

Postdoc and PhD positions in gamma-ray astronomy at ECAP

Wednesday 14 July 2021 12:07 (1 minute)

The Erlangen Center for Astroparticle Physics (ECAP) at the University of Erlangen-Nürnberg is seeking outstanding individuals for a

Postdoctoral researcher position (electronics)
and a
PhD candidate position (machine learning)

The postdoc is expected to work on development, characterisation and commissioning of camera electronics for CTA (FlashCam, SSTCam) the PhD candidate is expected to work on machine learning for H.E.S.S. and CTA (classification, reconstruction, data/MC consistency).

Type of post

PostDoc

Primary author: FUNK, Stefan (ECAP)

Session Classification: Offering a position

Track Classification: Scientific Field: GAI | Gamma Ray Indirect
