

PROGRAM Matter and Technologies

Ties Behnke, Anke Susanne Mueller
Student retreat January 2021

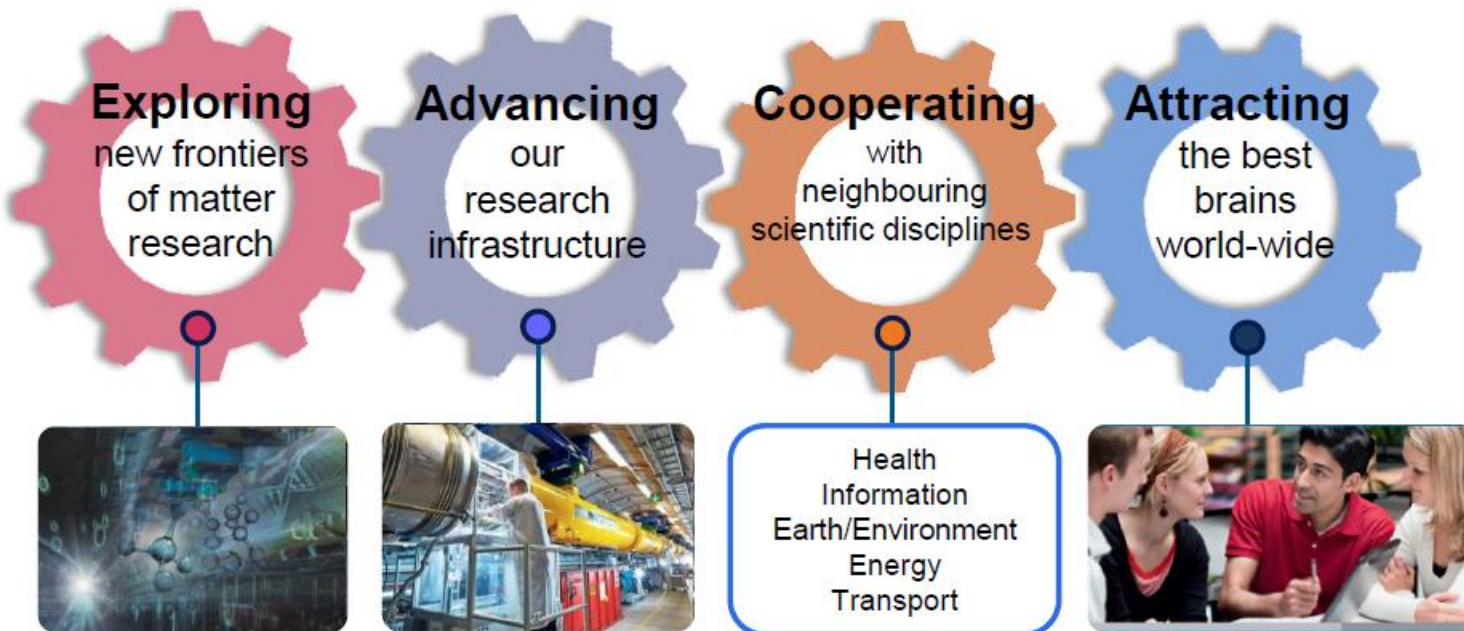

Decyphering the structure and function of matter

- to find answers to the **grand open questions** of the quantum universe
- to critically contribute to the design of **advanced materials** for future energy-, information- and transport technologies
- to contribute to our understanding of **biomolecular processes** and to the development of **better drugs**

Overall Strategy of the Research Field

The research field Matter

R. Engel B. Heinemann

Matter and the Universe (LK I)

Fundamental Particles and Forces	FPF
Cosmic Matter in the Laboratory	CML
Matter and Radiation from the Universe	MRU

Facilities (LK II)
Ions
GridKa

Facilities (LK II)
IDAF

T. Behnke A.-S. Müller

Matter and Technologies (LK I)

Accelerator Research and Development	ARD
Detector Technologies and Systems	DTS
Data Management and Analysis	DMA

