

Higgs, Flavor and Beyond

Wednesday 28 September 2022

Parallel Session Wednesday Cosmo: Cosmology I - Seminar room 4, DESY Hamburg (14:00 - 15:30)

-Conveners: Gilly Elor

time	[id] title	presenter
14:00	[171] Gravitational waves from a holographic phase transitions	MORGANTE, Enrico
14:15	[174] Domain Walls in Models with Extended Higgs Sector	SASSI, Mohamed Younes
14:30	[181] Quantum and Gradient Corrections to False Vacuum Decay on a de Sitter Background	Dr CRUZ, Juan S.
14:45	[218] Resummation and cancellation of the VIA source in electroweak baryogenesis	VAN DE VIS, Jorinde Marjolein
15:00	[180] Dark sector in Two Higgs Doublet extensions with a Complex Scalar Singlet	ZIEGLER, Julia ZIEGLER, Julia
15:15	[176] Leptogenesis in a Non-Minimal Scotogenic Model	BANIK, Amitayus

Parallel Session Wednesday Cosmo: Cosmology II - Seminar room 4, DESY Hamburg (16:00 - 17:30)

-Conveners: Veronica Guidetti

time	[id] title	presenter
16:00	[148] Novel constraints on interacting dark sectors	RUBIRA, Henrique
16:15	[178] Cosmological constraints on the decay of heavy relics into neutrinos	Dr HUFNAGEL, Marco
16:30	[202] Constraining Single Field Inflation with the SKA	RÖVER, Lennart
16:45	[199] Probing higher order Starobinsky-inflation with CMB and 21cm	SCHOSSER, Benedikt
17:00	[207] Dark Matter from Preheating	PIERRE, Mathias
17:15	[219] Cosmic birefringence mediated by dark $U(1)$	KANG, Dongwoo
