

TESTING INDICO – DRAFT

- Took the “Pizza Seminar category” and reorganized
 - still need to find out who can add Managers
 - if we could move exist categories around, instead of creating a new structure

The screenshot displays the Indico web interface for the 'FH Seminar task force proposal' category. The header includes a search bar, a 'Create event' button, and navigation links. The main content area features a table of categories and their event counts, along with a sidebar for 'Managers' and 'Materials'.

Category	Events
Old	4 events

- Could turn on “Allow flat view” though not recommended for categories with many events

CREATE SOME RECOMMENDATIONS FOR “CREATING” EVENTS?

- Include the “Name” (or acronym?) of the Seminar/Colloquium/Discussion into the Title of the event page indico
 - Then everything shows up in the calendar view nicely
- Include title and speaker name
 - Shows nicely in the list view for each subcategory
