Physics Performance & Data sets

In this exercise you will learn to find the samples you need for an analysis and information about them, for instance their cross section or how they were produced. You will also learn how the CMS simulation chain works and how to run FullSim and FastSim on your own.

Presenters: MOUREAUX, Louis (UNI/EXP (Uni Hamburg, Institut für Experimentalphysik)); CONNOR, Patrick (UNI/EXP (Uni Hamburg, Institut für Experimentalphysik) & CDCS); BEIN, Samuel (University of Hamburg)

Session Classification: POG exercises
