

## Status update and first commissioning results from ESS

*Tuesday 6 December 2022 14:45 (15 minutes)*

A lot of progress has been made in the ESS project since the last update in this workshop series. First substantial commissioning steps have been taken in the accelerator, including the most central MicroTCA-based systems. The talk gives a short overview of where the project stands at the moment, what are the experiences so far and what is to be expected in the next couple of years.
