

HamburgAnalysis QuickUsersGuide Software Tools

- Collect links to useful software tools fully or partially developed at DESY
 - ✓ Profit from code used by the different analysis groups
 - ✓ Identify regions of overlap
 - ✓ Avoid duplicating work
- **HamburgAnalysis QuickUsersGuide Software tools:**

<https://twiki.cern.ch/twiki/bin/viewauth/CMS/HamburgAnalysisQuickUsersGuideSW>

Under development, but main idea (see example in twiki):

- Name of the package/piece of code
- Link to the documentation, in case it exists
- Brief description of the package
- Link to the repository

You can either edit the page yourself or send the information to me ;-)

As always, all comments/suggestions are more than welcome !
