SLAC - Status Report

Thursday 16 September 2010 15:40 (1 minute)

This poster presents the major survey and alignment activities at the SLAC National Accelerator Laboratory since 2008. The major project during the last two years has been the construction of the Linac Coherent Light Source (LCLS) with the development of beam lines still ongoing. Besides the LCLS project a variety of smaller projects are under way. This poster will give a brief overview of the various projects and the actual implementations in the field.

Primary author: Mr GASSNER, Georg (SLAC National Accelerator Laboratory)

Co-authors: Mrs LE COCQ, Caherine (SLAC National Accelerator Laboratory); Dr RULAND, Robert (SLAC National Accelerator Laboratory)

Presenter: Mr GASSNER, Georg (SLAC National Accelerator Laboratory)

Session Classification: D4, S4, Poster and Vendor Display

Track Classification: poster
