum (step 6/8)

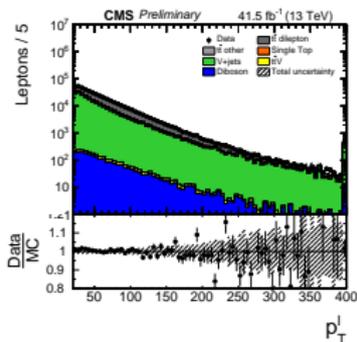

(c) Azimuthal angle of missing transverse momentum (step 6/8)

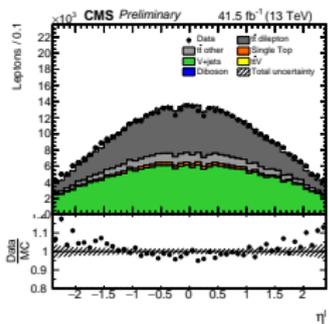

(d) Vertex multiplicity (pileup) (step 6/8)

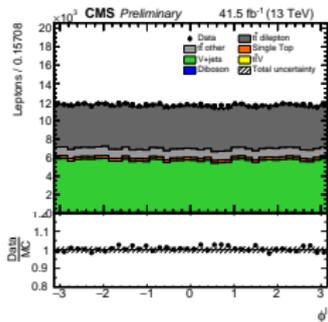

Control Plots with mumu Channel (15 of 43)

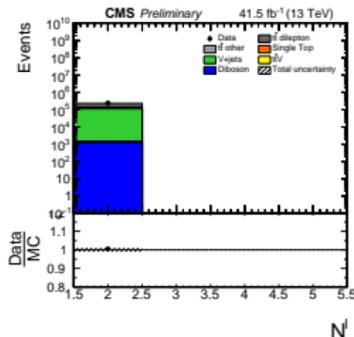

(a) Transverse momentum of leptons (step 5/8)

(b) Pseudorapidity of leptons (step 5/8)

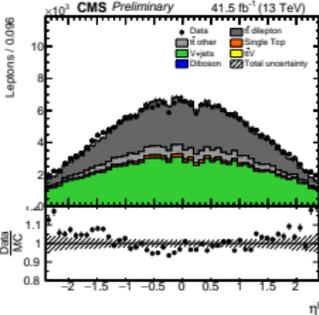

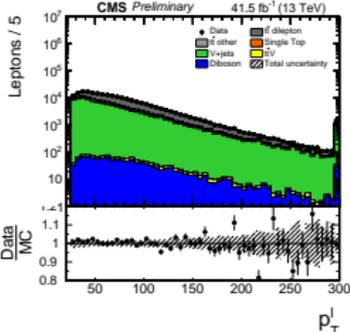

(c) Azimuthal angle of leptons (step 5/8)

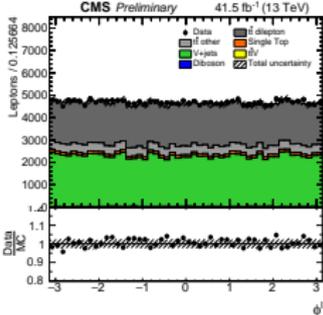

(d) Multiplicity of leptons (step 5/8)

Control Plots with mumu Channel (16 of 43)

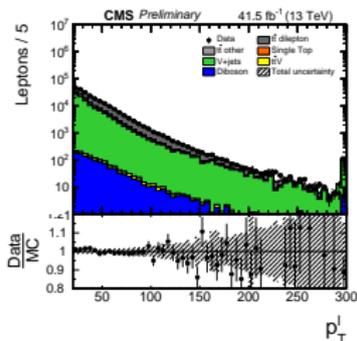

(a) Transverse momentum of leading leptons (step 5/8) (b) Pseudorapidity of leading leptons (step 5/8)

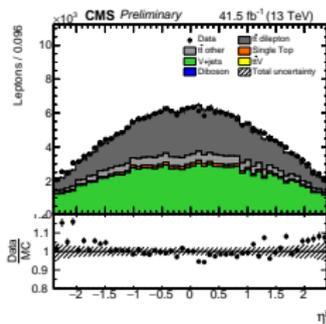

(c) Azimuthal angle of leading leptons (step 5/8)

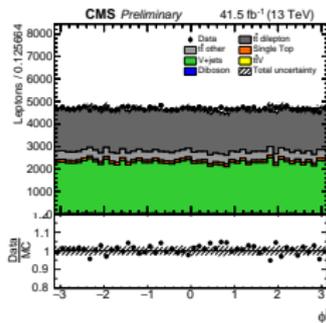

Control Plots with mumu Channel (17 of 43)

(a) Transverse momentum of 2nd lepton (step 5/8)

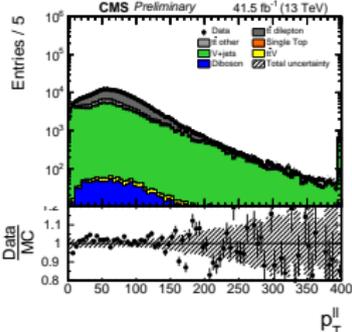

(b) Pseudorapidity of 2nd lepton (step 5/8)

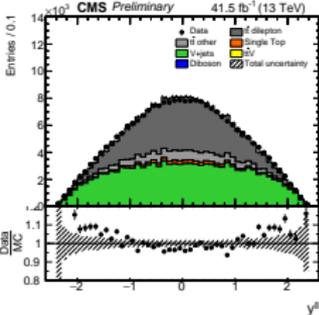

(c) Azimuthal angle of 2nd lepton (step 5/8)

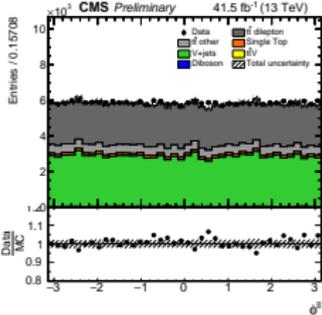

Control Plots with mumu Channel (18 of 43)

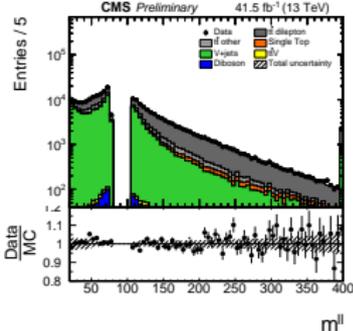

(a) Transverse momentum of di-leptons (step 5/8)

