

# Workshop: Sustainability in the Digital Transformation of Basic Research on Universe & Matter

Contribution ID: 35

Type: **not specified**

## Group 7 Autonomization

*Thursday 1 June 2023 16:30 (1h 30m)*

We witness the transformation from the era of automation to an era of autonomization (e.g., unsupervised learning). Where will ErUM-Data benefit from autonomization, which innovations are necessary and how can the reliability of the autonomously obtained results be ensured?

**Session Classification:** Subworking Group Session: Algorithms & Mindset
