

12th International Conference on Elastic and Diffractive Scattering - Forward Physics and QCD

Wednesday 23 May 2007

Cosmic rays and astroparticle physics - Main Auditorium (10:30 - 12:30)

time	[id] title	presenter
10:30	[52] Introduction to cross section measurements using extensive air showers	R ULRICH
10:50	[53] Measuring proton-air Inelastic Cross-Section using Cosmic Ray Data.	K BELOV
11:10	[54] Measurement of the proton-air cross section with EAS-TOP	G C TRINCHERO
11:30	[55] Percolation and high energy cosmic rays above 10^{17} eV	J ALVAREZ-MUNIZ
11:50	[56] Physics and predictions of the EPOS model	WERNER, K
12:10	[57] LHCf: a LHC Detector for Astroparticle Physics	A TRICOMI
