

12th International Conference on Elastic and Diffractive Scattering - Forward Physics and QCD

Tuesday 22 May 2007

Diffraction in ep and e+e- collisions - Lab 1, Sem 3 (16:30 - 18:30)

time	[id] title	presenter
16:30	[26] Vector meson electroproduction within GPD approach	S GOLOSKOKOV
16:50	[27] On the limitations of the color dipole picture	C EWERZ
17:10	[28] What is measured in hard exclusive processes?	J LONDERGAN
17:30	[29] A Regge-pole model for DVCS	JENKOVSKY, L
17:50	[30] Glue drops inside hadrons	B POVH
18:10	[31] QCD factorization in $\gamma^* \gamma^* \rightarrow \rho \rho$	S WALLON
