EPS-HEP2021 *Virtual* Edition: a few thoughts

- Clearly a **special situation**
- Full “look-and-feel” of a real-life conference can not be re-created
- Tried to introduce interactive elements
- Also benefits? E.g. easy attendance with small environmental footprint

Mattermost, poster session, lab tour, twitter, ...

We would be very interested to receive your feedback

Plan to send a questionnaire to all participants after the conference,
and we very much appreciate your participation in this survey

Special thanks you to our sponsors
