Group 5 Smart Data

Wednesday 31 May 2023 11:29 (1h 1m)

Deciding when and how to discard information without losing scientific value, based on learning from nature and experiment. What mechanisms for transforming data to smart data can be envisioned, and how can evaluation and control of information gain or loss be accomplished? How can archiving and retrieving data be managed?

Session Classification: Subworking Group Session: Hardware & Research Data
