### „How to find your job on the non-academic job market“

Often scientists do not know enough about their options and possible ways to find proper jobs on the non-academic labour market. In this workshop you will learn how to find jobs that fit your competencies.

#### Topics:

- How are labour markets structured especially regarding public administration and industries? Which impact has the German labour market on your job search?
- How to find out your competencies and how to use them to search for jobs?
- Searching with search engines and why this is not enough – different ways and strategies for job search.
- Job search beside Research and Development departments – what else is there?
- How to use personal and electronic networks like LinkedIn for job search?
- Founding your own business: How to create your own job and how to earn money with it?
- What do I want: Live goals and career planning

Workshop takes place via Zoom. Use of webcam is necessary.

Date: 7. April 2021

Time: 9:30 a.m. – 4:30 p.m.

Trainer: **Dr. Matthias Schwarzkopf**

counsels' students and scientists in all relevant questions concerning their careers. He has founded [www.karriereberatung-akademiker.de](http://www.karriereberatung-akademiker.de) together with colleagues out of public administration and private businesses.
