

PUNCHLunch –

the online lunch seminar of the PUNCH4NFDI Consortium

Every second Thursday, 12:30-13:30 hrs: keynote and discussion

Thursday, 12 January 2023, 12:30 hrs:

Achim Geiser (DESY)

Data Preservation at HERA: Lessons from the past and for the future

Abstract:

After the end of HERA data taking in 2007 and before the end of funding in 2014 the ZEUS and H1 collaborations have developed slightly different strategies for the preservation of their unique electron-proton collision data at both DESY and MPI for Physics in view of their continued use for physics analyses. Both collaborations have successfully maintained their corresponding setups and continue to produce and publish physics results at the rate of about 2/year based on these efforts, bridging the gap between the end of HERA and the start of the Electron-Ion Collider at BNL. Details of the ZEUS and H1 data preservation models and of their impact on continued physics analyses capabilities will be discussed.
