## B decays to open charm final states

*Wednesday 23 August 2023 17:55 (12 minutes)*

The  $B \rightarrow DDX$  and other related final states provides a bountiful arena for performing spectroscopy studies. This talk covers the latest results in this area from amplitude analyses and direct searches.

### Collaboration / Activity

LHCb

**Co-author:** VOS, Keri

**Presenter:** PAGARE, Bhagyashree (University of Warwick)

**Session Classification:** T06 QCD and Hadronic Physics

**Track Classification:** QCD and Hadronic Physics
