Tuesday 16 March 2021

Micro and nano-crystalline materials - <https://desy.zoom.us/j/93771442468> (15:15-16:35)

-Conveners: Thomas F. Keller

time	[id] title	presenter
15:15	[29] Scattering is a powerful tool to follow nucleation and growth of minerals from solutions	STAWSKI, Tomasz
15:35	[41] Morphology and growth behavior of Cu nanoparticles on the vicinal ZnO(10-14) surface	Mr GLEISSNER, Robert
15:55	[87] Self assembled monolayer of silica nanoparticles with improved order by drop casting	QDEMAT, Asmaa
16:15	[106] Crystal structure and lattice dynamics of endotaxial FeSi ₂ nanowires	STANKOV, Svetoslav