Facilities (LK II)
IDAF

T. Stöhlker A. Stierle

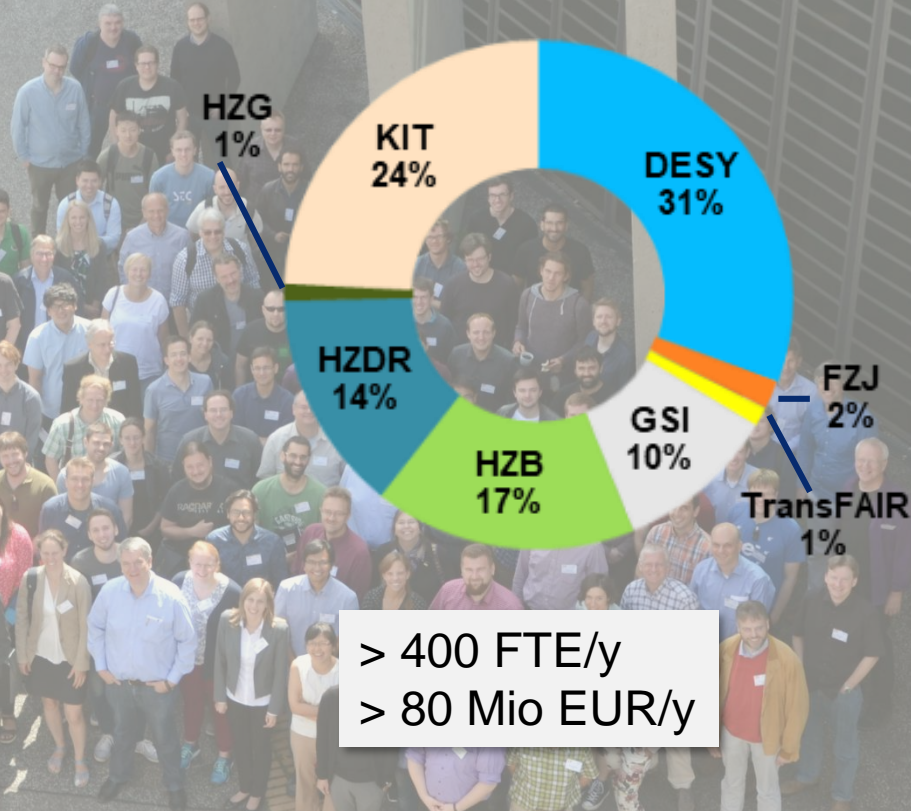

From Matter to Materials and Life (LK I)

Matter Dynamics, Mechanisms and Control	Matter
Materials Complex and Functional Materials	Materials
Life Building Blocks of Life: Structure and Function	Life

Facilities (LK II)
Photons, Neutrons, Ions
High-Fields

We Research Technologies Matter and Technologies

> 400 FTE/y
> 80 Mio EUR/y

Matter and Technologies

Technologies for Science

Accelerator science
Detector science
Data analytics

- Research in *Matter* is bold and broad
- It relies on people and on advanced technologies

MT is a program for the future of *Matter*
closely intertwined with MML and MU

Matter and Technologies

Other areas
Tech Transfer

R&D

- Fundamental R&D
- Research in technologies

Growth

- Prototyping
- Designing systems
- Scalability

Maturity

- Developing facilities
- Building infrastructures
- Applications

Finalization

- Decommissioning

User communities

The MT Structure

Program Matter and Technologies (MT)

T. Behnke (DESY) | A.-S. Müller (KIT)

Topic Accelerator Research and Development (MT-ARD)

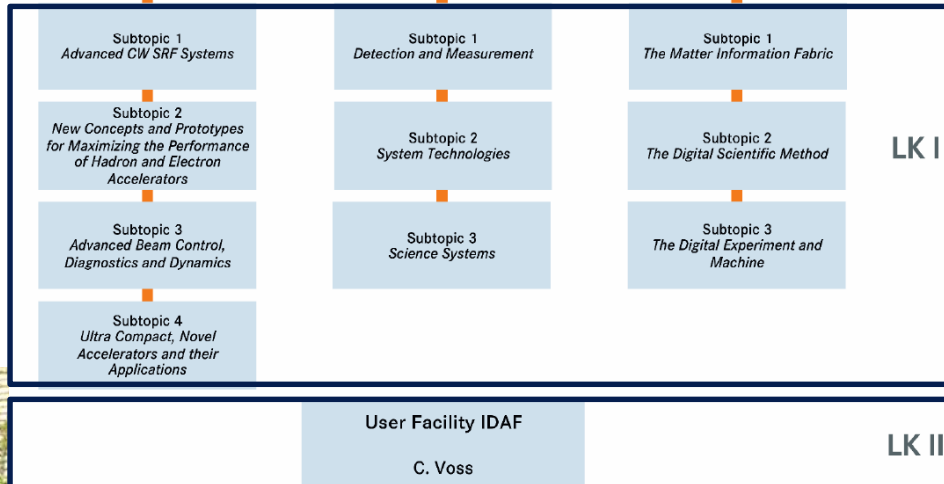

A. Jankowiak (HZB) |
J. Osterhoff (DESY)
DESY, FZJ, GSI* with HIM and HI Jena,
HZB, HZDR, KIT

Topic Detector Technologies and Systems (MT-DTS)

M. Weber (KIT) |
S. Masciocchi (GSI)
DESY, GSI* with HIM and HI Jena, KIT

Topic Data Management and Analysis (MT-DMA)

M. Bussmann (HZDR) |
V. Gülzow (DESY)
DESY, FZJ, GSI with HI Jena, HZB, HZDR,
HZG

Management role

- Develop Strategy
- Reconcile Center – Program Strategies
- Foster Cooperation
- Implement Networking
- People

