## Recent quarkonium results at Belle II

*Thursday 24 August 2023 08:45 (15 minutes)*

Belle II offers unique possibilities for the discovery and interpretation of exotic multi-quark states to probe the fundamentals of QCD. This talk presents recent results on searches for the hidden bottom transition between  $\Upsilon(10750)$  and  $\chi_{bJ}$ , and measurements of the energy dependence of the  $e^+e^- \rightarrow B^{(*)}\bar{B}^{(*)}$  cross section.

### Collaboration / Activity

Belle II
