## The Young Experimental Physicist Prize

*Monday 21 August 2023 15:30 (10 minutes)*

The 2023 Young Experimental Physicist Prize of the High Energy and Particle Physics Division of the EPS is awarded to Valentina M. M. Cairo for her outstanding contributions to the ATLAS experiment: from the construction of the inner tracker, to the development of novel track and vertex reconstruction algorithms and to the searches for di-Higgs boson production.

**Presenter:** CAIRO, Valentina (CERN)

**Session Classification:** EPS Prize Ceremony
