# Conference Programme

The program runs over two days, the 21st and 22nd of October, 2021.

It will be centered around a few invited key-note speakers, but we will also give plenty of time for discussions and interactions.

A detailed program will come soon, but a list of the speakers and preliminary titles for their contributions are:

- Lucy Avraamidou, Groningen University: *Intersectional Approaches to Exploring Identity Politics in Physics: (Un)hidden stories.*
- Anna Danielsson, Stockholm University: *Unexpected trajectories into a 'hard' science: Gender, identity, and culture in physic.*
- Aleksandra Derra, Nicolaus Copernicus University, Torun: *Beyond nature/culture division. Karen Barad's new feminist materialism.*
- Jeff Hearn, Örebro University: *What might men and masculinities have to do with physics and physicists?*
- Alexandra Kalev, Tel Aviv University: *Faculty Diversity Programs: Best Practices and Worst.*
- Ioana Latu, Queen's University of Belfast: *Inclusion Really Does Matter: Improving attitudes towards Gender Equality Initiatives among STEM faculty.*
- Sigrid Schmitz, Humboldt University of Berlin: *Necessary Literacy for the Debate about Disciplinary Images and Cultures.*
- Mathias Wullum Nielsen: *Making Gender Diversity Work for Scientific Discovery and Innovation.*
