

## Diversity Video

### Instructions

### Project details

We want **YOU** to participate in an interactive art project to highlight diversity at ICRC! Your submissions will be incorporated into a poem about the Universe. Each line of the poem will be written on a sheet of A4 paper and captured by video. The deadline for submissions is **Sunday, June 27, 2021**.

To help you envision the project, it will look something like:

Poem line 1 video  
Poem line 2 video

<your videos>

Poem line 3 video  
Poem line 4 video

<more of your videos>

etc.

### Essential Materials

- A4 size paper
- Thick marker ( $\geq 3\text{mm}$ ) or printer
- Video camera (computer, phone...)
- Estimated time: <10 min

### Instructions

1. Choose **one** of the following categories based on your research focus and/or inspiration:
  - a. Your research focus (e.g. starburst galaxies, supernova, cosmic ray transport, magnetic reconnection ...)
  - b. Big mystery of the Universe, posed as a question (e.g. What is dark matter?)
  - c. Location where your favourite experiment is located. Both city/province as well as country, if applicable (e.g. Khomas Highland of Namibia; Sichuan province, China; ...)

2. Write your response on a **white** sheet of A4-sized paper/poster with a **thick black marker** ( $\geq 0.3$  mm) so that it **fills the entire page**. You can also print it if you prefer.
  - a. For example, if you chose category (1c) above, you could write “What is dark matter???” on the paper.
  - b. As long as the text is still legible, small doodles, sparkles, emojis, colors to highlight or underline, etc are encouraged!
3. **Record yourself for a length of 10 seconds holding up the piece of paper.**
  - a. Make sure the light is on your face
  - b. Do not worry about the sound - we have our own audio track.
  - c. Incorporate your environment! Pick a fun location, add some family members and/or pets. Home office or in the lab...
  - d. Maintain a distance of about 0.5-1 m from the camera so that both your face and the message are clearly visible.
  - e. Have fun with it! You don't have to stay still the whole time - smile, laugh, do a little dance, hug your kid, as you like! As long as the message is still for about 5 seconds, that's enough!
4. **Upload your recording** here: [https://indico.desy.de/e/diversity\\_video](https://indico.desy.de/e/diversity_video)

For reference, here is a [Good example](#) using the first line of the poem.

Bad examples:

[Too close!](#)   [Bad lighting!](#)   [Marker too thin!](#)