(b) Rapidity of di-leptons (step 5/8)

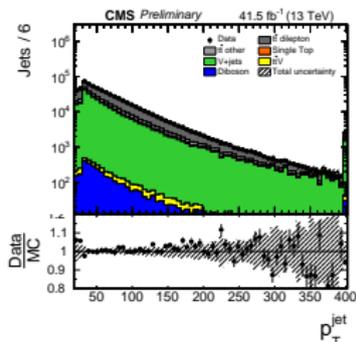

(c) Azimuthal angle of di-leptons (step 5/8)

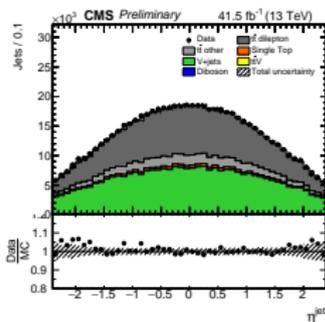

(d) Mass of di-leptons (step 5/8)

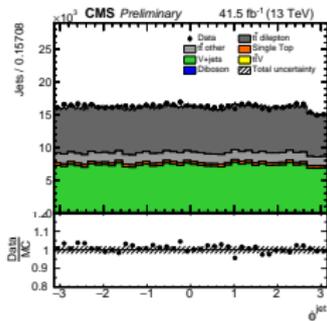

Control Plots with mumu Channel (19 of 43)

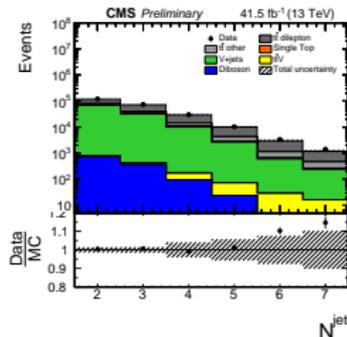

(a) Transverse momentum of jets (step 5/8)

(b) Pseudorapidity of jets (step 5/8)

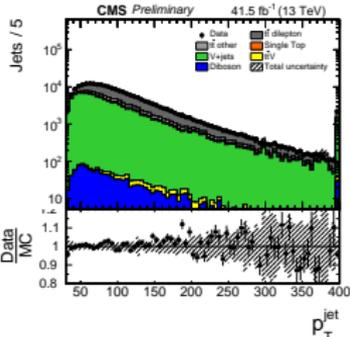

(c) Azimuthal angle of jets (step 5/8)

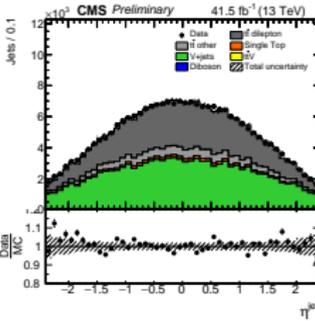

(d) Multiplicity of jets (step 5/8)

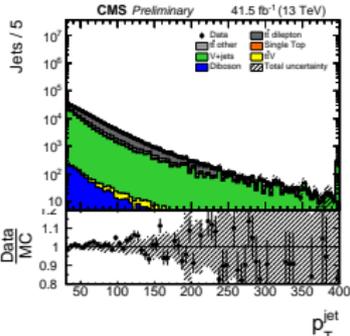

Control Plots with mumu Channel (20 of 43)

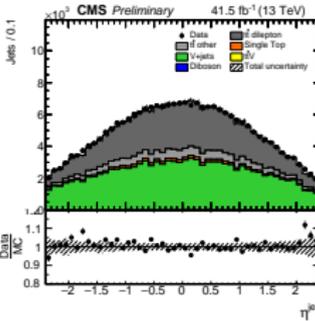

(a) Transverse momentum of leading jets (step 5/8)

(b) Pseudorapidity of leading jets (step 5/8)

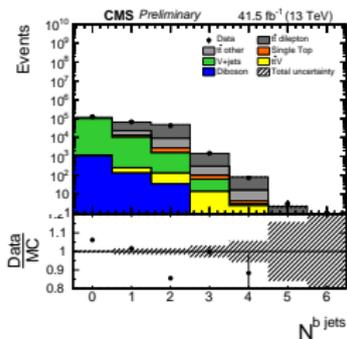

(c) Transverse momentum of subleading jets (step 5/8)

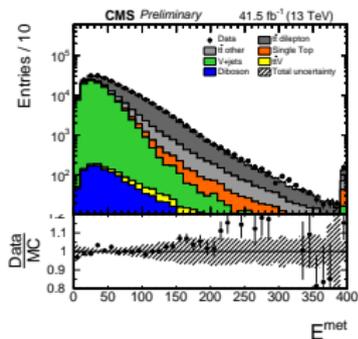

(d) Pseudorapidity of subleading jets (step 5/8)

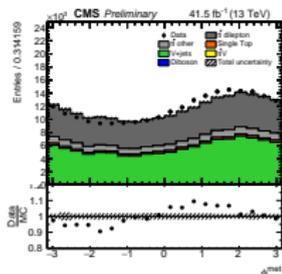

Control Plots with mumu Channel (21 of 43)

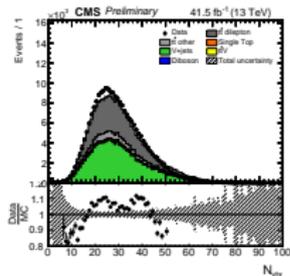

(a) Multiplicity of b-tagged jets (step 5/8)

(b) Missing transverse momentum (step 5/8)

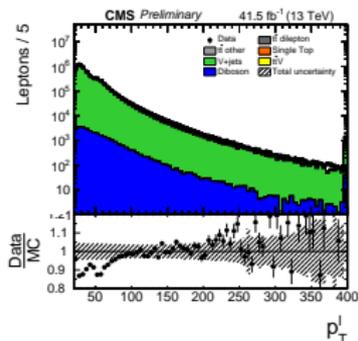

(c) Azimuthal angle of missing transverse momentum (step 5/8)

