

# 14th Terascale Detector Workshop 2022

## Wednesday 23 February 2022

### ASICs I (14:15 - 15:25)

-Conveners: Doris Eckstein

| time  | [id] title                                                                   | presenter      |
|-------|------------------------------------------------------------------------------|----------------|
| 14:15 | [2] HVCMOS Sensors                                                           | PERIC, Ivan    |
| 14:40 | [3] CMOS Pixel Chip for the planned Belle 2 Upgrade                          | BAUDOT, Jerome |
| 15:05 | [4] ASICs for Photon Detection integrating Avalanche Diodes and CMOS Readout | FISCHER, Peter |
