## 2. Status of WP 3 activities

### 2.1 Makarim and Alexander

- Status of their work on deliverables D-WP3-1 and D-WP3-2
  - Makarim: draft version in review process
  - Alexander: draft version in progress, finalized in approx. 4 weeks

### 2.2 (Hermann)

- Tim prepared a detailed document on his work: “Overview of petabyte-scale metadata storage methods and frameworks” (10 p.)
  - It can be published (PUNCH web pages)

### 2.3 Jacob

- He presented details on his project, in particular, the difficulties of transforming old data formats previously used at the Effelsberg telescope.

### 3. Next steps

- Makarim and Alexander
  - Makarim: in about 2 weeks a document will be ready to be shown to the WP
  - Alexander: in about 4 weeks a document will be ready to be shown to the WP
  - Alexander is requesting sample data – for demonstration purposes
  - Both will send links to their documents
- Jacob
  - Continues his transformation work
  - He will check if there are "typical errors". This information could perhaps be useful for similar projects.

## 4. AOB

- Christiane
  - At the PUNCH4NFDI general meeting on Tuesday 13 June, 9-12, example projects from the WPs are to be shown. She asks for suggestions.
- Allesandro
  - He pointed out that there might be a aspects in our WP3 that are of interest for TA6-WP4 as well.
- Next WP-3 meeting
  - Approx. mid July 2023
  - Invitation in early July

*Thank you !*
