

Standard Model Benchmarks at High-Energy Hadron Colliders

Thursday 16 June 2011

Top physics (2) (14:00 - 18:00)

time	[id] title	presenter
14:00	[36] Top-antitop production and top properties at DZero	WICKE, Daniel
14:25	[37] Top-antitop production and top properties at CDF	LYSAK, Roman
14:50	[38] Top - experimental discussion	
15:10	[39] Top theory - differential distributions	UWER, Peter
15:35	[40] Top theory - resummed calculations	FERROGLIA, Andrea
16:00	[41] Top theory - discussion	
16:20	Coffee break	
16:50	[42] Single-top production at Tevatron and LHC: results and prospects	WAGNER, Wolfgang
17:15	[43] Single top - theory status	MALTONI, Fabio
17:40	[44] Single top - discussion