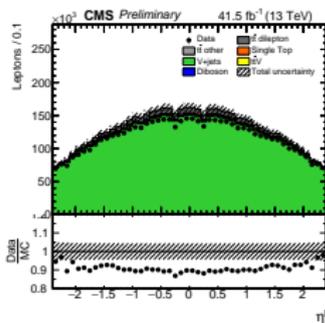

(d) Vertex multiplicity (pileup) (step 5/8)

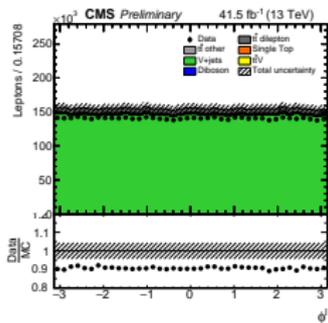

Control Plots with mumu Channel (22 of 43)

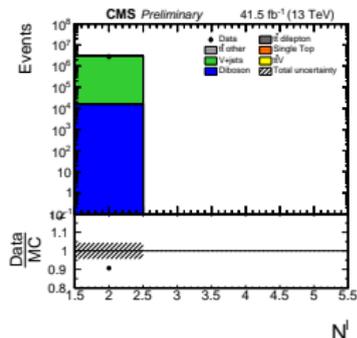

(a) Transverse momentum of leptons (step 4/8)

(b) Pseudorapidity of leptons (step 4/8)

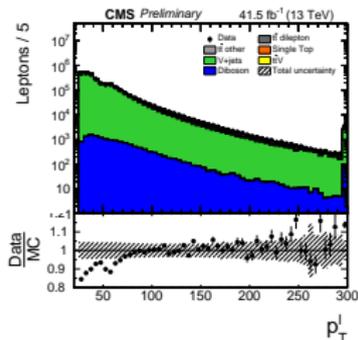

(c) Azimuthal angle of leptons (step 4/8)

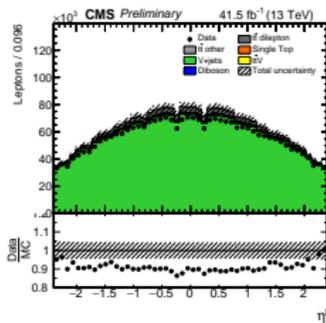

(d) Multiplicity of leptons (step 4/8)

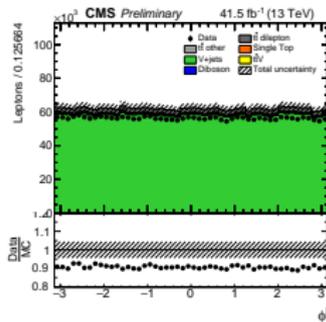

Control Plots with mumu Channel (23 of 43)

(a) Transverse momentum of leading leptons (step 4/8)

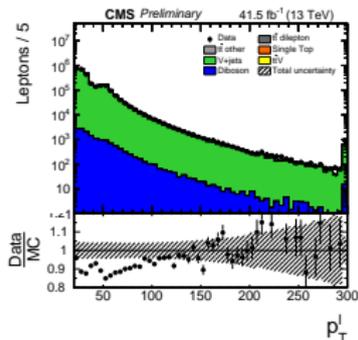

(b) Pseudorapidity of leading leptons (step 4/8)

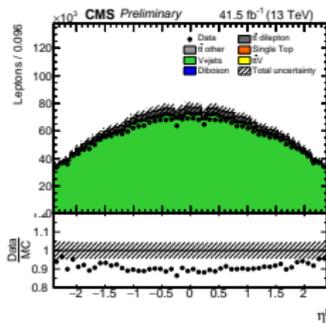

(c) Azimuthal angle of leading leptons (step 4/8)

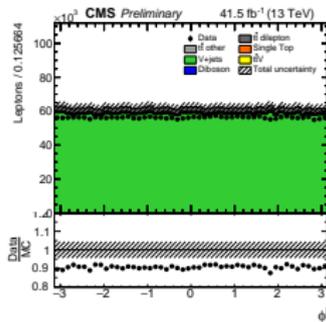

Control Plots with mumu Channel (24 of 43)

(a) Transverse momentum of 2nd leptons (step 4/8)

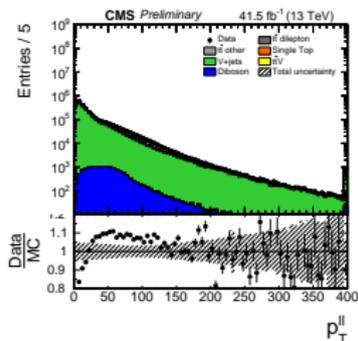

(b) Pseudorapidity of 2nd leptons (step 4/8)

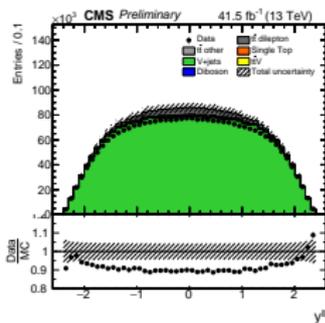

(c) Azimuthal angle of 2nd leptons (step 4/8)

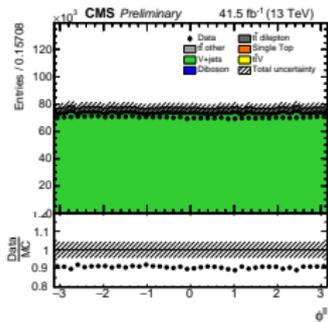

Control Plots with mumu Channel (25 of 43)

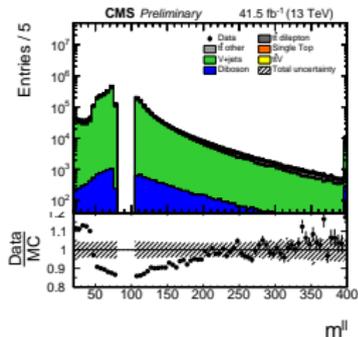

(a) Transverse momentum of di-leptons (step 4/8)

(b) Rapidity of di-leptons (step 4/8)

