

# Maxwell Update

very brief

# Maxwell previous status

# Maxwell hardware update

- 40 AMD EPYC 7402 → +3800 cores in short partition → maxwell (+150%)
- 6 1xV100 + 6 2xV100 new in maxgpu/allgpu (+42% GPUs, +50% V100)
- 1 4xV100 (mdlma, allgpu)
- 6 4xV100 (tbd, allgpu)
- Eu.XFEL +100 nodes soon → upex/exfel/all partitions
- DESY-IT investment in 2020 ~1M€ (w/o storage)
- foreseen for 2021: CPUs, A100, possibly Intel Xe, ... (open to suggestions)
