

Conditions of Participation

International Cosmic Day 2022 (online event)

The event takes place completely online, so that all participants may participate from home. When registering for the online event, which will take place on 22. Nov 2022, the students agree to the terms of participation listed below.

1. The organizers intend to use the web-based video conferencing system Zoom. For this purpose, a DESY Zoom account will be used (desy.zoom.us). The session data such as image and sound will be routed exclusively via European servers. Only connection metadata such as the IP address may also be routed via servers outside the EU. The responsibility DESY is responsible for the use of the data.
2. Access to the virtual event room will be provided by e-mail shortly before the event. Passing on the dial-in data to third parties is strictly prohibited!
3. Dialing into the virtual event room is only possible with a clearly visible name - otherwise the registered participants cannot be assigned and therefore cannot be admitted to the virtual event room.
4. For the feasibility of the event it is necessary that all participants use their microphone and video, as well as sharing their own screen, e.g., to discuss results. The use of video transmission will however still be avoided as far as it is possible.
5. The organizers will not record any sound or video during the event. Furthermore, all participants in the event are prohibited from making recordings of the event of any kind.
6. The event will take place from 8:00 to 15:00 and can only be attended as a full-day event. All participants will receive a certificate of participation at the end of the event.
