Combining Domain Knowledge and LLMs, efficient computation - Auditorium (14:15 - 18:15)

time	[id] title	presenter
14:15	[32] Language models for quantum simulation (25'+10') [zoom]	CARRASQUILLA, Juan
14:50	[33] AI Honesty and Self-Supervision (25' + 10') [zoom]	FREYTSIS, Marat
15:25	[34] AI and symbolic math (25'+10')	CHARTON, Francois
16:00	Break	
16:30	[35] Prospects of LLMs for Fundamental Physics (25' + 10') [zoom]	PETTEE, Mariel GOLKAR, Siavash
17:05	[36] Efficient Matrix Multiplication Algorithms for Quantized Language Models (20'+10') [in person, but demo on zoom]	GÄSSLER, Johannes
17:35	[37] Helmholtz Blablador: An Inference Server for Scientific Large Language Models (20'+10')	STRUBE, Alexandre
