

# on e+e- Higgs/EW/Top Factories, October 5-7, 2022, in Hamburg

## Thursday, 6 October 2022

**Poster Session: including Finger Food Dinner - Canteen and extension (17:30 - 19:30)**

[id] title	presenter	board
[60] New physics searches with the ILD detector at the ILC	BERGGREN, Carl Mikael	
[57] Kinematic Fitting at future e+e- Higgs Factories	LIST, Jenny	
[130] IDEA Detector in DD4HEP	CAPRIOTTI, Lorenzo	
[90] The International Large Detector: Tracking system	TITOV, Maxim COLAS, Paul	
[92] Very forward calorimeters at ILC/ILD	BOZOVIC JELISAVCIC, Ivanka	
[123] Status of the CALICE AHCAL - a highly granular SiPM-on-tile hadron calorimeter	KVASNICKA, Jiri	
[91] The International Large Detector: Calorimeter system	JEANS, Daniel	
[42] Higgs physics studies with ILC	MILUTINOVIC-DUMBELOVIC, Gordana MILUTINOVIC-DUMBELOVIC, Gordana	
[77] Higgs Self Couplings Measurements at Future proton-proton Colliders	MASTRAPASQUA, Paola	
[85] Search for non-Standard Model interactions of the top quark at ILC	IRLES, Adrian	
[96] Studies of di-Higgs production at the FCC-hh in the bbZZ(llvv) final state	LAUDAMUS, Kevin	
[109] The Semi-Digital Hadron Calorimeter (SDHCAL) for future Higgs Factories	Dr FOUZ, Mary-Cruz	
[128] Particle Flow reconstruction in IDEA with Pandora	AZZI, Patrizia	
[89] An overview of the International Large Detector (ILD) for a future electron-positron collider	BEHNKE, Ties	
[53] Di-Higgs with missing transverse momentum at FCC-hh	STAPF, Birgit	
[143] Measurement of the Higgs to diphoton branching fraction at 3 TeV CLIC	BOZOVIC JELISAVCIC, Ivanka
