

News from TAs and Working Groups

TA 1:

- comments on 4th **INTERNAL** quarterly report?
- Jahresverwendungsnachweise 2022 almost all received => probably we can reimburse all partners which have overspending (completely)
- Save the date: next General Meeting (virtual) on 13 June

TA 2: see slides

TA 3: see slides

TA 4: slides coming later

- changes in personnel within TA4 (WP leads)
- WP1: going into technical discussions on RPs (web interface)
- WP2: discussion on standardized APIs for metadata server
- WP3: discussion on use cases
- WP4: keycloak talking to Helmholtz-AAI, implementation of test cases (gitlab), rolling out new instance of Reana in coop with developers from CERN
- SciTrace workshop

TA 5: see slides

TA 6: see slides

TA 7:

InterTA: next meeting 1 March at 9:00 on TA2 services in context of use cases and experiences

CollabTools:

Note: slides = minutes, all in MB category in INDICO:

- Industry engagement (not yet official):

Task forces

- Evaluation & Reporting (TS, CS): regular meetings every 3 weeks, next on 8 March at 15:30, minutes via [Intranet](#)
- Tools (Kilian): meeting 8 Feb, minutes via [Intranet](#), OpenProject, NFDI helpdesk, NFDI [gitlab](#) & [github](#)

Kreise

- Sprecher:
- Finanz:
- Verwaltung: Code of Conduct in progress
- Kommunikation: Interest in [International Data Week](#), Salzburg, 23 - 26 Oct 2023

Base4NFDI (Thomas): <https://base4nfdi.de>

=> NFDI dates on intranet (please contribute): <https://intra.punch4nfdi.de/?md=/docs/NFDI/schedule.md>

=> NFDI “Erklärfilme” on YouTube (not new)

Base4NFDI proposals

leave your comments (with name please) in the Sync&Share document ([link in mail](#))

- DMP4NFDI (data management plans)
- HaDES (findability and discoverability enhancing services)
- IAM4NFDI (identity and access management)
 - compatibility with WLCG?
 - LoS by PUNCH
- KGI4NFDI (knowledge graph)
- PID4NFDI (persistent identifiers)
- TS4NFDI (terminology services)

Results page

- results.punch4nfdi.de
- start of discussion in Oct 2022
- public since end of Nov 2022
- what can be a “result”
 1. a public webapp delivering some result of a PUNCH workgroup etc, e.g. a survey, a documentation of a certain process
 2. a webapp which provides a service, but is not under PUNCH management (e.g. many data locations, we nevertheless want to collect and feature)
 3. a service (webapp or not) which provides access to computational or other facilities provided by PUNCH, e.g. a container with software to execute an analysis on data
 4. publishing a DRP or even a data collection requires also a procedure, which we do not already have discussed nor implemented.
- we need different flows for vetting these activities, suggestion
 1. an editorial workflow (from PUNCH)
 2. also an editorial workflow (from PUNCH)
 3. period of testing and criteria about the smooth functioning and the secure restrictions built in, before we let this being accessed by the public.

} defined procedure, notification by TA leads in MB before release
- technical handling of pushing results: Harry, Olaf M. (AIP), Christiane
- editors (planned): all TA leads
- discussion on structure of results page in EB
 - suggestion <https://syncandshare.desy.de/index.php/s/taG6y29LC3qsZ3R>
 - currently, there is so little content on this site that we will not implement this structure right away
- content “soon to come”: TA3 list of codes, TA6 repository with open source code
- possible content: list of PUNCH publications (poster, talks, papers), Multicloud service (WWU)

AOB

- PUNCHLunch topics! also work in progress
- ErUM-Data/ NFDI workshop in March 13-14 @MPIfR Bonn

Thank you!
