

12th International Conference on Elastic and Diffractive Scattering - Forward Physics and QCD

Friday 25 May 2007

Opportunities at future colliders - Main Auditorium (09:00 - 11:00)

time	[id] title	presenter
09:00	[74] Low x and diffractive physics at future electron-proton/ion colliders	H KOWALSKI
09:30	[75] Opportunities in low-x physics at a future electron-proton/ion (EIC) collider facility	B SURROW
10:00	[76] LHeC: an unprecedented probe of hadronic dynamics	J DANTON
10:30	[77] Prospects at ILC	S WALLON
