

ATLAS-D-Meeting

Friday 21 September 2007

Higgs - SR3 (08:30 - 10:30)

time	[id] title	presenter
08:30	[70] Full/Fastsim comparison and background estimation in data for bb associated Higgs production	WOLFGANG, Mader
08:50	[71] Status of the H->WW analysis	DUEHRSEN, Michael
09:10	[72] WH(->WW) in leptonic decay channels and muon isolation studies for H->WW->mumununu	NUNNEMANN, Thomas
09:30	[73] Search for a standard model Higgs in ttH,H->WW	LUDWIG, Inga
09:50	[74] Track jets as a tool against the pile-up in VBF Higgs searches	KORTNER, Oliver
10:10	[75] Tau-ID optimisation and background estimation for VBF Higgs->tau tau	MÖSER, Nicolas
