

Minutes, TA6, Sep 11, 10

1 FTE cuts iterated and tentatively agreed upon with management. → see table in slides. In-kind FTEs not adjusted by KS/SW but likely to change. Any adjustment after cuts on requested FTEs expected by Monday, 1409 @ all: check with all relevant members of your team and inform KS/SW

2 Non-FTE in-kind contributions (computing, storage, services, data, ...) to be added into general overleaf (if you have writing permission) or – otherwise - in section in the end of TA6 overleaf. Please state if (parts of these) have been listed elsewhere to avoid double-counting.

3 FTEs were cut by >20%, which may correspond to work being done in a shorter period of time. We aim for a flat profile overall. @ all please provide breakdown of your in-kind/requested FTEs per WP **and year** to KS/SW and WP coordinators (or to punch4nfdi-ta6 @ desy.de)

4 Discussion on WP composition. See list of teams in overleaf

5 Regarding text **all** WPs shall provide description in 3 section format indicated in overleaf.

6 First full draft to be completed by Tuesday, Sep 15 latest!
