Cascade developer meeting

CASCADE news

- cascade-3.2.3 (on hepforge)
  - Bug in merging procedure found: normalization in hepmc file was wrong → corrected (thanks to Armando)

- New features: 3.2.4 (not yet released… issues with cmake and P8 on linux)
  - optional hadronization with pythia8
  - possibility to switch starting scale for IPS to shat of process
  - possibility for running IPS with collinear pdfs (instead of TMDs)
  - optional to set kt2min: minimum kt allowed from TMD

Conferences

- REF 2022 (https://indico.desy.de/event/32950/)