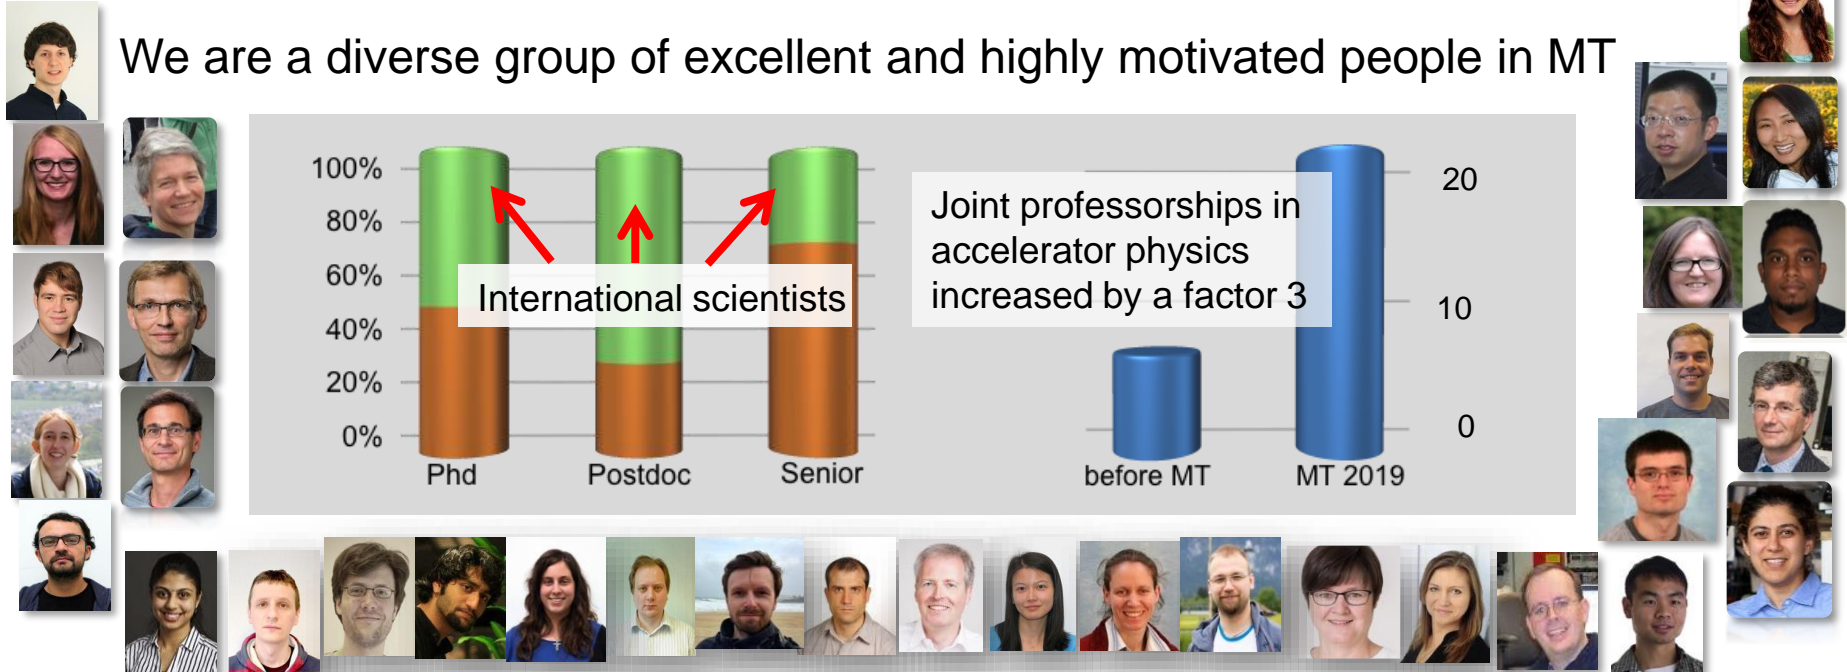

People Matter

Visibility & Attractiveness of MT

Establish research into technologies as a recognized research activity in its own right
Create visibility and recognition for science and people

We are a diverse group of excellent and highly motivated people in MT

People The MT

MT is an

- MT an
- 3
- Topics
- Worki

er researchers

..)

the youngest

- Data science in a broad sense gains importance
 - ACCLAIM as a new project for machine learning in science
 - DMA is gathering speed
 - Integration into more global activities like Helmholtz Digital Strategy etc
- Sustainability
 - Is our science sustainable
 - Pilot topic in ARD
 - Innoeva project to initiate concrete projects in this area

Our Way into the Next 7 Years

Our Vision

MATTER AND
TECHNOLOGIES

Establish MT
Set up structures
Build up infrastructure

Make new accelerators happen
Push the detection limits
Master the data challenge

- ✓ Exciting Science
- ✓ Research infrastructures
- ✓ Common projects
- ✓ Vibrant community
- ✓ Working structures
- ✓ International visibility
