

12th International Conference on Elastic and Diffractive Scattering - Forward Physics and QCD

Tuesday 22 May 2007

Theoretical developments - Lab 1, Sem 5 (16:30 - 18:30)

time	[id] title	presenter
16:30	[46] BFKL at NNLO	S MARZANI
16:50	[43] Unintegrated parton distribution functions	A STASTO
17:10	[9] Nonlinear QCD at high energies	E LEVIN
17:30	[44] Toy model in Reggeon field theory	G P VACCA
17:50	[47] The Reggeon->2 Reggeons+Particle Vertex in the Lipatov effective action formalism	M BRAUN
18:10	[48] Total gluon shadowing due to fluctuation effects	M KOZLOV
