

**NEW PERSPECTIVES IN
CONFORMAL FIELD THEORY AND GRAVITY**

HELMHOLTZ

26 - 29 September 2023 DESY Hamburg, Germany

Contribution ID: 318

Type: **not specified**

Twisting and untwisting in supergravity, conformal field theory, and holography

Tuesday 26 September 2023 14:40 (40 minutes)

I will give a bird's-eye view of some recent developments connected to twists of supergravity theories and to the twisted holography program, trying to highlight structural features that I have found both interesting and fruitful. The focus will be on examples related to M-theory.
