

# SUSY10

## Thursday 26 August 2010

**Astro 26-2 Chair: K. Zurek - Hörsaal I (16:12 - 18:12)**

| time  | [id] title  | presenter                   |
|-------|---|-----------------------------|
| 16:12 | [277] Improved Constraints on Inelastic Dark Matter                             | Mr WINKLER, Martin Wolfgang |
| 16:29 | [78] Strong dark matter constraints on GMSB models                              | Mr STAUB, Florian           |
| 16:46 | [311] Potentially Large One-loop Corrections to WIMP Annihilation               | Dr KIM, Ju Min              |
| 17:03 | [5] Supersymmetric QCD effects on dark matter annihilation: Recent developments | Dr HERRMANN, Björn          |
| 17:20 | [30] Sommerfeld and Sudakov corrections in heavy neutralino annihilation        | Mr CHALONS, Guillaume       |
| 17:37 | [238] Dark matter relic density at one loop level - effective coupling approach | Ms KULKARNI, Suchita        |
