

# News from H.E.S.S.

- Data taking efficiency in 2020 was at an all-time high (due to e.g. FlashCam, improvements in DAQ, HESS-IU cameras, operation) (Sylvia, Tim, Thomas, Dima, Gianluca)
- H.E.S.S. OC ranked proposals, long-term schedule for 2021 being developed (aim at 40% observation time for time-domain astronomy)
- External proposals can be submitted anytime
- Operations continue with local shifters
- Remote operations control room being set up in Zeuthen, expect last hardware delivery next week (DAQ team)

# News from H.E.S.S.

- Preparation for further extension beyond September 2022 started
- GRB190829A Science paper more or less accepted, outreach preparations started (Andrew, Sylvia)
