

## **Session Program**

**10-12 Nov 2010**

# **Cosmic Radiation Fields - Sources in the early Universe**

## ***Session 8***

Desy-Campus, Auditorium (Building 05)  
Deutsches Elektronen-Synchrotron Notkestraße 85, D-22607 Hamburg

# Thursday 11 November

16:00

## Session 8

**Session** |

**Location:** Desy-Campus, Auditorium (Building 05), Deutsches Elektronen-Synchrotron Notkestraße 85, D-22607 Hamburg

16:00–16:30

### **Measurements of the spectral energy distribution of the cosmic infrared background**

**Speaker**

Mr Matthieu Bethermin

16:30–16:50

### **The Resolved Near-Infrared Extragalactic Background**

**Speaker**

Mr Ryan Keenan

16:50–17:10

### **Herschel/PEP resolves the far-IR background**

**Speaker**

Dr Stefano Berta

17:10–17:30

### **AKARI observation of the fluctuation of the near-infrared background**

**Speaker**

Prof. Toshio Matsumoto

17:30
