TA6 Synergies & Services

Hard cuts were unavoidable. Tentative confirmation by m'ment.

Comment 1: We did not modify values of inkind-FTEs.

It is understood that these will go down (according to cuts).

→ reasses with team representative and correct asap (by monday)

Comment 2: Some teams are active in multiple WPs and share individuals between diff. WPs and in inkind/requested combinations.

If there are urgent needs for a different breakdown among WPs – speak up!
Watch out for timeline → see later

TA6 Synergies & Services

Non-FTE contributions:

Computing, storage, data-bases, ...
→ collection rather incomplete and heterogeneous

Not all are (exclusively) WP or TA6-specific

Timelines

FTE-cut was largely 5 → 4 FTE-years (& more)

General aim: flat distribution

WP6.1 ought to work throughout

Significant early work (setting things up)

→ some freedom to balance in-kind/requested FTE

WP 6.2 (matching TA2) ...?

WP 6.3 preference for up-front spending

WP 6.4

WP 6.5