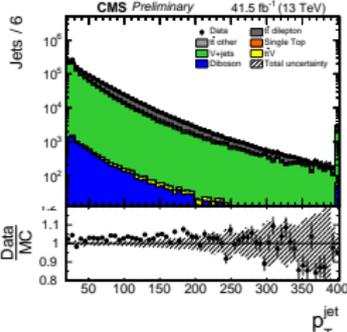

(c) Azimuthal angle of di-leptons (step 4/8)

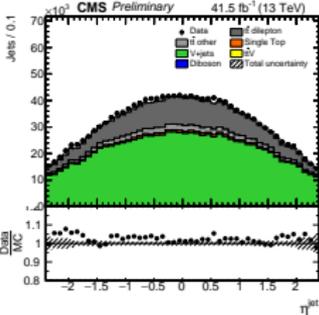

(d) Mass of di-leptons (step 4/8)

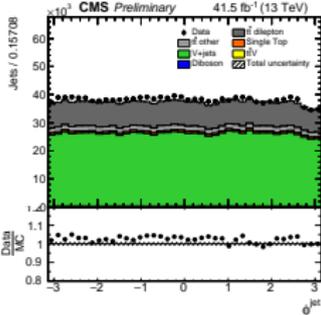

Control Plots with mumu Channel (26 of 43)

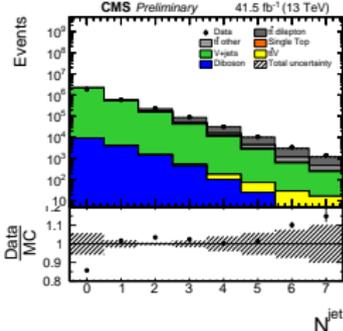

(a) Transverse momentum of jets (step 4/8)

(b) Pseudorapidity of jets (step 4/8)

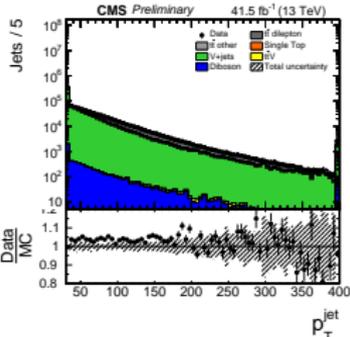

(c) Azimuthal angle of jets (step 4/8)

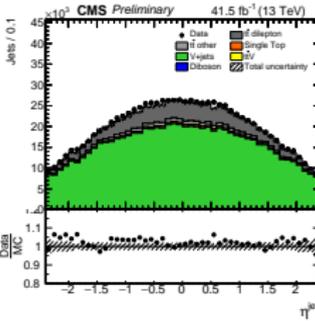

(d) Multiplicity of jets (step 4/8)

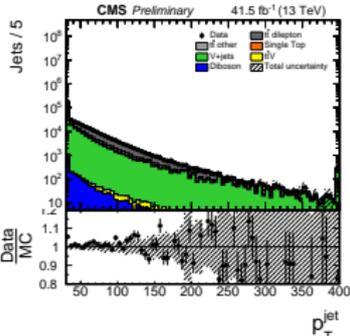

Control Plots with mumu Channel (27 of 43)

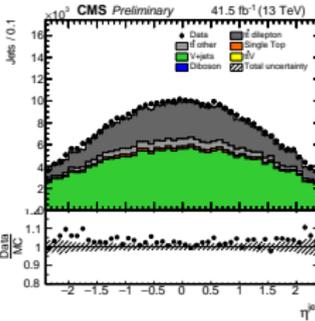

(a) Transverse momentum of leading jets (step 4/8)

(b) Pseudorapidity of leading jets (step 4/8)

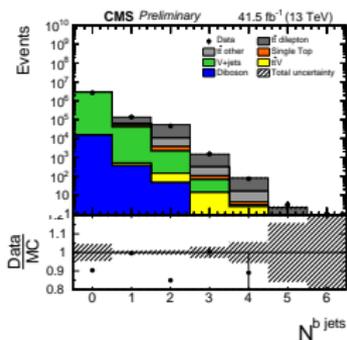

(c) Transverse momentum of subleading jets (step 4/8)

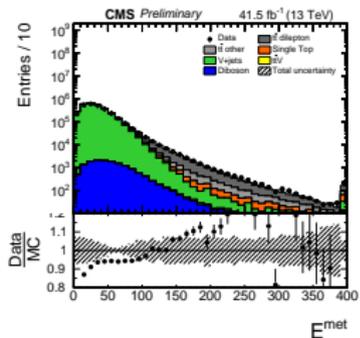

(d) Pseudorapidity of subleading jets (step 4/8)

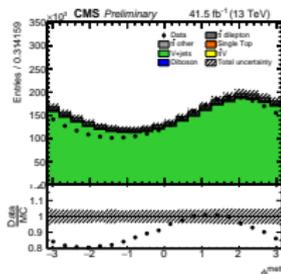

Control Plots with mumu Channel (28 of 43)

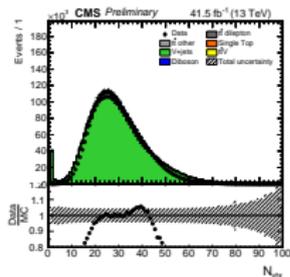

(a) Multiplicity of b-tagged jets (step 4/8)

(b) Missing transverse momentum (step 4/8)

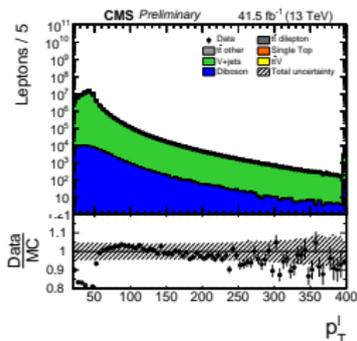

(c) Azimuthal angle of missing transverse momentum (step 4/8)

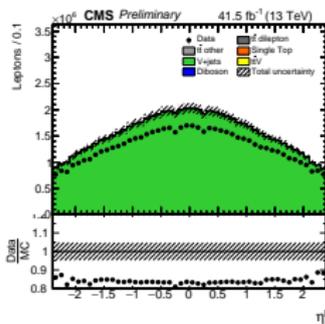

(d) Vertex multiplicity (pileup) (step 4/8)

