

CMWS Water Days 2023 | DESY Research Course 2023

Wednesday 22 February 2023

Plenary Science Session: Novel approaches to unravel „on-water“ catalysis (13:30 - 14:15)

-Conveners: Thomas Kühne

Plenary Science Session: Water-splitting catalysts during operation (14:15 - 15:00)

-Conveners: Simone Techert

Plenary Science Session: Investigating protein solution dynamics using XPCS at XFEL and synchrotron sources (15:15 - 16:00)

-Conveners: Christian Gutt

Thursday 23 February 2023

Plenary Science Session: Presentations of ESP projects (detailed program under construction) (09:00 - 12:00)

Plenary Science Session: Plenary (17:00 - 18:00)

Friday 24 February 2023

Plenary Science Session: Lab experiments supporting the exploration of solar and extra-solar icy worlds (09:15 - 10:15)

-Conveners: Carmen Sanchez

Plenary Science Session: Lars H. Rüpke, title to be announced (10:15 - 11:15)

-Conveners: Lars H. Rüpke

Plenary Science Session: Gregory David, title to be announced (11:45 - 12:45)
