

# FIDIUM TB2 – Closing Remarks

Kilian Schwarz  
André Brinkmann

# Closing Remarks

- We thank you all for this productive workshop
- We managed to sharpen our idea what centre will contribute to which Wps and what centers plan to work together
- We managed to get ideas about missing bits and pieces
- We will use this as a basis to develop a constructive work plan hopefully in sync with the FIDIUM proposal
  - Important part will be to identify synergies among each other as well as with partner projects as e.g. NFDI
- The minutes of this meeting as well as the updated work plan will be shared with this community
- Up to the next FIDIUM TB2 meeting we will try to fulfill our milestones and track progress
- How often will we do FIDIUM TB2 meetings ? About every 6 months ? Summer 2023 ?