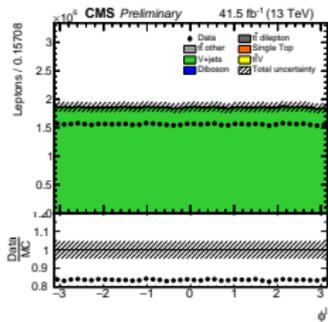

Control Plots with mumu Channel (29 of 43)

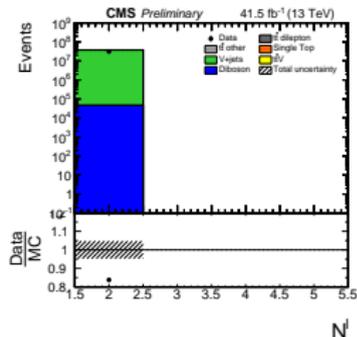

(a) Transverse momentum of leptons (step 3/8)

(b) Pseudorapidity of leptons (step 3/8)

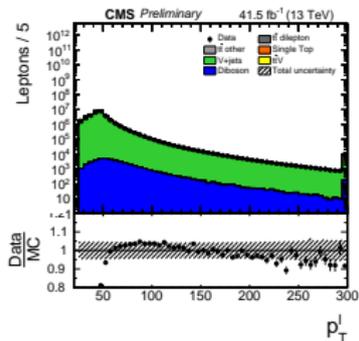

(c) Azimuthal angle of leptons (step 3/8)

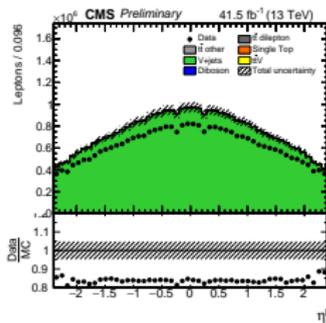

(d) Multiplicity of leptons (step 3/8)

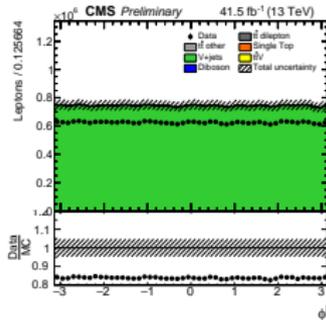

Control Plots with mumu Channel (30 of 43)

(a) Transverse momentum of leading leptons (step 3/8)

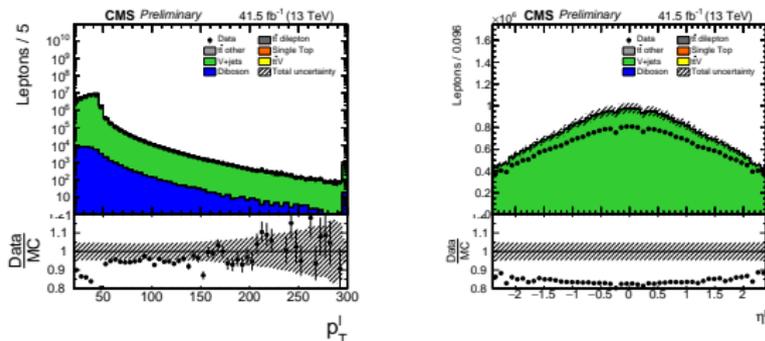

(b) Pseudorapidity of leading leptons (step 3/8)

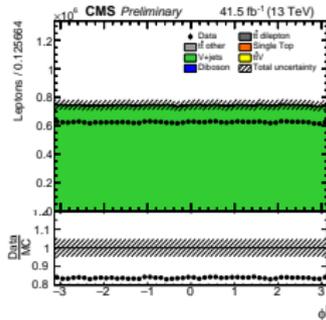

(c) Azimuthal angle of leading leptons (step 3/8)

Control Plots with mumu Channel (31 of 43)

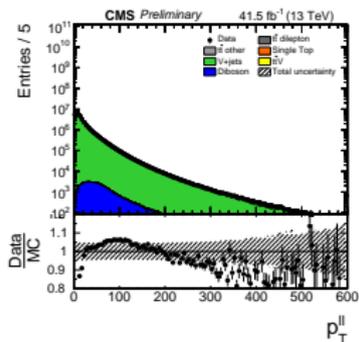

(a) Transverse momentum of 2nd leptons (step 3/8) (b) Pseudorapidity of 2nd leptons (step 3/8)

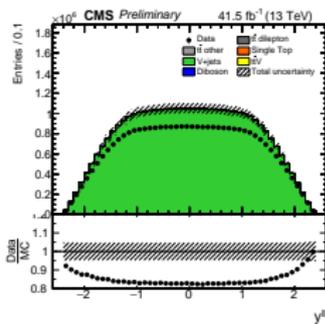

(c) Azimuthal angle of 2nd leptons (step 3/8)

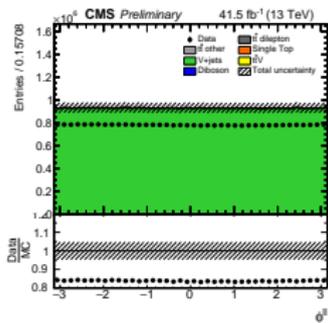

Control Plots with mumu Channel (32 of 43)

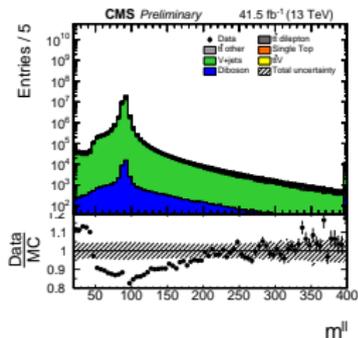

(a) Transverse momentum of di-leptons (step 3/8)

(b) Rapidity of di-leptons (step 3/8)

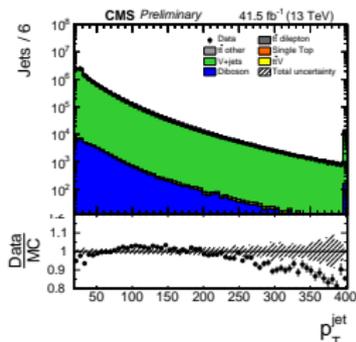

(c) Azimuthal angle of di-leptons (step 3/8)

