

PETRA III Workshop: HighRes and RSD Beamlines

Friday 28 September 2007

Resonant Scattering and Diffraction Beamline - Bldg. 25b, room 109 (08:45 - 13:00)

time	[id] title	presenter
08:45	[12] Origin of the perpendicular magnetic anisotropy in Ni ultra-thin films grown on Pt (001)	WERMEILLE, Didier
09:25	[13] Orbital polaron lattice formation in lightly doped La(1-x)Sr(x)MnO ₃	WOCHNER, Peter
10:05	Coffee break	
10:20	[14] Resonant scattering at the Ru L-edges	LEININGER, Philippe
11:00	[16] X-ray diffraction on correlated transition metal compounds	KRIMMEL, Alexander
11:40	Coffee break	
11:55	[18] Summary/Discussion
