

Minutes TA6 mtg on results page

General matters:

Regular meeting slots + connections + INDICO for TA & WPs

→ TA6 intranet and calendar(!)

People employed for TA (with institute / FTE fraction)

→ TA6 intranet: Need to be completed by: GSI, HTW, DESY

Today: Extraordinary mtg on general question identified at last general TA6

Related question: Do we need a dedicated, separate software repository? → requires separate discussion as proponents not present. → next WP4 meeting

Presentations by

tentative TA6 results page (collection, storing existing 'products') – incl., but not limited to beta versions of final results page
Kilian Schwarz: Requirements for results page and discussions

Conclusions of discussions on results page:

Recommendation from TA6 to EC:

Results page to be made public soon
Should be easy to access, avoid large number of clicks
Clear structure (services, tools, link to publications!)
Store results (rather than external links) if possible
Brief but concise description
One use case, if applicable (or links to several)
Agree on validation, vetting and approval asap