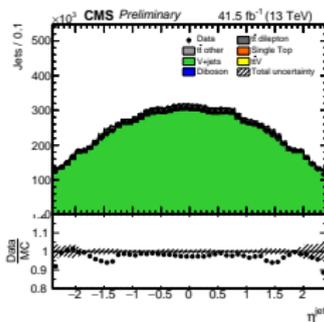

(d) Mass of di-leptons (step 3/8)

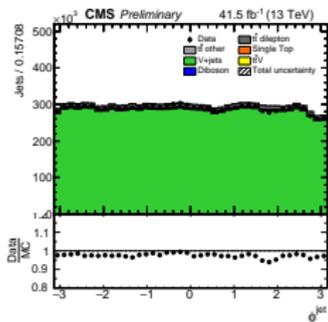

Control Plots with mumu Channel (33 of 43)

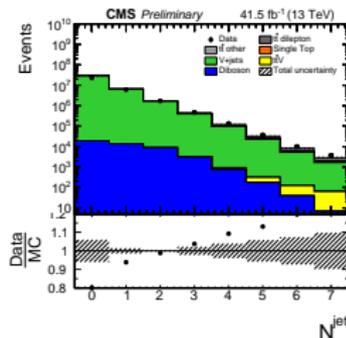

(a) Transverse momentum of jets (step 3/8)

(b) Pseudorapidity of jets (step 3/8)

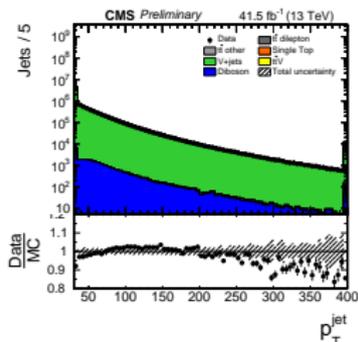

(c) Azimuthal angle of jets (step 3/8)

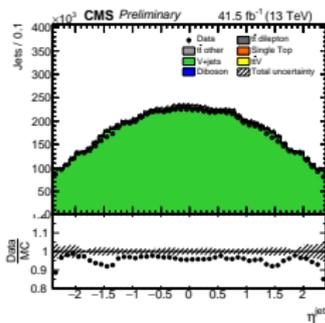

(d) Multiplicity of jets (step 3/8)

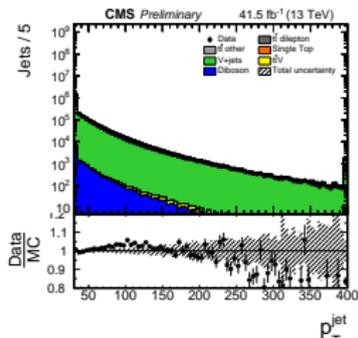

Control Plots with mumu Channel (34 of 43)

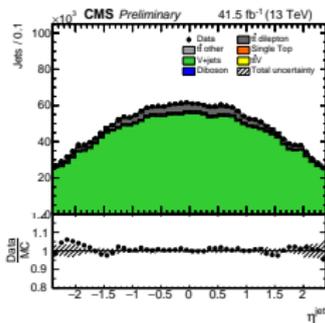

(a) Transverse momentum of leading jets (step 3/8)

(b) Pseudorapidity of leading jets (step 3/8)

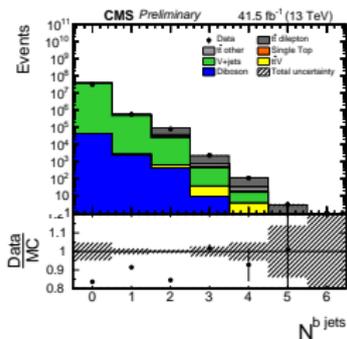

(c) Transverse momentum of subleading jets (step 3/8)

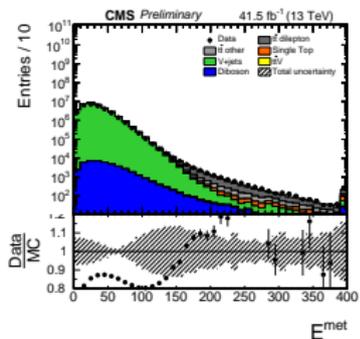

(d) Pseudorapidity of subleading jets (step 3/8)

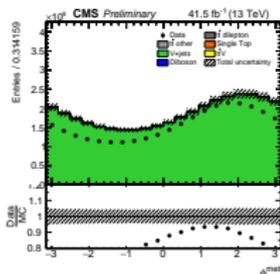

Control Plots with mumu Channel (35 of 43)

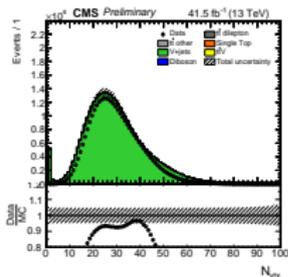

(a) Multiplicity of b-tagged jets (step 3/8)

(b) Missing transverse momentum (step 3/8)

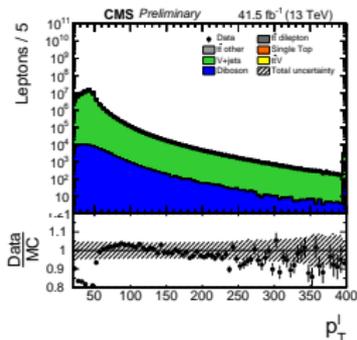

(c) Azimuthal angle of missing transverse momentum (step 3/8)

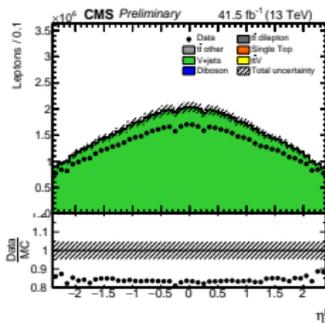

(d) Vertex multiplicity (pileup) (step 3/8)

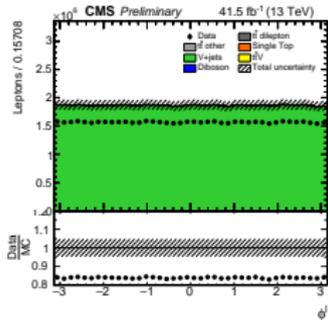

Control Plots with mumu Channel (36 of 43)

