

# ATLAS-D-Meeting

## Thursday 20 September 2007

### Plenarsitzung - SR3 (08:30 - 10:30)

| time  | [id] title                 | presenter            |
|-------|----------------------------|----------------------|
| 08:30 | [7] Welcome                | MOENIG, Klaus        |
| 08:35 | [8] b-tagging              | WEISER, Christian    |
| 09:05 | [9] Top Physics            | CRISTINZIANI, Markus |
| 09:35 | [10] Lepton Identification | KORTNER, Oliver      |
| 10:05 | [11] B-Physics             | WALKOWIAK, Wolfgang  |

### Plenarsitzung - S3 (11:00 - 13:00)

| time  | [id] title                     | presenter               |
|-------|--------------------------------|-------------------------|
| 11:00 | [12] Exotics                   | LENDERMANN, Victor      |
| 11:25 | [13] Jets, missing ET, taus    | BARILLARI, Teresa       |
| 12:00 | [14] Standard Model            | STAMEN, Rainer          |
| 12:30 | [15] Data analysis on the Grid | Dr ELMSHEUSER, Johannes |

# Friday 21 September 2007

## Plenarsitzung - S3 (11:00 - 13:10)

| time  | [id] title                                                 | presenter         |
|-------|------------------------------------------------------------|-------------------|
| 11:00 | [16] From HERA to the LHC                                  | NAUMANN, Thomas   |
| 11:30 | [17] Preparing ATLAS software for data taking and analysis | GIANOTTI, Fabiola |
| 12:00 | [18] Higgs Physics                                         | HORVAT, Sandra    |
| 12:30 | [19] Supersymmetry                                         | HALLER, Johannes  |
| 13:00 | [20] Announcements                                         | WERMES, Norbert   |
