

# 12th International Conference on Elastic and Diffractive Scattering - Forward Physics and QCD

## Tuesday 22 May 2007

### Elastic pp and ppbar scattering - Lab 1, Sem 1 (16:30 - 18:30)

time	[id] title	presenter
16:30	[41] The soft and the hard pomerons : elastic scattering and unitarisation	J-R CUDELL
16:50	[38] pp Elastic Scattering at LHC in a Nucleon-Structure Model	M ISLAM
17:10	[39] Reconstruction procedures for full set of helicity amplitudes in elastic proton-proton and proton-antiproton collisions (cancelled)	V OKOROKOV
17:30	[40] To the theory of high-energy nucleon collisions	V KUNDRAT
17:50	[37] Saturation effects in elastic scattering at the LHC	O SELYUGIN
18:10	[42] Elastic pp and ppbar scattering in the models of unitarized pomeron	Y MARTYNOV