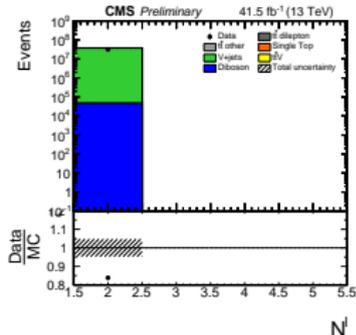

(a) Transverse momentum of leptons (step 2/8)

(b) Pseudorapidity of leptons (step 2/8)

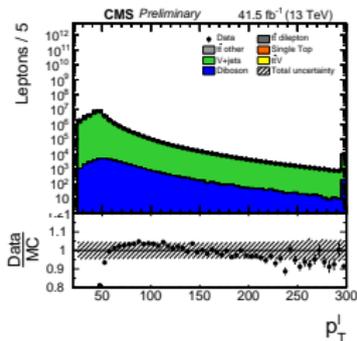

(c) Azimuthal angle of leptons (step 2/8)

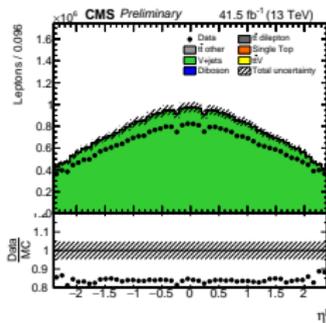

(d) Multiplicity of leptons (step 2/8)

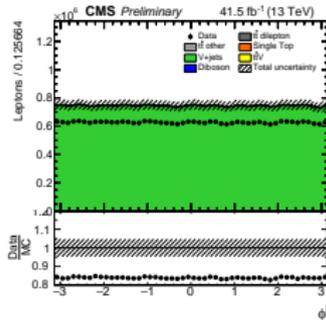

Control Plots with mumu Channel (37 of 43)

(a) Transverse momentum of leading leptons (step 2/8)

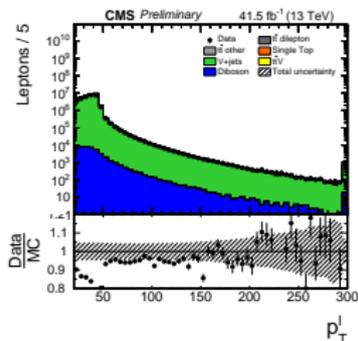

(b) Pseudorapidity of leading leptons (step 2/8)

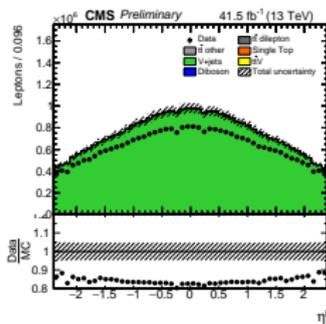

(c) Azimuthal angle of leading leptons (step 2/8)

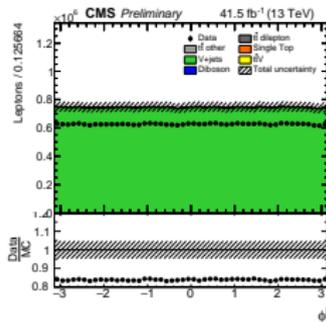

Control Plots with mumu Channel (38 of 43)

(a) Transverse momentum of 2nd leptons (step 2/8)

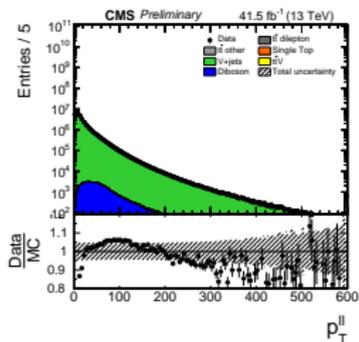

(b) Pseudorapidity of 2nd leptons (step 2/8)

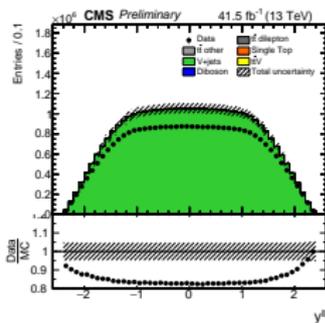

(c) Azimuthal angle of 2nd leptons (step 2/8)

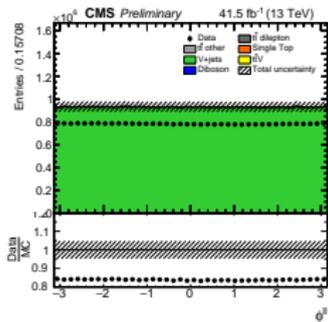

Control Plots with mumu Channel (39 of 43)

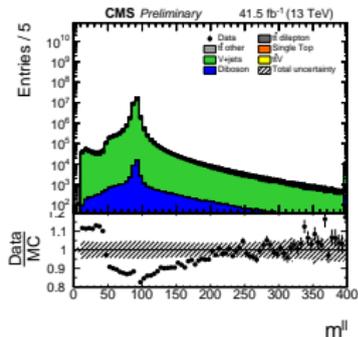

(a) Transverse momentum of di-leptons (step 2/8)

(b) Rapidity of di-leptons (step 2/8)

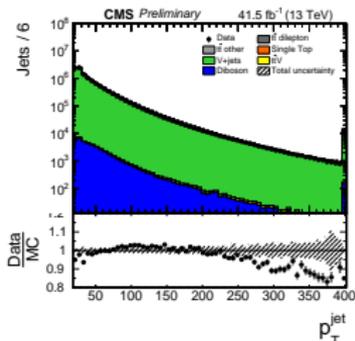

(c) Azimuthal angle of di-leptons (step 2/8)

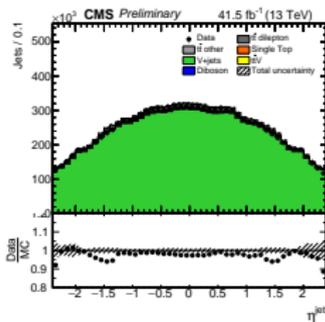

(d) Mass of di-leptons (step 2/8)

