

# Workshop: Sustainability in the Digital Transformation of Basic Research on Universe & Matter

Contribution ID: 38

Type: **not specified**

## Group 10 Machine Models

*Thursday 1 June 2023 16:33 (1h 27m)*

Pre-trained and gene-rative models have a high potential for energy savings in both their creation and usage of machine learning. What innovations are needed to achieve a reliable routine operation?

**Session Classification:** Subworking Group Session: Algorithms & Mindset
