

In Hamburg sagt man Tschüß Farewell, dear Summies

Summer student program 2021: Final Session

Friederike Januschek for the organisers of the DESY Summer Student Programme
Hamburg, September 9th 2021

Summer students 2021

- It was great having you „here“
- We hope you could get a feeling of research at DESY even though (most of) you unfortunately couldn't be on-site

DESY Summer Student Programme 2021

News June 1: The tentative schedule for the online lecture programme is ready. The programme is open for all interested students.

Each summer DESY offers undergraduate students in physics, related natural sciences to participate in the research activities of the Hamburg and Zeuthen (near Berlin) DESY. The 2021 program will take place **from July 19 to September 10**. An announcement has been adapted to the special conditions due to the Covid pandemic and consists of:

1. Lecture programme:

Results

- First of all: nice scientific results as you have just presented in the last two afternoons.
- Hopefully: A glimpse into how we do science at DESY
- Lectures about a broad range of topics
- But also: Contacts to scientists at DESY and other students from all over the world
- Fun and Friends ☺

24 Countries out of 193 countries of the United Nations
and 2 countries that are non-member observer states: the Holy See and the State of Palestine.

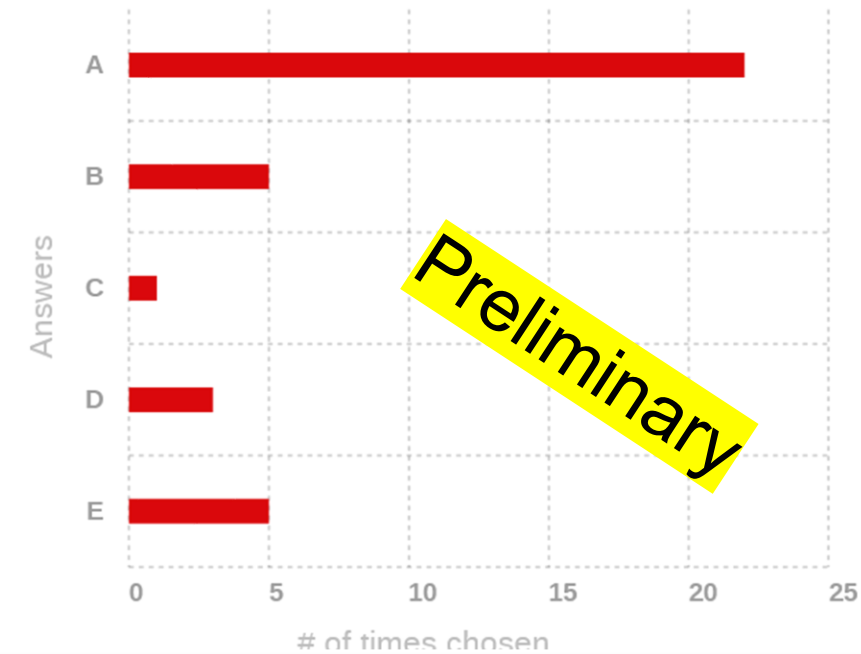

Feedback

In general

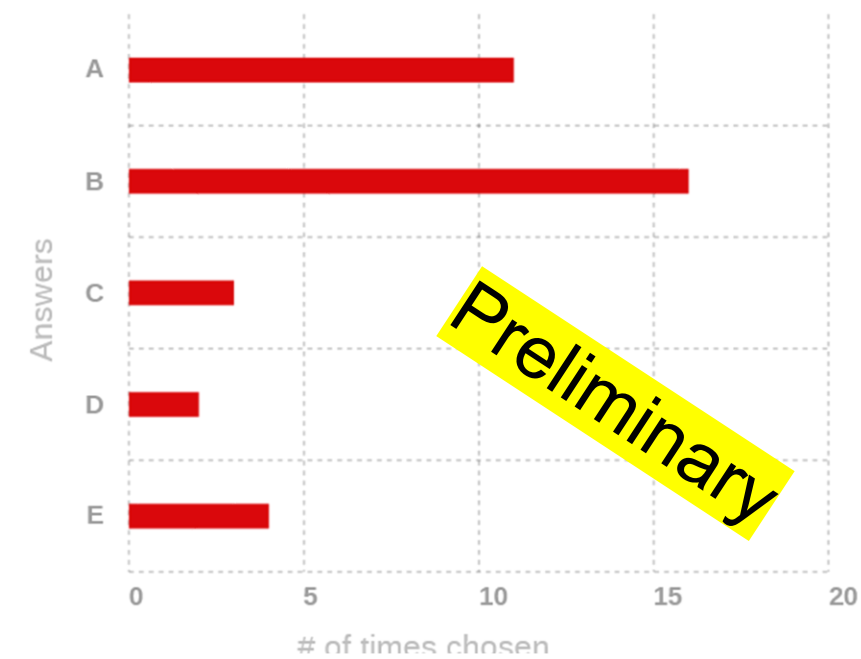

- Most people liked their projects
- Interactions with supervisors worked well for most (but not all people)
- Some problems with computing infrastructures
- Some projects not defined well enough
- Lecture program also rated very positively
- Many of you regretted very much that the program could only take place online

“Everything was great about my project, except for the fact it was online”

Project

Lecture program

Thank you!

- A big **Thank you** to the supervisors, who made this possible!
- Another big **Thank you** to the lecturers who really went through a lot of effort to give these overview lectures.
- **Thank you** to Ute, Andrea and many others for administrative and technical help.

Thank you, DESY Summies 2021, for your enthusiasm, curiosity and great work! This is what creates the spirit and value of the program. And – you made the best out of the imperfect situation due to the Corona pandemic.

The Future

If you would like to come back (this time for real)

- About 40% of the DESY Summeries return to DESY e.g. for doing their PhD.
- If you want to be one of them: **Stay in touch or get back in touch with your supervisors and other people at DESY.**
- Also, there are different graduate schools and other initiatives at DESY, e.g. DASHH, Helmholtz Weizmann Multimessenger Astronomy Research School, PIER; to some of them you can apply directly
- Also: check the webpages:
https://www.desy.de/career/career_programs/index_eng.html

Please stay in touch, we'll be happy to hear from you!