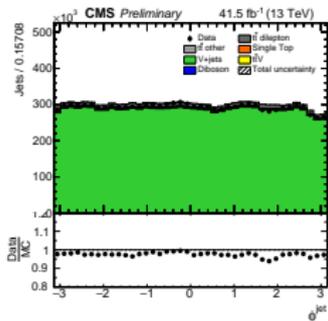

Control Plots with mumu Channel (40 of 43)

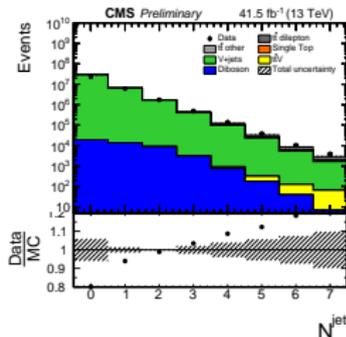

(a) Transverse momentum of jets (step 2/8)

(b) Pseudorapidity of jets (step 2/8)

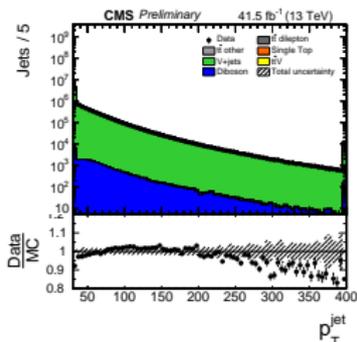

(c) Azimuthal angle of jets (step 2/8)

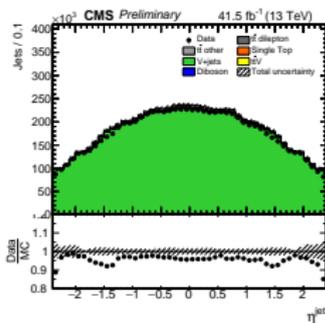

(d) Multiplicity of jets (step 2/8)

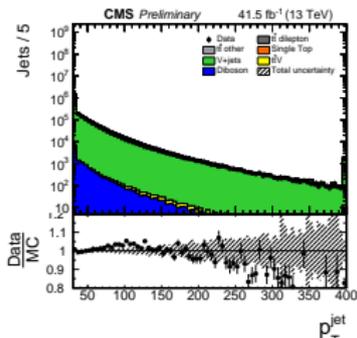

Control Plots with mu μ Channel (41 of 43)

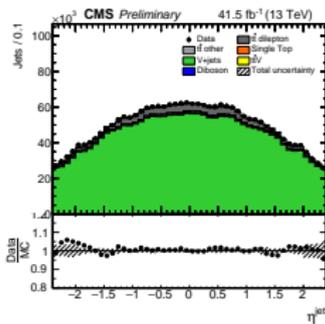

(a) Transverse momentum of leading jets (step 2/8)

(b) Pseudorapidity of leading jets (step 2/8)

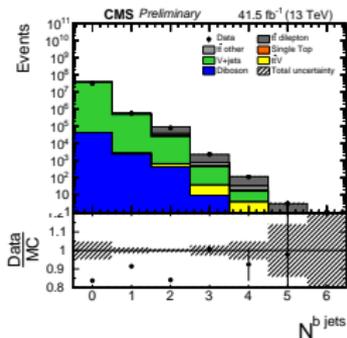

(c) Transverse momentum of subleading jets (step 2/8)

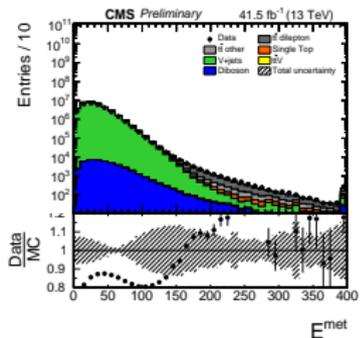

(d) Pseudorapidity of subleading jets (step 2/8)

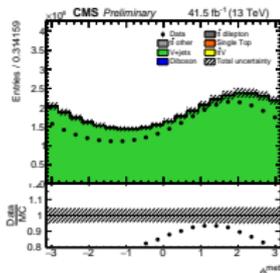

Control Plots with mumu Channel (42 of 43)

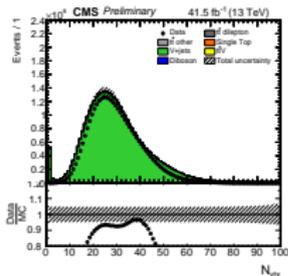

(a) Multiplicity of b-tagged jets (step 2/8)

(b) Missing transverse momentum (step 2/8)

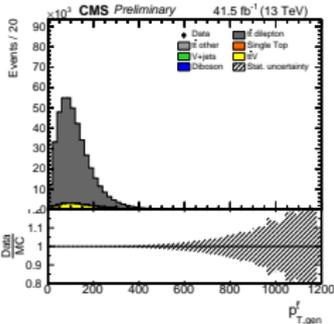

(c) Azimuthal angle of missing transverse momentum (step 2/8)

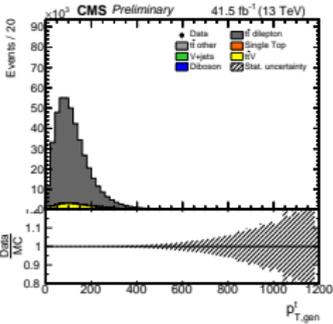

(d) Vertex multiplicity (pileup) (step 2/8)

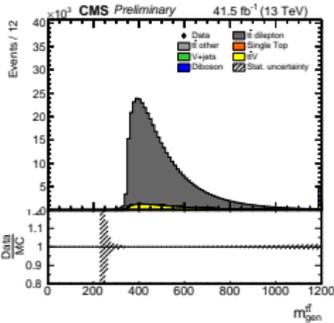

Control Plots with mumu Channel (43 of 43)

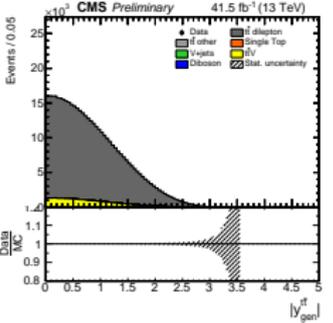

(a) Transverse momentum of antitop quark.

(b) Transverse momentum of top quark.

(c) Mass of $t\bar{t}$ system.

(d) Absolute rapidity of $t\bar{t}$ system.
