

News from KIT

Artur Gottmann | March 8, 2022

- Prepared for the pledges 2022:

year	2021	2022
Tape [PB]	23	26
Disk [PB]	7.7	8.3
CPU [HEP-SPEC06]	67000	73000

- Currently, deploying new tape system for CMS

- About 25 PB migrated from old to new
- Participating in the CMS tape challenge with the new system

- Status for Linux updates:

- Purchasing licences for RHEL8
- Currently running tests for the GridKa Farm and Storage setups
- Obstacles to overcome in the Puppet configuration management:
Dependencies & versions need to be adapted to modules still supported under RHEL8
